# National Interagency Coordination Center Incident Management Situation Report <br> Thursday, July 5, 2012 - 0530 MT <br> National Preparedness Level 4 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed: 0
NIMOs committed: 2
Type 1 IMTs committed: 4
Type 2 IMTs committed: 13
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Six MAFFS C-130 aircraft and support personnel have been activated to support wildland fire suppression operations. The MAFFS are from the $302^{\text {nd }}$ Airlift Wing, Colorado Springs (US Air Force Reserve), the $146^{\text {th }}$ Airlift Wing, Channel Islands (California Air National Guard), and the $153{ }^{\text {rd }}$ Airlift Wing, Cheyenne (Wyoming Air National Guard). The aircraft are operating out of Colorado Springs, CO, and Cheyenne, WY.

## Eastern Great Basin Area (PL 4)

New fires: 9
New large fires: 1
Uncontained large fires: 9
NIMOs committed: 1
Type 2 IMTs committed: 6
Shingle, Dixie NF. IMT 2 (Rapp). Six miles south of Duck Creek Village, UT. Timber. Active fire behavior with short-range spotting. Numerous structures threatened. Evacuations and road closures in effect.

Clay Springs, Central Area, Utah DOF. IMT 2 (Walker). Four miles south of Oak City, UT. Timber, brush and grass. Moderate fire activity with group tree torching. Numerous structures, major power lines and gas pipelines threatened.

Seeley, Manti-Lasal NF. IMT 2 (Philbin). Fifteen miles northwest of Huntington, UT. Timber. Short duration crown runs with short-range spotting. Numerous structures threatened. Evacuations in effect.

Fontenelle, Bridger-Teton NF. NIMO (Houseman). Eighteen miles west of Big Piney, WY. Timber. Active fire behavior with short duration crown runs and short-range spotting. Structures, gas and oil wells threatened. Road closures in effect.

Wolf Den, Vernal District, BLM. IMT 2 (Fillis). Forty miles south of Vernal, UT. Pinyon pine, juniper and brush. Active fire behavior. Oil and gas pipelines threatened.

Quail, Northwest Area, Utah DOF. IMT 2 (Sommer). One mile east of Alpine, UT. Timber, brush and grass. Moderate fire activity. Numerous structures threatened. Evacuations in effect.

* Bear Cub, Bridger-Teton NF. Twenty-two miles east of Moran, WY. Timber. Extreme fire behavior with longrange spotting.

Church Camp, Northern Area, Utah DOF. IMT 2 (Kidd). Twenty-two miles south of Duchesne, UT. Timber and brush. Moderate fire activity with single tree torching. Numerous structures threatened. Evacuations in effect.

Lone Pine, Payette NF. Thirty miles west of Council, ID. Grass. Creeping and smoldering.

## Rocky Mountain Area (PL 5)

New fires:15

New large fires: 1
Uncontained large fires: 8
NIMOs committed: 1
Type 1 IMTs committed: 3
Type 2 IMTs committed: 2
Oil Creek, Wyoming State Forestry. Washington IMT 2 (Thibo). One mile west of Newcastle, WY. Timber, brush and grass. Active fire behavior with short duration crown runs, torching and spotting. Numerous residences threatened. Evacuations and road closures in effect.

Arapaho, Albany County. IMT 1 (Morcom). Twenty-eight miles northeast of Wheatland, WY. Timber. Extreme fire behavior with short duration crown runs. Numerous structures threatened. Evacuations in effect.

Squirrel Creek, Medicine Bow NF. IMT 1 (Opliger). Three miles west of Woods Landing, WY. Timber. Running fire with torching and short-range spotting. Several communities threatened. Evacuations and road closures in effect.

White Draw, Black Hills NF. IMT 2 (Fry). Four miles north of Edgemont, SD. Timber. Creeping and smoldering. Structures threatened.

Waldo Canyon, Pike and San Isabel NF. IMT 1 (Harvey). Three miles west of Colorado Springs, CO. Timber, hardwood slash and brush. Minimal fire activity. Communication sites and the U.S. Air Force Academy threatened. Precipitation occurred over the fire area yesterday.

Little Sand, San Juan NF. NIMO (Heaton). Thirteen miles northwest of Pagosa Springs, CO. Timber. Backing fire with torching. Structures threatened.

Index Creek, Shoshone NF. Four miles southeast of Cooke City, MT. Timber. Single tree torching, creeping and smoldering.

* Ghost, Crook County. Ten miles southwest of Sundance, WY. Hardwood Litter. Moderate fire activity. Numerous structures threatened.

