# National Interagency Coordination Center Incident Management Situation Report <br> Friday, July 13, 2012 - 0530 MT <br> National Preparedness Level 4 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:
$14{ }^{*}$ )
7
40
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Six MAFFS C-130 aircraft and support personnel have been activated to support wildland fire suppression operations. The MAFFS are from the $302^{\text {nd }}$ Airlift Wing, Colorado Springs (US Air Force Reserve), the $146^{\text {th }}$ Airlift Wing, Channel Islands (California Air National Guard), and the $153^{\text {rd }}$ Airlift Wing, Cheyenne (Wyoming Air National Guard). The aircraft are operating out of Hill Air Force Base, UT, and Boise, ID.

## Eastern Great Basin Area (PL 4)

New fires: 52
New large fires: 6
Uncontained large fires: 20
Type 2 IMTs committed: 4

* Baboon, Cedar City District, BLM. Five miles southwest of Minersville, UT. Juniper and brush. No further information received.
* Hobble Complex, Arizona Strip District, BLM. Includes previously reported Hobble fire. Thirty miles south of St. George, UT. Pinyon pine and juniper. Active fire behavior with long-range spotting. Road closure in effect.

Stout, Boise District, BLM. Eleven miles north of Glenns Ferry, ID. Brush and grass. Running. Structures threatened.

Seeley, Manti-Lasal NF. Transfer of command from IMT 2 (Philbin) back to the local unit will occur today. Fifteen miles northwest of Huntington, UT. Timber. Creeping and smoldering.

Jacks, Boise District, BLM. Twenty-one miles southwest of Bruneau, ID. Brush and grass. Creeping.
Meadow, Salt Lake District, BLM. Twelve miles southwest of Moulten, ID. Juniper and brush. Active fire behavior. Structures threatened. Reduction in acreage due to more accurate mapping.

Rhyolite, Salt Lake District, BLM. One mile east of Tacoma, NV. Timber, brush and grass. Running and torching. Structures threatened.

Fontenelle, Bridger-Teton NF. IMT 2 (Ourada). Eighteen miles west of Big Piney, WY. Timber. Creeping and torching.

Avelene, Idaho Department of Lands. Ten miles southwest of Idaho City, ID. Timber. Backing, creeping. Structures threatened.

Midway, Idaho Falls District, BLM. Five miles southwest of Atomic City, ID. Brush and grass. Extreme fire behavior. Road closures in effect.

* Flood Canyon, Northwest Area, Utah DOF. Four miles northeast of Tooele, UT. Moderate fire activity. Structures threatened.

Cedar Butte WSA, Idaho Falls District, BLM. Seventeen miles northwest of Blackfoot, ID. Brush and grass. Active fire behavior.

Kinyon Road, Twin Falls District, BLM. IMT 2 (Adell). Eight miles southwest of Castleford, ID. Brush and grass. Minimal fire activity.

* Plateau, Arizona Strip District, BLM. Fifty miles south of St. George, UT. Pinyon pine, juniper and brush. Running, torching and spotting.

Clay Springs, Central Area, Utah DOF. Four miles south of Oak City, UT. Timber, brush and grass. Smoldering and isolated torching. Major power lines and gas pipeline threatened.

C Fire, Idaho Department of Lands. IMT 2 (Sommer). Twelve miles east of Donnelly, ID. Timber. Smoldering.
Wolf Den, Vernal District, BLM. Forty miles south of Vernal, UT. Pinyon pine, juniper and brush. Minimal fire activity.

Bear Cub, Bridger-Teton NF. Twenty-two miles east of Moran, WY. Timber. Creeping and smoldering. Reduction in acreage due to more accurate mapping. Last report unless significant activity occurs.

Rooster Rock, Fort Hall Agency, BIA. Eleven miles southwest of Pocatello, ID. Juniper and brush. Minimal fire behavior.

Knox, Power County. Fourteen miles east of Rockland, ID. Timber, brush and grass. Backing and creeping.

* Red Butte, Bear River Area, Utah DOF. Two miles east of Grouse Creek, UT. Timber. Active fire behavior with running, torching and spotting.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered showers and thunderstorms will spread from the Southwest to the northern Rockies. Most thunderstorms will produce rainfall but over Nevada, southeast Oregon and southwest Idaho, storms will produce little or no precipitation. In the East and South, scattered thunderstorms, some with heavy rain, will spread from Texas to the Ohio Valley and New England. The center of the nation will remain warm and dry. In Alaska, showers will spread through most of the state except the Northwest where warm and dry conditions will continue.

Predictive Services Outlook products: http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

# Today's discussion is from the Fireline Safety Category. 

## INITIAL ATTACK FIRE SIZEUPISAFETY

Having a good sizeup is important in order to give both the Incident Commander (IC) and fire management a good idea of what problems exist and what resources may be needed for effective firefighting.

- Use the following reporting factors for size-up and reference local fire size-up cards. Discuss others that may be used.
- Fire name and location
- Terrain (slope, aspect, elevation) and position of fire on the slope
- Size of fire
- Fuel type, anticipated control problems, and spread potential
- Values threatened
- Weather conditions (wind speed and direction)
- Fire behavior
- Resources on the fire and those needed
- Estimated containment and control times
- Cause (known, suspected, under investigation)
- After your initial size-up of the fire and/or transition from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in conditions on the fire.
- Have you sized up the fire and relayed the information to dispatch?
- Is the observed fire weather consistent with the forecast?
- Can you control the fire with the resources available (on the incident or soon to be on the incident) and under the expected conditions?
- Have you developed a plan to attack the fire (direct or indirect, anchor points, escape routes, head or flank attack, priority areas); and have you communicated this information to all personnel assigned to the incident, including new arrivals?
- Are lookouts in place or can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes and safety zones established? If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed and/or mitigated?
- Do you have a complete list of what resources have been ordered for the fire?
- Will you control the fire before the next operational period; and if you won't, or the size of the organization exceeds the IC's capability to manage, have you informed the agency Fire Management Officer?
