# National Interagency Coordination Center Incident Management Situation Report <br> Saturday, August 25, 2012 - 0530 MT National Preparedness Level 4 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed:
NIMOs committed: 2
Type 1 IMTs committed: 8
Type 2 IMTs committed: 10
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Four MAFFS C-130 aircraft and support personnel from the $302^{\text {nd }}$ Airlift Wing, Colorado Springs (US Air Force Reserve), and the $153^{\text {rd }}$ Airlift Wing, Cheyenne (Wyoming Air National Guard) are supporting wildland fire suppression operations out of Boise, ID. One MAFFS from the $145^{\text {th }}$ Airlift Wing, Charlotte (North Carolina Air National Guard), along with one MAFFS from the $146^{\text {th }}$ Airlift Wing, Channel Islands (California Air National Guard) are supporting wildland fire suppression operations out of Sacramento, CA.

## Northern California Area (PL 5)

New fires: 12

New large fires: 0
Uncontained large fires: 9
NIMOs committed: 1
Type 1 IMTs committed: 3
Type 2 IMTs committed: 3

Ponderosa, Tehama-Glenn Unit, Cal Fire. Cal Fire IMT 1 (Kaslin). Two miles east of Manton, CA. Timber. Interior torching. Numerous structures threatened. Road closures in effect.

Chips, Plumas NF. IMT 1 (Opliger). Twenty miles northwest of Quincy, CA. Timber and brush. Moderate fire activity with short-range spotting. Communities threatened. Evacuations in effect.

North Pass, Mendocino NF. IMT 2 (Wakoski). Twenty-five miles northeast of Covelo, CA. Logging slash. Active fire behavior with torching. Structures and communication site threatened. Evacuations and area closures in effect.

Bagley, Shasta-Trinity NF. IMT 2 (Whitcome). Seven miles west of Big Bend, CA. Timber. Active fire behavior with torching and spotting. Structures and high voltage power lines threatened.

Rush, Northern California District, BLM. IMT 1 (Turman). Fifteen miles southeast of Ravendale, CA. Juniper and brush. Creeping and smoldering. Structures threatened.

Fort Complex (3 fires), Klamath NF. NIMO (Kleinman). Ten miles northwest of Happy Camp, CA. Timber. Backing fire. Structures threatened. Road and trail closures in effect.

Antelope, Modoc NF. IMT 2 (Smith). Fifteen miles northwest of Alturas, CA. Juniper and grass. Minimal fire activity. Structures threatened.

## Eastern Great Basin Area (PL 3)

New fires:11

New large fires: 0
Uncontained large fires:
1
Area Command Teams committed: 1
NIMOs committed:
1
Type 1 IMTs committed:
Whitney's Area Command Team is assigned to manage all Type 1 and Type 2 fires on the Boise, Sawtooth, Salmon-Challis, Payette and Bitterroot National Forests. Current fires include Trinity Ridge, Mustang Complex and Halstead.

Trinity Ridge, Boise NF. IMT 1 (Quesinberry). Transfer of command from IMT 1 (Harvey) to IMT 1 (Lund) will occur today. Seven miles northwest of Featherville, ID. Timber. Active fire behavior with group tree torching and spotting. Numerous structures threatened. Evacuations and area closures in effect.

Mustang Complex (4 fires), Salmon-Challis NF. IMT 1 (Joseph). Twenty-eight miles west of North Fork, ID. Timber. Crowning and long-range spotting. Numerous structures threatened. Evacuations in effect.

Halstead, Salmon-Challis NF. NIMO (Houseman). Eighteen miles northwest of Stanley, ID. Timber. Crowning. Numerous structures and power lines threatened. Evacuations in effect. Area closures in effect.

