# National Interagency Coordination Center <br> Incident Management Situation Report <br> Saturday, August 18, 2012 - 0530 MT <br> National Preparedness Level 4 

## National Fire Activity

| Initial attack activity: | Light (133 new fires) |
| :--- | :---: |
| New large fires: | 2 (*) $^{*}$ |
| Large fires contained: | 9 |
| Uncontained large fires: ** | 42 |
| Area Command Teams committed: | 1 |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 11 |
| Type 2 IMTs committed: | 15 |
| ** Uncontained large fires include only fires being managed under a full suppression |  |
| strategy. |  |
| Link to Geographic Area daily reports. |  |

Four MAFFS C-130 aircraft and support personnel from the $302^{\text {nd }}$ Airlift Wing, Colorado Springs (US Air Force Reserve), and the $153^{\text {rd }}$ Airlift Wing, Cheyenne (Wyoming Air National Guard) are supporting wildland fire suppression operations out of Boise, ID. One MAFFS from the $145^{\text {th }}$ Airlift Wing, Charlotte (North Carolina Air National Guard), along with one MAFFS from the $146^{\text {th }}$ Airlift Wing, Channel Islands (California Air National Guard) are supporting wildland fire suppression operations out of Sacramento, CA.

## Eastern Great Basin Area (PL 5)

New fires: 11
New large fires: 2
Uncontained large fires: 8
Area Command Teams committed: 1
NIMOs committed: 1
Type 1 IMTs committed: 3
Type 2 IMTs committed: 1
Whitney's Area Command Team is assigned to manage all Type 1 and Type 2 fires on the Boise, Sawtooth and Salmon-Challis National Forests. Current fires include Trinity Ridge, Springs, Halstead, Mustang and Minidoka Complex.

Trinity Ridge, Boise NF. IMT 1 (Harvey). Seven miles northwest of Featherville, ID. Timber. Active fire behavior with group tree torching and long-range spotting. Numerous structures threatened. Evacuations and area closures in effect.

Mustang, Salmon-Challis NF (3 fires). IMT 1 (Joseph) and IMT 2 (Adell). Twenty-eight miles west of North Fork, ID. Timber. Short crown runs with single tree torching. Numerous structures threatened.

Halstead, Salmon-Challis NF. NIMO (Houseman). NIMO also managing the Bench fire. Eighteen miles northwest of Stanley, ID. Timber. Active fire behavior with short crown runs and short-range spotting. Numerous structures threatened. Area closures in effect.

Springs, Boise NF. IMT 1 (Hahnenberg). Started on Bureau of Reclamation land five miles west of Garden Valley, ID. Timber. Creeping and smoldering.

Minidoka Complex, Sawtooth NF. Fifteen miles southeast of Twin Falls, ID. Pinyon pine, juniper, brush and grass. Creeping and smoldering. Area closures in effect.

Reserve, Cedar City Field Office, BLM. Six miles north of St. George, UT. Pinyon pine, juniper and grass. Smoldering. Structures threatened.

Enclosure, Sawtooth NF. Ten miles west of Hailey, ID. Timber, brush and grass. Moderate fire activity with torching. Reduction in acreage due to more accurate mapping.

* Fox Hills, Eastern Idaho Area Office, Idaho Department of Lands. Thirteen miles north of Soda Springs, ID. Brush and grass. Creeping and smoldering.

Shivwits, Southern Paiute Agency, BIA. Thirteen miles northwest of St. George, UT. Brush and grass. Minimal fire activity. Communications site threatened.

Bench, Salmon-Challis NF. Twenty miles southeast of Stanley, ID. Timber and grass understory. Smoldering.

| Total | 48 | 209,259 | 55 | 69 | 14 | 1,117 |

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered thunderstorms will develop over the Southwest and southern Great Basin. Thunderstorms will also form along the Sierras and southern Oregon. Temperatures will continue to rise under high pressure across much of the West. A stalled cold front in the deep south will trigger thunderstorms from Texas to mid-Atlantic coast. Cooler conditions will remain across the northern Plains much of the East.

Fire crews often receive supplies that are transported by pack stock. While these animals provide fire crews a valuable service, they can cause injury to themselves and personnel, and severely damage food, gear and fire equipment if not handled properly.

Much like adding aviation resources to a fire incident, having pack stock around is adding an additional hazard to the fire environment which increases the difficulty in maintaining situational awareness. Fire personnel must be aware that human activity, aircraft, wildlife and weather conditions can and will affect the behavior of the pack animals, often unpredictably.

- Avoid making any sudden or abrupt moves or making any loud or unusual noises around the stock. Be calm, relaxed, steady and smooth around the animals at all times.
- When passing pack stock on the trail, know your escape routes at all times. Move off the trail before the stock passes. Calmly move to the same side, preferably the downhill side, with all of your gear. Be far enough off the trail that no one could get kicked, but close enough for the stock to see everyone. Talk to the packer and the stock as they approach and pass...this helps the stock know that you and your crew are not something to be afraid of.
- Packers, like all fire personnel, must maintain communications at all times. Ensure that the communication plan is known to everyone. Individual forest and park units will have the specific safety-related guidelines identified for Packers in regards to required fire training, PPE, communications, etc.
- Work around pack stock in the same manner you would work around a helicopter:
$\checkmark$ Stay outside of the safety circle unless invited or escorted in
$\checkmark$ Only approach from the front
$\checkmark$ Never approach from the tail or walk around the tail
$\checkmark$ Don't run, wave arms, throw tarps or anything else
$\checkmark$ Put your gear where directed and in an orderly manner
$\checkmark$ Weigh everything. Weight and balance are important on mules and helicopters!
