

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, May 24, 2011 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (114 new fires)
 New large fires: 3 (*)
 Large fires contained: 4
 Uncontained large fires: ** 11
 Area Command Teams committed: 0
 NIMOs committed: 1
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 7

Nationally, there is 1 large fire being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Geographic Area daily reports: <http://www.nifc.gov/nicc/predictive/statelinks.htm>

Southern Area (PL 3)

New fires: 75
 New large fires: 2
 Uncontained large fires: 4
 NIMOs committed: 1
 Type 2 IMTs committed: 4

NIMO (Gage) and IMT 2 (Dueitt) are assigned to manage large fires and provide support to initial attack operations for the West Branch Operational Area in Texas. Texas IMT 2 (Hannemann) is managing existing and new fires located in Texas state initial attack zones.

Honey Prairie, Okfenokee NWR. Florida IMT 2 (Leneave). Five miles northeast of Fargo, GA. Southern rough. Moderate fire activity. Reduction in acreage due to more accurate mapping.

Pains Bay, Alligator River NWR. North Carolina IMT 2 (Smith). Nineteen miles south of Manns Harbor, NC. Timber and brush. Active fire behavior. Residences threatened.

Tison, Sabine NWR. Seventeen miles southwest of Hackberry, LA. Grass. Moderate fire activity.

* **Possum**, Eastern Cherokee BIA. One mile west of Cherokee, NC. Timber. Moderate fire activity.

* **Tiger Cat**, Mississippi Forestry Commission. Six miles northeast of Pearlinton, MS. Timber. No further information received.

CDD – California Desert District

Predictive Services Discussion: Critical fire weather conditions associated with strong, gusty winds of 25 to 45 mph and low relative humidity below 12 percent will develop across much of central and eastern New Mexico and west Texas. A strong trough moving through the Great Basin will bring very windy conditions to much of the Southwest. Showers and thunderstorms will develop across the northern Rockies and eastern Great Basin as the trough passes. A low pressure system in the central Plains will trigger showers and thunderstorms from South Dakota to central Texas with very strong storms possible over much of Kansas, Oklahoma and north Texas. Showers will form along a cold front dropping through the Ohio Valley and New England. In Alaska, building high pressure will bring warmer conditions across the interior.

Predictive Services Outlook products: <http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

Today's discussion is from the
**LCES (Lookouts, Communication, Escape
Routes, and Safety Zones) Category.**

LOOKOUTS

Lookouts are often better situated to notice the cumulative changes of fire behavior.

- Fire Order #5 says "Post lookouts when there is possible danger." Should you utilize lookouts at all times?
 - Lookouts should be posted at all times.

- What are you looking for when you are selecting a lookout location?
 - Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
 - Never rely exclusively on aircraft as your lookout.

- What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout person?
 - Experienced firefighter.
 - Solid knowledge of fire behavior and ability to recognize and monitor other environmental hazards.
 - Knowledge of crew locations, escape and safety locations and trigger points.
 - Good communicator--keeps the crew advised of fire behavior changes, tracks weather trends and relays the information, informs crew of work progress and updates from the latest strategy and tactical briefings.
 - Monitors and accounts for all individuals within his/her assigned area at all times, and will notify others if breaks are needed.

- What is the necessary equipment for a lookout?
 - PPE, radio with extra batteries, compass, binoculars, belt weather kit, IAP, map, food, water and watch.
