# National Interagency Coordination Center <br> Incident Management Situation Report <br> Wednesday, August 10, 2011 - 0530 MT National Preparedness Level 2 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Moderate (280 new fires)
6 (*)
7
28

Nationally, there are 38 large fires being managed to achieve multiple objectives.
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

## Southern Area (PL 3)

New fires: 154
New large fires: 0
Uncontained large fires: 20
Type 1 IMTs committed: 1
Lateral West, Great Dismal Swamp NWR. IMT 1 (Quesinberry). Nine miles southeast of Suffolk, VA. Brush. Moderate fire activity.

Cherry Homes, Texas Forest Service. Twelve miles east of Jacksboro, TX. Brush. Moderate fire activity. Residences threatened.

Apache Mountain, Texas Forest Service. Started on private land twenty-nine miles northeast of Van Horn, TX. Brush. Minimal fire activity. Reduction in acreage due to more accurate mapping.

Gage, Texas Forest Service. Nine miles northwest of Sherman, TX. Brush and grass. No new information. Last report unless new information is received.

Gurney, Osage Agency, BIA. Six miles southwest of Pawhuska, OK. Grass. Structures threatened. No further information received.

Opal, Ouachita NF. Two miles southeast of Opal, AR. Hardwood litter. Residences threatened. No further information received.

Brad Kelly, Texas Forest Service. Started on private land thirty-nine miles southwest of Alpine, TX. Brush. No further information received.

High Peak, Ouachita NF. Previously reported incident. Five miles northeast of Norman, OK. Hardwood litter. Moderate fire activity. Last report unless significant activity occurs.

Yancy Mountain, Oklahoma DOF, Five miles northeast of Wilburton, OK. Hardwood litter. No new information.

Colony, Concho Field Office, BIA. One mile south of Colony, OK. Grass. No new information. Last report unless new information is received.

Honey Creek, Arkansas Forestry Commission. Two miles south of Mason Valley, AR. Hardwood litter. No new information. Last report unless new information is received.

Gobbler Creek, Okmulgee Field Office, BIA. Two miles northwest of Lamar, OK. Hardwood litter. No new information.

Deep Rock, Shawnee Field Office, BIA. Three miles northeast of Cushing, OK. Hardwood litter. No new information. Last report unless new information is received.

County Line, Oklahoma DOF. Five miles southeast of Grove, OK. Hardwood litter. No new information.
Low Gap, Oklahoma DOF. Ten miles north of Sallisaw, OK. Grass. No new information. Last report unless new information is received.

Moro Bay, Arkansas Forestry Commission. Four miles northeast of Moro Bay, AR. Hardwood litter. No new information. Last report unless new information is received.

Hermitage 1, Arkansas Forestry Commission. Five miles southeast of Hermitage, AR. Timber. No new information. Last report unless new information is received.

Friend, Oklahoma DOF. Three miles east of Wyandotte, OK. Hardwood litter. No new information. Last report unless new information is received.

Muddy Water, Okmulgee Field Office, BIA. Four miles west of Hanna, OK. Slash. No new information. Last report unless new information is received.

John Ashley Road, Arkansas Forestry Commission. Four miles south of Kirby, AR. Timber. No new information. Last report unless new information is received.

Schaal Road, Arkansas Forestry Commission. Three miles west of Mineral Springs, AR. Hardwood litter. No new information. Last report unless new information is received.

## Southwest (PL 2)

New fires:3

New large fires:
Uncontained large fires:
Flying H, Roswell Field Office, BLM. Thirty-six miles west of Roswell, NM. Grass. No new information.
Baton Rouge, Roswell Field Office, BLM. Thirty-five miles west of Roswell, NM. Grass. No new information.
Tom's Canyon, Carlsbad Field Office, BLM. Twenty miles west of Carlsbad, NM. Grass. Structures threatened. Active fire behavior.

Dinner, Lincoln NF. Thirty-two miles southwest of Carlsbad, NM. Brush and grass. Running fire.

* Rocky, Coconino NF. Fifteen miles southeast of Sedona, AZ. Timber and logging slash. Active fire behavior. Last report unless significant activity occurs.
* Italian, Cibola NF. Fifteen miles southwest of Magdalena, NM. Closed timber litter. Moderate fire activity. Last report unless significant activity occurs.
* A/L, Cibola NF. Sixteen miles southwest of Magdalena, NM. Logging slash. Moderate fire activity. Last report unless significant activity occurs.

WID - Winnemucca District Office, BLM

Predictive Services Discussion: A stalled surface trough along the eastern side of the Rockies all the way from the Canadian border down to the Texas Panhandle and then eastward to the southern Atlantic coast will be the major trigger for showers and thunderstorms today. A shortwave trough moving early into the Northwest will pull convection back into eastern Washington and Oregon. Typical afternoon thunderstorms will also occur in the Southwest. Continuing extreme heat over the southern Plains.

Predictive Services Outlook products: http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

## Today's discussion is from the Fireline Safety Category.

## REFUSING RISK ("TURN DOWN" PROTOCOL)

Every firefighter has the right and obligation to report safety problems and contribute ideas regarding their safety. Supervisors are expected to give these concerns and ideas serious consideration. When an individual feels an assignment is unsafe, they also have the obligation to identify, to the degree possible, safe alternatives for completing that assignment. Turning down an assignment is one possible outcome of managing risk.

- A turn down is a situation where an individual has determined an assignment cannot be undertaken as given, and they are unable to negotiate an alternative solution.
- A turn down must be based on an assessment of risks and the ability of an individual or organization to control those risks.
- A situation may be a candidate for a turndown if:
- There is a violation of safe work practices.
- Environmental conditions make the work unsafe.
- The forces lack the necessary qualifications or experience.
- Defective equipment is being used.
- The following steps will be used when turning down an assignment:
- The individual will directly inform their supervisor that they are turning down the assignment as given. (Document using criteria outlined in the risk management process.)
- Supervisor will notify the Safety Officer immediately upon being informed. In the absence of a Safety Officer, the appropriate Section Chief or Incident Commander will be notified. This step provides accountability for decisions and initiates communication of safety concerns.
- If the supervisor requests another resource to perform the assignment, he/she is responsible for informing that resource that the assignment has previously been refused and the reason(s) why.
- The safety hazard should be documented by the submission of a SAFENET or SAFECOM.
- These actions do not stop an operation from being carried out. This protocol is integral to the effective management of risk as it provides timely identification of hazards to the chain of command, raises risk awareness for both leaders and subordinates, and promotes accountability.
