

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, May 14, 2011 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (113 new fires)
New large fires:	2 (*)
Large fires contained:	2
Uncontained large fires: **	15
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

Nationally, there are 2 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Southern Area (PL 4)

New fires:	78
New large fires:	1
Uncontained large fires:	10
NIMOs committed:	1
Type 1 IMT committed:	1
Type 2 IMT committed:	3

NIMO (Gage) and North Carolina IMT 2 (Hildreth) are assigned to manage large fires and provide support to initial attack operations for the West Branch Operational Area in Texas. Texas IMT 2 (Hannemann) is managing existing and new fires located in Texas state initial attack zones.

Pains Bay, Alligator River NWR. IMT 1 (Quesinberry). Nineteen miles south of Manns Harbor, NC. Brush. Minimal fire activity.

Honey Prairie, Okefenokee NWR. Georgia IMT 2 (Kline). Fifteen miles northeast of Fargo, GA. Southern rough. Extreme fire behavior.

Iron Mountain, Texas Forest Service. Ten miles northwest of Alpine, TX. Grass. Active fire behavior. Increase in acreage due to more accurate mapping. Structures threatened.

Schwartz, Texas Forest Service. Twenty miles east of Marathon, TX. Hardwood slash, brush and grass. Moderate fire activity.

Jarhead, Big Cypress National Preserve. Seven miles north of Oasis, FL. Southern rough. Minimal fire activity. Structures threatened.

Dickens County Complex (two fires), Texas Forest Service. Seven miles southeast of Dickens, TX. Grass. Minimal fire activity.

611 Gas Plant, Texas Forest Service. Thirteen miles northwest of Sweetwater, TX. Grass. No new information.

Gage Holland, Texas Forest Service. Six miles west of Alpine, TX. Hardwood slash, brush and grass. Minimal fire activity.

* **Colbalt**, Florida Division of Forestry. Nineteen miles east of East Naples, FL. Southern rough. Moderate fire activity.

Predictive Services Discussion: Fire weather conditions will approach critical values for wind and relative humidity from Arizona to west Texas. A trough entering the interior West will produce gusty winds across the Great Basin while scattered rain and snow showers and a few thunderstorms develop from the central Rockies to the Pacific Northwest. A low pressure system over the Ohio Valley will produce areas of rain and scattered thunderstorms across the Great Lakes region and much of the Eastern Seaboard. Strong thunderstorms are possible from Virginia to northern Florida.

Today's discussion is from the
Fireline Safety Category.

UNBURNED FUEL BETWEEN YOU AND THE FIRE

It is important for firefighters to recognize unburned fuel between themselves and the fire as Watchout Situation #11. Often it is not possible or practical for direct attack on a fire. Before attempting indirect attack and any time the firefighter is in a position where there is unburned fuel between them and the fire, the following questions must be addressed immediately:

- Can you see the fire or are you in contact with someone who can? Discuss situations you might find yourself in where you are out in the green and cannot see the fire. What can you do?
- Is fire spread in a direction away from you? Do you consider the potential for fire spread? Are you safe if the wind switches?
- Will your position be defensible when the fire reaches you? Talk about what must be taken into account when building indirect line or approaching a fire through the green.
- Is your line anchored? Discuss how you anchor indirect line.
- Are your escape routes and safety zones adequate? What is adequate?
- Are weather indicators constantly changing?
- To reduce the risks:
 - Post lookouts
 - Consider a different location. Review situations where you constructed indirect line or approached a fire through the green and how you provided for your safety.
