### National Interagency Coordination Center Incident Management Situation Report Saturday, June 2, 2012 – 0530 MT National Preparedness Level 2

### **National Fire Activity**

Initial attack activity: Light (113 new fires)

New large fires: 2 (\*)
Large fires contained: 2
Uncontained large fires: \*\* 8
Area Command Teams committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 2
Type 2 IMTs committed: 1

Link to Geographic Area daily reports.

### Southwest Area (PL 3)

New fires:	15
New large fires:	1
Uncontained large fires:	3
Type 1 IMTs committed:	1

Whitewater-Baldy, Gila NF. IMT 1 (Sciacca). Fifteen miles east of Glenwood, NM. Timber. Active fire behavior with isolated torching and short range spotting. Residences threatened. Evacuations in effect.

Gladiator, Prescott NF. Started on state land one mile east of Crown King, AZ. Timber. Smoldering.

\* **Montezuma**, Coronado NF. Twenty miles southeast of Sells, AZ. Timber and grass. Active fire behavior. Structures threatened.

Incident Name	St	Unit	Size	Size Chge 24 Hrs	% Ctn	Est Ctn	Totl Pers	Pers Chge 24 Hrs	Crw	Eng	Heli	Strc Lost	\$\$ CTD	Origin Own

MSS - Mississippi Forestry Commission

**Predictive Services Discussion:** A deep trough will drift across the East while a ridge of high pressure develops over the West. Showers and thunderstorms will move through the Northeast and the Great Lakes region. Thunderstorms will develop along the front range of the Rockies from eastern Wyoming to eastern New Mexico and western Texas. Showers and thunderstorms will move across the Northwest and northern Rockies along a weak front. Very hot and dry conditions will continue across the Great Basin, the Southwest and southern California. In Alaska, scattered showers and thunderstorms will develop in the Interior while rain continues along the South Coast.

http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

# Today's discussion is from the Aviation Category.

### **AVIATION MISHAP RESPONSE ACTIONS**

Having a written mishap response action posted and accessible to all employees is an important first step. Having a list of actions to follow will ensure that nothing is missed in a stressful, time-critical period. Response plans have to be briefed to all on the crew.

- Immediate, positive action is necessary. Any delay may affect someone's chances of survival.
- Conduct rescue operations keeping the following priorities in mind:
  - Preserve life. Rescuers first!!!
  - Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
  - Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
  - Secure the area. Treat the crash site as a crime scene. Arrange for security at the
    accident scene if necessary. Determine if hazardous materials were on the
    aircraft. Deny access except to credentialed officials and escorted media.
- Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.
- Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.
- Do not exceed your physical limitations.
- Activity: Review your unit's mishap response plan with the crew. Consider practicing with a crash rescue drill or scenario.
