

**National Interagency Coordination Center
Incident Management Situation Report
Monday, October 10, 2011 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (32 new fires)
 New large fires: 1 (*)
 Large fires contained: 3
 Uncontained large fires: ** 5
 Area Command Teams committed: 0
 NIMOs committed: 1
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 2

Nationally, there are 59 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Eastern Area (PL 3)

New fires: 4
 New large fires: 0
 Uncontained large fires: 2
 Type 2 IMTs committed: 2

Pagami Creek, Superior NF. Minnesota IMT 2 (Peterson). Thirteen miles northeast of Ely, MN. Timber and grass. Moderate fire activity with single tree torching.

Juneberry 3, Minnesota DNR. Minnesota IMT 2 (Aultman). Fifteen miles northwest of Greenbush, MN. Grass. Smoldering. Structures threatened.

Predictive Services Discussion: Areas of rain, mixed with snow at higher elevations, will move into the Northwest and northern Rockies. Fair and mild conditions will continue across much of the interior West ahead of a cold front. Another slow moving cold front will keep showers and thunderstorms over the Plains from Texas to the Dakotas. High pressure will remain over the East, keeping mild weather in place. Scattered showers will develop along the coast from northern Florida to South Carolina.

Predictive Services Outlook products: <http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

Today's discussion is from the
LCES (Lookouts, Communication, Escape Routes, and Safety
Zones) Category.

COMMUNICATIONS

Effective communication is a critical backbone of safe and successful operations.

- Discuss the factors that can affect radio communication at the incident.
 - Knowledge of the radio issued to the individuals
 - Net control, frequencies
 - Line-of-sight restrictions
 - Antenna polarization effect (direction of the antenna)
 - Minimizing noise interference
 - Wide band narrow band

- How can you mitigate potential problems?
 - Implement effective communication procedures--be brief, clear, concise, and to-the-point.
 - Give a good comprehensive briefing. (Refer to the Briefing Checklist inside the back cover of the Incident Response Pocket Guide.)
 - Confirm that relayed information is received, acknowledged, and understood.
 - Keep a continuous information flow (e.g., updates on weather, fire behavior, work progress; changes in strategy/tactics; arrival of additional resources; solicit feedback).
 - Establish emergency check-in procedures.
 - Provide a minimum of 4 radios per 20-person firefighter crew.

- The Five Communication Responsibilities for All Firefighters:
 - Brief others
 - Debrief your actions
 - Communicate hazards to others
 - Acknowledge messages
 - Ask if you don't know
