

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, March 24, 2011 – 0800 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Heavy (406 new fires)
 New large fires: 15 (*)
 Large fires contained: 10
 Uncontained large fires: ** 16
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 0

Nationally, there is 1 large fire being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Predictive Services Discussion: Another dry, windy period is expected Thursday and Friday across western New Mexico, northwest Texas, eastern Colorado and Oklahoma. The Carolinas will also see dry, windy conditions on Thursday. A series of low pressure troughs continue to move inland bringing rain and snow along the Pacific coast and the Intermountain West.

**Today's discussion is from the
Aviation Category.**

SAFECOMS

What the SAFECOM system IS

The Aviation Safety Communiqué (SAFECOM) [AMD-34/FS-5700-14](#) should be used to report any condition, observation, act, maintenance problem, or circumstance with personnel or the aircraft that has the potential to cause an aviation-related mishap. SAFECOMS are a tool used to identify, document, track, and correct safety related issues.

What the SAFECOM system IS NOT

- NOT intended for initiating punitive actions,
- NOT to be used as a complaint system or for personal attacks,
- NOT used by contracting officers for contract evaluations/award purposes,
- NOT a substitute for "on-the-spot" corrections to a safety concern,
- Does NOT replace the requirement for initiating an accident or incident report.

SAFECOMS provide the necessary feedback for development of the following communication tools:

- [Accident Prevention Bulletins](#)
- [Lessons Learned](#)
- [Safety Alerts](#)
- [Technical Bulletins](#)
- [Airwards](#)
- Information sharing Memos
- Maintenance deficiencies (ADs, SBs, etc)
- Safety trends
- Training needs

 Please contact AMD at (208)433-5070 or USFS at (208)387-5285 to report problems with the SAFECOM system.

[Safety Alert 08-07](#)

[Safety Alert 06-01](#)

[See a short slide show on the Effective Use of the SAFECOM system](#)

NEW FEATURE!! Image files (jpg and gif) and PDF files can now be added to your SAFECOM to help clarify and enhance the narrative.

Have an idea? Have feedback? Share it.
