# National Interagency Coordination Center Incident Management Situation Report Monday, August 6, 2012 - 0530 MT National Preparedness Level 3 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed: 0
NIMOs committed: 1
Type 1 IMTs committed: 1
Type 2 IMTs committed: 6
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Four MAFFS C-130 aircraft and support personnel from the $146^{\text {th }}$ Airlift Wing, Channel Islands (California Air National Guard), and the $302^{\text {nd }}$ Airlift Wing, Colorado Springs (US Air Force Reserve) are supporting wildland fire suppression operations out of Boise, ID.

## Northern Rockies Area (PL 3)

| New fires: | 9 |
| :--- | :---: |
| New large fires: | 1 |
| Uncontained large fires: | 12 |
| Type 2 IMTs committed: | 4 |

Rosebud Creek Complex (5 fires), Eastern Land Office, Montana DNR. IMT 2 (Benes). Sixty miles southwest of Miles City, MT. Ponderosa pine, brush and grass. Active fire behavior with torching and short crown runs. Structures threatened. Reduction in acreage due to more accurate mapping.

Sarpy Hills Complex, Crow Agency, BIA. IMT 2 (Fry). Eighteen miles northwest of Crow Agency, MT. Timber. Creeping and smoldering. Structures threatened.

Elbow Pass Complex (3 fires), Lewis \& Clark NF. IMT 2 (Hall). Twenty-five miles southwest of Augusta, MT. Timber. Moderate fire activity with torching. Structures threatened.

Falls Point, Lolo NF. Transfer of command from IMT 2 (Hutton) back to the local unit will occur tomorrow. Twenty-seven miles east of Seeley Lake, MT. Timber. Creeping and smoldering. Area and trail closures in effect. Last report unless significant activity occurs.

Chrandal Creek, Bitterroot NF. Thirty-two miles south of Darby, MT. Timber. Smoldering.
Prisoner Lake, Flathead NF. Twenty-five miles east of Condon, MT. Timber. Creeping and smoldering with isolated torching. Trail closures in effect.

## Southern Area (PL 1)

New fires: 0

New large fires:
Uncontained large fires:
McNac, Okmulgee Field Office, BIA. Ten miles north of Bristow, OK. Timber and grass. Minimal fire activity. Numerous structures threatened.

Botone 3, Anadarko Agency, BIA. Three miles east of Carnegie, OK. Timber and grass. Creeping and smoldering. Structures threatened.

Lagoon Creek, Pawnee Agency, BIA. Five miles north of Yale, OK. Timber and grass. Moderate fire activity. Residences threatened.

Hess Knob, Ozark \& St. Francis NF. Twenty-three miles northwest of Russellville, AR. Hardwood litter. No further information received.

* Cushing, Oklahoma DOF. Six miles southeast of Cushing, OK. Timber and grass. Moderate fire activity with single and group tree torching. Numerous structures and oil and gas facilities threatened.
* Norfolk Road, Oklahoma DOF. Four miles southeast of Cushing, OK. Timber and grass. Moderate fire activity with single tree torching. Numerous structures and oil and gas facilities threatened. Evacuations in effect.

Spur, Oklahoma DOF. Two miles south of Geary, OK. Timber. No new information. Last report unless significant activity occurs.

Lick Creek, Oklahoma DOF. Two miles north of Blocker, OK. Timber. No new information.

Bills Hill, Canaveral National Seashore. Two miles south of Oak Hill, FL. Brush. No new information. Last report unless significant activity occurs.

| Total | 30 | 228,582 | 11 | 28 | 7 | 349 |

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Isolated to widely scattered thunderstorms will develop across the Northwest and northern Rockies, producing critical fire weather conditions across the region. Scattered showers and thunderstorms will also form across the central and southern Rockies. Hot, dry conditions will return to the Southwest and Great Basin. A cold front pushing through the mid-Mississippi Valley and the midAtlantic will bring cooler weather to the upper Midwest, Great Lakes and New England. Scattered showers and thunderstorms will roll across the Gulf Coast and the southern Atlantic Coast.
http://www.predictiveservices.nifc.gov/outlooks/outlooks.html

Today's discussion is from the Motorized Operations Category.

## Parking Safely on Slopes

In 2005, three fireline fatalities related to improper parking on slopes occurred. One involved a water tender, another a fire engine and the third was a command vehicle. In wildland fire operations, we frequently exit vehicles quickly, but it is imperative that anytime a vehicle is left unattended, time is taken to assure it is parked safely and will not present a hazard to ourselves or others. Standard operating procedures for parking vehicles safely on slopes are:

- Turn the front wheels uphill or into the inside/embankment.
- Firmly set the emergency brake.
- Put the vehicle in park (if automatic transmission) or in forward gear (if manual transmission); do not leave it in neutral.
- Turn off the engine.

Chock the wheels. When utilizing chocks, make sure they are on the correct side in reference to the slope. Assure the chocks are approved to hold the weight of the vehicle and will grip on the road surface.

- Be especially aware of safe parking on slopes on incidents when moving a vehicle frequently, as in using engines in pumping operations along a roadway -- it is very easy to get complacent with procedures or not even realize that you are on a slightly different slope which would require placing chocks differently. It is the driver's responsibility to assure not only that the vehicle is operated safely, but is positioned and parked safely.
