 - 1. Keep informed on fire weather conditions and forecasts.
 - 2. Know what your fire is doing at all times.
 - 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-ofsight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 - 4. Identify escape routes and safety zones and make them known.
 - 5. Post lookouts when there is possible danger.

- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 - 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 - 8. Give clear instructions and insure they are understood.
