

**National Interagency Coordination Center  
Incident Management Situation Report  
Sunday, June 12, 2011 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial attack activity: Light (84 new fires)  
 New large fires: 3 (\*)  
 Large fires contained: 1  
 Uncontained large fires: \*\* 27  
 Area Command Teams committed: 1  
 NIMOs committed: 1  
 Type 1 IMTs committed: 7  
 Type 2 IMTs committed: 6

Nationally, there are 16 large fires being managed to achieve multiple objectives.

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Southwest (PL 5)**

New fires: 8  
 New large fires: 1  
 Uncontained large fires: 7  
 Area Command Teams committed: 1  
 Type 1 IMTs committed: 5  
 Type 2 IMTs committed: 1

**Wallow**, Apache-Sitgreaves NF. Area Command Team (Loach). IMT 1 (Reinarz, Pendleton, Hughes and Poncin). Twenty-three miles southwest of Alpine, AZ. Timber and grass. Extreme fire behavior. Numerous structures threatened. Evacuations in effect.

**Horseshoe 2**, Coronado NF. IMT 1 (Thomas). Seven miles southwest of Portal, AZ. Timber and grass. Active fire behavior. Evacuations in effect.

**Murphy Complex** (two fires), Coronado NF. Transfer of command from IMT 2 (Nelson) back to the local unit will occur today. Five miles east of Arivaca, AZ. Grass. Minimal fire activity.

**Miller**, Gila NF. Twenty-five miles north of Silver City, NM. Timber and grass. Minimal fire activity.

\* **Augustine**, Las Cruces District, BLM. Five miles east of Las Cruces, NM. Brush and grass. Moderate fire activity.

**Osha**, Carson NF. Four miles east of Penasco, NM. Timber. No further information received.

### **Southern Area (PL 4)**

New fires: 32  
New large fires: 2  
Uncontained large fires: 16  
NIMOs committed: 1  
Type 1 IMTs committed: 1  
Type 2 IMTs committed: 3

NIMO (Gage) is assigned to manage large fires and provide support to initial attack operations for the West Branch Operational Area in Texas. Texas IMT 2 (Hannemann) is managing existing and new fires located in Texas state initial attack zones.

**Honey Prairie**, Okefenokee NWR. IMT 1 (Wilder). IMT is also managing the Race Pond fire. Five miles northeast of Fargo, GA. Southern rough. Moderate fire activity.

**Race Pond**, Okefenokee NWR. Transfer of command from IMT 1 (Wilder) back to the local unit on 6/13. Ten miles south of Waycross, GA. Southern rough. Minimal fire activity.

**Pains Bay**, Alligator River NWR. North Carolina IMT 2 (Hendricks). Nineteen miles south of Manns Harbor, NC. Timber and brush. Minimal fire activity. Structures threatened.

**Espanola**, Florida DOF. Florida IMT 2 (Graham). Seven miles southeast of Bunnell, FL. Southern rough. No new information .

**Prairie**, Florida DOF. Five miles west of Doral Park, FL. Grass. No new information.

**Dos Amigos**, Texas Forest Service. Fifteen miles west of Robert Lee, TX. Brush and grass. Minimal fire activity. Increase in acreage due to more accurate mapping.

**Impassable Bay**, National Forests in Florida. Fifteen miles northeast of Lake City, FL. Southern rough. Active fire behavior.

**Bad Land**, Florida DOF. Sixteen miles south of Bronson, FL. Southern rough. No further information received.

**Burdett**, Texas Forest Service. Fifteen miles southwest of Childress, TX. Grass. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

**C-4**, St. Vincent NWR. Four miles southeast of Indian Pass, FL. Grass. Moderate fire activity.

**Seven Angels**, Merritt Island NWR. Eight miles southeast of Titusville, FL. Southern rough. Minimal fire activity.

**Doc Whitfield**, Florida DOF. Ten miles northeast of Port St. Joe, FL. Southern rough. No new information.

\* **McClarty**, Texas Forest Service. Fifteen miles southwest of Crowell, TX. Grass. Minimal fire activity.

**Camp Boothe Oaks**, Texas Forest Service. Seven miles southwest of Sweetwater, TX. Grass. Active fire behavior.

**4A**, National Forests in Florida. Four miles west of Tallahassee, FL. Southern rough. Minimal fire activity.

**Camp G**, Florida DOF. Twelve miles northeast of Canal Point, FL. Southern rough. No new information. Last report unless new information is received.

\* **Milligan**, Cherokee NF. Two miles southeast of Citico, TN. Timber and slash. Moderate fire activity.

**Predictive Services Discussion:** Critical fire weather conditions associated with strong winds of 20 to 30 mph and low relative humidity below 15 percent will occur over eastern Arizona, New Mexico, southern Colorado, and West Texas. Hot and dry conditions will occur over Texas, Oklahoma, Arkansas, and Louisiana. A little cooler with an increase in shower and thunderstorm activity over the East Coast. Scattered showers and thunderstorms will continue over the Northern Rockies and form over the Plains from Kansas to North Dakota. In Alaska, temperatures will cool with an increase in shower activity.

Predictive Services Outlook products: <http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## Today's discussion is from the Fireline Safety Category.

### Roadside Incident Response

Nationally, the number of injuries and fatalities among emergency responders who are responding to roadside incidents is increasing at an increasing rate. Although most wildland fires occur in remote areas, there are situations where wildland fire personnel are responding to fires along rural country roads, jeep roads, or major highways; the risk still exists for our firefighters. Below is a checklist of considerations that should be utilized when responding to fires and other incidents along roadsides:

#### Considerations

- Firefighter and public safety will always be the number one priority.
- Utilize L.C.E.S. in all incident activities.
- Personal Protective Equipment will be used on all incidents.

#### **Upon Arrival at the Scene**

Size up incident- see Incident Response Pocket Guide

- What has happened?
- What is happening?
- What will or could happen?
- Is this a HazMat situation?

#### Risk Management Process-

- Decision Point, Go No Go. See the Incident Response Pocket Guide, page 1

#### **Tactical Considerations**

- Anytime traffic flow is affected by the incident, contact the jurisdictional law enforcement agency for assistance.
- Conduct all operations as far from traffic lanes as possible to provide for crew and public safety.
- Park units on the same side of the roadway whenever possible to avoid traffic congestion.
- Personnel do not exit the fire apparatus until instructed to do so by the module leader.
- Exit the fire apparatus away from the roadway or where hazard exposure is minimized.
- Exit the fire apparatus with full personal protective equipment.
- Post a lookout to watch for and control oncoming traffic.
- Utilize forward and rear spotters when visibility is impaired or road conditions warrant.
- Utilize and place road flares or other traffic warning signs whenever possible
- If equipment needs to be removed from the traffic side of the apparatus, one person will retrieve the equipment and a lookout will watch for oncoming traffic.
- Engine operators will operate pumps from the non-traffic side or from the cab of the apparatus when possible. Keep all hose, fire tools, and equipment out of traffic lanes when possible.
- During night operations utilize reflective clothing, vests and other safety equipment as necessary.
- All emergency responses on roadways will be concluded as quickly as possible to reduce personnel exposure.
- Cancel or demob unnecessary apparatus as soon as possible.

*\*\* Each agency emergency vehicle operator will follow their particular state laws and agency policies governing the operations of emergency vehicles.*
