National Interagency Coordination Center Incident Management Situation Report Monday, March 28, 2011 – 0800 MT National Preparedness Level 1

National Fire Activity

Light (36 new fires) Initial attack activity: 4 (*) New large fires: 1 Large fires contained: Uncontained large fires: ** 20 Area Command Teams committed: 0 NIMOs committed: 0 0 Type 1 IMTs committed: 3 Type 2 IMTs committed:

Nationally, there is 1 large fire being managed to achieve multiple objectives.

Link to Geographic Area daily reports.

Southern Area (PL 3)

| New fires: | 35 |
|--------------------------|----|
| New large fires: | 4 |
| Uncontained large fires: | 17 |
| Type 2 IMTs committed: | 3 |

Southeast GA Complex (5 fires), Georgia forestry Commission. Georgia IMT 2 (Floyd). Eight miles south of Waycross, GA. Southern rough. Moderate fire activity. Residences threatened. Precipitation occurred over the fire area yesterday.

SR8, North Carolina DOF. North Carolina IMT 2 (Hendricks). Four miles south of Verona, NC. Southern rough. Creeping and smoldering. Reduction in acreage due to more accurate mapping.

Elim Church Rd., Georgia Forestry Commission. IMT 2 (Dueitt). One mile northeast of Ludiwici, GA. Southern Rough. Creeping and smoldering. Precipitation occurred over the fire area yesterday.

Two Potato, Oklahoma DOF. Ten miles northeast of Clayton, OK. Grass. No further information received.

- * **Cooksey**, Texas Forest Service. Started on private land 39 miles northwest of Pecos, TX. Juniper and grass. Active fire behavior.
- * Merritt Marsh, Florida DOF. Five miles southeast of Webster, FL. Grass. Active fire behavior.
- * Sweet Potato, Oklahoma DOF. Five miles west of Albion, OK. Timber. No further information received.

Bailey's Slough, Oklahoma DOF. Twelve miles southeast of Broken Bow, OK. Timber. No further information received.

Sandy Bottoms, Georgia Forestry Commission. Four miles southeast of Jasper, GA. Grass. No new information. Last report unless new information is received.

^{**} Uncontained large fires include only fires being managed under a full suppression strategy.

Winch Bumper, Mississippi Forestry Commission. Two miles west of Gulfport, MS. Timber litter. No new information. Last report unless new information is received.

CR-164, Arkansas Forestry Commission. Eight miles west of Okland, AR. Hardwood litter. No new information. Last report unless new information is received.

Redbird Lake, Oklahoma DOF. Three miles southeast of Proctor, OK. Logging slash. No new information. Last report unless new information is received.

Christie, Oklahoma DOF. Six miles west of Westville, OK. Hardwood litter. No new information. Last report unless new information is received.

Predictive Services Discussion: Strong winds 20-25 mph with gusts to 35 mph and low RH in the teens will create critical fire weather conditions across southeastern Colorado, eastern and southern New Mexico and west Texas. Showers and thunderstorms will develop along a stalled front across the deep south from South Carolina to east Texas. Scattered snow and coastal rain showers will continue across the northwest US from Washington, Oregon and northern California through Colorado and Wyoming.

Link to Predictive Services Outlook products.

Minutes FOR SAFETY

Today's discussion is from the Miscellaneous Category.

Scenarios are situations that can arise on a Wildland Fire or Aviation incident and are meant to add a realistic setting for the application of Today's Safety Discussion.

Potentially Violent Personal Encounters

Firefighters need to be aware of the potential for personal violence directed against them while they are engaged in fire operations and be alert to the warning signs during personal encounters with individuals. They also need to be aware of potential criminal activity (e.g., illegal dumping on public lands, clandestine drug labs, marijuana cultivation, etc.) in remote areas of public lands, and be prepared to leave the area immediately as persons engaged in such criminal activity can be hostile and violent if discovered.

- If a firefighter meets a member of the public who is hostile, the employee should:
 - be polite and non-threatening,
 - do not try to reason with potentially violent individuals,
 - leave the area as soon as possible,
 - report the incident to their supervisor, dispatch and law enforcement authorities.
- The vast majority of public land users are courteous and friendly, and want to use public lands properly and legally. Most encounters will be friendly and educational to both parties. Firefighters should be aware of the fact that there are exceptions to this rule, and should cultivate a situational awareness when they are in the field.
- If a firefighter feels at all uneasy or uncertain about a situation, they should not be embarrassed to leave the area. Firefighter safety and health are always primary considerations on the job.
- Note: It is unlawful for anyone to physically or verbally abuse a Federal employee who is acting within the scope of their duties—notify law enforcement at once if either occurs.
