# National Interagency Coordination Center Incident Management Situation Report <br> Thursday, August 25, 2011 - 0530 MT <br> National Preparedness Level 2 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:

Moderate (228 new fires)
8 (*)
13
14
0
0

0
7

Nationally, there are 47 large fires being managed to achieve multiple objectives.
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

## Northern Rockies Area (PL 3)

New fires: 12
New large fires: 4
Uncontained large fires: 6
Type 2 IMTs committed:
4
West Riverside, Montana DNR. IMT 2 (Grant). Twelve miles southeast of Missoula, MT. Timber. Active fire behavior. Structures threatened.

* Black Springs Complex, (two fires) Northern Cheyenne Agency, BIA. IMT 2 (Benes) Includes previously reported Waterhole, and Boss Ribs incidents. Six miles west of Lame Deer, MT. Timber. Active fire behavior.
* Diamond Complex, (two fires) Miles City Field Office, BLM. IMT 2 (Heintz). Includes previously reported Little, Fork, and Maverick incidents. Twenty-nine miles south of Ashland, MT. Timber. Active fire behavior. Structures threatened.

Mill, Custer NF. Twenty miles northeast of Ashland, MT. Timber and brush. Active fire behavior.
Saddle Complex - Bitterroot Branch, Bitterroot NF. IMT 2 (Hutton). Thirty miles southwest of Darby, MT. Timber. Active fire behavior. Structures threatened.

East Fork, Nez Perce NF. Twenty miles east of Elk City, ID. Timber. Active fire behavior. Last report unless significant activity occurs.

* Storm Complex, Clearwater NF. Thirty-five miles southwest of Missoula, MT. Timber. No further information received. Last report unless significant activity occurs.

BDF - San Bernardino NF

Predictive Services Discussion: Widely scattered thunderstorms will move through central Idaho into western Montana as a cold front pushes through the Northwest. Scattered showers and thunderstorms will develop across most of the southern and central Rockies and the eastern Great Basin. A cold front will produce scattered showers and thunderstorms from New England to the lower Mississippi Valley. Hot weather will continue over most of the west while cooler conditions spread across the Midwest and central Plains.

Predictive Services Outlook products: http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

Today's discussion is from the Fireline Safety Category.

## NO COMMUNICATION LINK WITH CREW MEMBERS, SUPERVISORS \& ADJOINING FORCES

Watchout Situation \#7 is a danger that must be mitigated by maintaining good communications while working on fires. Firefighters must constantly ask themselves the following questions as situations change on the fireline:

- Can communications be established?
- Talk about how communications are set up on fires.
- Review situations where communications were a problem and what was done to fix the problem.
- Do you need a repeater setup or can an experienced firefighter act as a human repeater?
- Is the communication triangle complete?
- Review the communication triangle and where it comes up in the " 10 Standard Fire Orders" and the "18 Watchout Situations."
- Discuss ways that firefighters can maintain the communication triangle on the fireline.

## Reduce the risks

- If the situation is complex, wait until communications are in place.
- Talk about the fires where crews had to leave the line, didn't go out on the line, or something negative happened because communications were inadequate. Discuss what was done to establish communications.