## Northern Rockies Area (PL 3)

New fires:
New large fires:
Uncontained large fires: 8
Type 2 IMTs committed: 1

* Deep Creek 2, North Dakota State. Started on private land twelve miles north of Marmanth, ND. Juniper and grass. Running fire with torching. Residences threatened.
* Ester Lake, Lewistown Field Office, BLM. Thirty-five miles southwest of Malta, MT. Grass. Active fire behavior. Structures threatened. Road closures in effect.
* Delphia, Southern Land Office, Montana DNR. Fourteen miles northeast of Roundup, MT. Timber. Active fire behavior with group tree torching and spotting. Structures threatened.
* Felan Gulch, Southwestern Land Office, Montana DNR. IMT 2 (Fry). IMT is also managing the Elevation Mountain fire. Started on private land ten miles west of Drummond, MT. Timber. Active fire behavior with group tree torching. Structures threatened.
*Elevation Mountain, Butte Field Office, BLM. Ten miles southwest of Ovando, MT. Timber. Active fire behavior with crowning. Structures threatened.

Black Beach, Central Land Office, Montana DNR. Twenty-five miles north of Helena, MT. Timber and grass. Minimal fire activity.

Steep Corner, Clearwater Potlatch Timber Protective Association, Idaho Department of Lands. Twenty-five miles northeast of Orofino, ID. Timber and logging slash. Creeping and smoldering.

Condon Mountain, Flathead NF. Five miles northeast of Condon, MT. Timber. Minimal fire activity.
Pettibone, Nez Perce NF. Previously reported incident. Thirty-eight miles northeast of Elk City, ID. Timber. No further information received. Last report unless significant activity occurs.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Isolated thunderstorms will develop over the higher elevations of the Four Corners region. Temperatures will begin to warm-up across the West. Scattered showers and thunderstorms will form along a cold front moving across the northern and central Plains. Scattered showers will linger over the mid-Atlantic near a stationary front but a surface high over the East will keep conditions mild for the region. Thunderstorms associated with Tropical Storm Isaac will begin moving into southern Florida late in the day.

## http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

## Today's discussion is from the Motorized Operations Category.

## ATV Safety

The use of ATVs for wildland fire suppression and prescribed fire operations has increased dramatically over the last ten years. Note: Several agencies have required training for ATV operations (check your agency's requirements).

- Most injuries associated with ATVs occur when:
- the driver loses control (When the operator encounters a change of terrain or swerves to avoid an obstacle, it causes an abrupt change of balance and loss of control.)
- the vehicle rolls over
- the driver or passenger is thrown off
- the operator's loss of attention to what, where, and how an ATV is being operated
- or there is a collision with a fixed object
- Identified contributing factors to ATV accidents include:
- rider inexperience
- excessive speed--excessive speed, combined with rough terrain, can create enough pitch and bounce to cause the operator to lose control of the vehicle
- lack of helmet use
- the ATV is improperly loaded or load weight exceeds vehicle operation capacity
- the operator carries a passenger that affects the operators control and operation of the ATV
- Safety measures for ATV use include:
- Conduct pre-ride inspection-- This inspection should include checking tires, throttle cable, front and rear brakes, lights and switches, oil and fuel, chain or drive shaft, air filter, clean out of weeds and other debris from around engine and other hot components, and the chassis for any defects or wear.
- Single riders only--Injuries frequently occur to passengers, therefore riding double should not be permitted.
- Always wear PPE- helmets, eye protection, and protective clothing. Appropriate helmets are those designed for motorcycle (not firefighting) use, and should include safety visors/face shields, goggles, or safety glasses for eye protection.
- Use headlights to improve visibility by other vehicles
- Maintain speeds acceptable for riding conditions, especially over uneven terrain
- Traversing slopes should be avoided
- Mounted or towed loads should not exceed manufacturer's recommendation and should be properly mounted so that weight transfer does not affect the center of gravity of the machine--mounting a tank (e.g., drip torch) on the rear of the vehicle increases the chances for a rear turnover.
- Do not drive on public roads - Collisions with automobiles on public roads are the most common cause of fatal ATV accidents. It may be illegal to operate an ATV on public roads-check your state's laws.
