National Interagency Coordination Center Incident Management Situation Report Monday, July 16, 2012 – 0530 MT National Preparedness Level 4

National Fire Activity

Initial attack activity: Light (108 new fires)

New large fires: 4 (*)
Large fires contained: 6
Uncontained large fires: ** 28
Area Command Teams committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 1
Type 2 IMTs committed: 4

Link to Geographic Area daily reports.

Six MAFFS C-130 aircraft and support personnel have been activated to support wildland fire suppression operations. The MAFFS are from the 302nd Airlift Wing, Colorado Springs (US Air Force Reserve), the 146th Airlift Wing, Channel Islands (California Air National Guard), and the 153rd Airlift Wing, Cheyenne (Wyoming Air National Guard). The aircraft are operating out of Hill Air Force Base, UT, and Boise, ID.

Eastern Great Basin Area (PL 4)

New fires:	9
New large fires:	0
Uncontained large fires:	10

Seeley, Manti-Lasal NF. Fifteen miles northwest of Huntington, UT. Timber. Smoldering. Precipitation occurred over the fire area yesterday.

Flood Canyon, Northwest Area, Utah DOF. Four miles northeast of Tooele, UT. Brush. Creeping and smoldering.

Jacks, Boise District, BLM. Twenty-one miles southwest of Bruneau, ID. Juniper and brush. Minimal fire activity. Natural gas pipeline threatened.

Hobble Complex, Arizona Strip District, BLM. Thirty miles south of St. George, UT. Pinyon pine and juniper. Smoldering.

Fontenelle, Bridger-Teton NF. Eighteen miles west of Big Piney, WY. Timber. Creeping. Precipitation occurred over the fire area yesterday.

Rhyolite, Salt Lake District, BLM. One mile east of Tacoma, NV. Juniper and brush. Smoldering. Precipitation occurred over the fire area yesterday.

Baboon, Cedar City District, BLM. Five miles southwest of Minersville, UT. Juniper and brush. Creeping and smoldering. Precipitation occurred over the fire area yesterday.

^{**} Uncontained large fires include only fires being managed under a full suppression strategy.

Wolf Den, Vernal District, BLM. Forty miles south of Vernal, UT. Pinyon pine, juniper and brush. Creeping and smoldering.

Plateau, Arizona Strip District, BLM. Fifty miles south of St. George, UT. Pinyon pine, juniper and brush. Smoldering. Reduction in acreage due to more accurate mapping.

Clay Springs, Central Area, Utah DOF. Four miles south of Oak City, UT. Timber, brush and grass. No further information received.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered showers and thunderstorms will form across the Southwest, the Rockies, Eastern Great Basin and the Northwest, while Western Great Basin and California will remain hot and dry. Scattered storms will also develop across much of the eastern U.S. including around the Great Lakes. In Alaska, scattered showers will move across the Interior.

Predictive Services Outlook products: http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

Today's discussion is from the Fireline Safety Category.

INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Every firefighter will be giving and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did you use the National Incident Response Pocket Guide standards briefing checklist?
- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - · Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- You must know the location of the assignment and:
 - What is to be done?
 - Who you are to report to and how often to report.
 - When you are expected to complete the assignment.
 - Hazards.
 - Communication plan frequencies.
 - Weather and fire behavior.
 - Status of adjoining forces.