Weber, San Juan District, BLM. One mile south of Mancos, CO. Timber and brush. Minimal fire activity.

## Northern Rockies Area (PL 3)

New fires:
New large fires:
Uncontained large fires:

Type 1 IMTs committed:
Type 2 IMTs committed:

Ash Creek, Northern Cheyenne Agency, BIA. IMT 2 (Heintz). Ten miles east of Lame Deer, MT. Timber, brush and grass. Short duration crown runs and short-range spotting. Numerous structures threatened. Evacuations and road closures in effect.

Taylor Creek. Custer National Forest. IMT 1 (Poncin). IMT is also managing the Horse Creek fire. Twenty-five miles southeast of Ashland, MT. Timber. Extreme fire behavior with running and group tree torching. Numerous structures threatened. Evacuations in effect.

Horse Creek, Southern Land Office, Montana DNR. Thirty miles south of Hysham, MT. Timber. Structures threatened. Creeping and smoldering.

Dry Creek. Southern Land Office, Montana DNR. Five miles northwest of Laurel, MT. Timber. Interior torching and creeping. Numerous structures threatened. Reduction in acreage due to more accurate mapping.

Pony, Beaverhead/Deerlodge NF. IMT 2 (Kusicko). Ten miles west of Pony, MT. Timber. Minimal fire activity. Residences threatened.

Dahl, Southern Land Office, Montana DNR. Twelve miles southeast of Roundup, MT. Timber. Minimal fire activity.

Bad Horse, Crow Agency, BIA. Eight miles east of Crow Agency, MT. Timber. No further information received.
Plum Creek, Crow Agency, BIA. One mile northwest of Pryor, MT. Timber. Minimal fire activity.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered showers and thunderstorms will develop over the central Rockies and the Southwest in the early afternoon and move northward into the Great Basin and northern Rockies. Slow moving storms in the Southwest could produce locally heavy rain. Extreme heat will continue in the eastern U.S., with scattered afternoon thunderstorms developing across the Southeast. Temperatures will continue to rise across the Northwest and the West Coast. In Alaska, scattered showers and thunderstorms will develop over the south and the Interior.

## Today's discussion is from <br> "This Day in History"

"Lessons Learned" serve as brief summaries of powerful learning opportunities. You can use these summaries as a foundation and launch point for further dialogue and discussion. Apply these lessons learned to yourself, your crew, and your unit.

## Part III - South Canyon Fire, Colorado, 1994 (A Four-Part Series)

Incident Summary: On July 2, 1994, seven miles west of Glenwood Springs, Colo., lightning ignites a fire in piñon-pine and juniper on a ridge at the base of Storm King Mountain. The entire general area, in a one-year drought, is experiencing low humidities and record-high temperatures. Over the next two days, the South Canyon Fire increases in size. Initial attack resources are assigned. Four days later, on July 6, a dry cold front moves into the fire area. As winds and fire activity increases, the fire makes several rapid runs. Fourteen firefighters perish as they try to outrun the flames.

## July 5 - Summary of Activities

Red Flag warnings and very high to extreme fire danger are predicted again today.

A crew of seven firefighters hikes up into the South Canyon Fire at the base of Storm King Mountain. They cut Helispot 1 and begin direct fireline construction downhill along the fire's edge below this helispot.

The IC orders another district engine crew, one helicopter, and one 20person hand crew. A load of eight smokejumpers is then substituted for the hand crew.

To support fireline construction, an air tanker retardant drop is requested. After the first load is dropped, due to steep terrain and gusty winds, the IC and pilot agree that more drops would be ineffective.

At 5:30 p.m. the IC and engine crew leave the fire to refurbish equipment. Fifteen minutes later, 8 smokejumpers are dropped at the top of the fire. The IC directs them to work on the fireline from the helispot downhill toward the west drainage.

The Jumper-in-Charge informs the IC that the fire has crossed their fireline and is burning actively. The jumpers begin building fireline on the east side of the ridge. After sizing-up the current fire, the Jumper-inCharge orders two Type 1 hand crews. By 10 p.m., the fire has grown 20 acres today. It now covers 50 acres.

## Lessons Learned Discussion Points

Downhill fireline construction is hazardous in steep terrain, fast-burning fuels, and rapidly changing weather. Downhill fireline construction should not be attempted unless there is no tactical
alternative.

If your fire crew was assigned to construct fireline downhill on Storm King, what would your concerns be? Could you perform this operation safely? (Reference page 1, 6 and 8 in your IRPG for this discussion.)
