# National Interagency Coordination Center Incident Management Situation Report <br> Tuesday, September 11, 2012 - 0530 MT National Preparedness Level 3 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **
Area Command Teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:
Light (115 new fires)
$9{ }^{(*)}$
3
34
1
1
8
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Two MAFFS from the $146^{\text {th }}$ Airlift Wing, Channel Islands (California Air National Guard), and the $145^{\text {th }}$ Airlift Wing, Charlotte, NC are supporting wildland fire suppression operations out of Sacramento, CA.

## Northwest Area (PL 3)

New fires: 5
New large fires: 3
Uncontained large fires: 12
Type 2 IMTs committed: 6

Barker Canyon, Spokane District, BLM. IMT 2 (Nickey). Six miles southwest of Grand Coulee, WA. Brush and hardwood slash. No new information.

* Manila/Columbia Complex (3 fires), Colville Agency, BIA. IMT 2 (Reed). Thirteen miles southeast of
Nespelem, WA. Timber and grass. Group tree torching and spotting.

Pole Creek, Deschutes NF. IMT 2 (Watts). Six miles southwest of Sisters, OR. Timber. Active fire behavior. Road closures in effect.

[^0] WA. Timber, logging slash and brush. Moderate fire activity with single tree torching. Residences threatened.

Cascade Creek, Gifford Pinchot NF. IMT 2 (LaFave). Eight miles north of Trout Lake, WA. Timber. Active fire behavior with torching and spotting. Trail closures in effect.

* Apache Pass, Washington State. Seventeen miles southwest of Creston, WA. Brush and grass. Active fire behavior. Structures threatened. Evacuations and road closures in effect.

Highway 141, Southeast Region, Washington DNR. IMT 2 (Leitch). Three miles northwest of White Salmon, WA. Timber and grass. Creeping and smoldering. Structures, power lines and natural gas lines threatened.

Waterfalls 2, Warm Springs Agency, BIA. Twenty-two miles west of Warm Springs, OR. Timber. No new information.

Parish Cabin, Malheur NF. Fifteen miles northeast of Seneca, OR. Timber. Minimal fire activity.
Cache Creek, Wallowa-Whitman NF. Forty-two miles northeast of Enterprise, OR. Timber, brush and grass. Interior torching.

## Northern Rockies Area (PL 4)

New fires: 23
New large fires: 4

Uncontained large fires: 6
Type 1 IMTs committed: 2
Type 2 IMTs committed: 5

* Dutch, Miles City Field Office, BLM. Thirty miles southwest of Broadus, MT. Timber and grass. Crowning and running. Residences threatened.
* Allen, Southern Land Office, Montana DNR. Sixteen miles northeast of Roundup, MT. Timber and grass. Active fire behavior with running and spotting. Structures threatened. Evacuations in effect.
* Bean Canyon MA, Central Land Office, Montana DNR. Fifteen miles northeast of Toston, MT. Timber and grass. Active fire behavior.

Sawtooth, Bitterroot NF. IMT 2 (Heintz). Seven miles southwest of Hamilton, MT. Timber. Active fire behavior with short crown runs and short-range spotting. Numerous structures threatened. Evacuations in effect.

McGuire Complex, Nez Perce NF. IMT 1 (Joseph) and IMT 2 (Pearson). One mile northwest of Dixie, ID. Timber. Active fire behavior with group tree torching and spotting. Communities threatened. Evacuations in effect.

Sheep, Nez Perce NF. Transfer of command from IMT 2 (Benes) to IMT 1 (Turman) will occur today. One mile east of Lucille, ID. Timber, brush and grass. Crown fire. Structures threatened. Evacuations in effect.

Millie, Gallatin NF. IMT 2 (Kidd). Twenty miles south of Bozeman, MT. Timber. Creeping and smoldering with isolated torching. Structures threatened.

Powell SBW Complex (5 fires), Clearwater NF. IMT 2 (Hutton). Forty-five miles southwest of Lolo, MT. Timber. Moderate fire activity with isolated single tree torching. Structures threatened. Area closures in effect.

Porcupine Complex (2 fires), Nez Perce NF. Previously reported incident. Twenty-five miles east of Elk City, ID. Timber. No new information.

* White Horse, Flathead Agency, BIA. Ten miles east of Arlee, MT. Timber. Active fire behavior. Last report unless significant activity occurs.

## Eastern Great Basin Area (PL 4)

New fires:17

New large fires: 1
Uncontained large fires: 4
Area Command Teams committed: 1
NIMOs committed:
1
Type 1 IMTs committed: 3
Type 2 IMTs committed: 3
Area Command Team (Loach) is assigned to the Salmon-Challis National Forest to manage the Mustang Complex and Halstead fire.

Horsethief Canyon, Teton County. IMT 2 (Ourada). Five miles south of Jackson, WY. Timber, brush and grass. Active fire behavior with torching and spotting. Numerous structures, communications site and Snow King Ski Resort threatened.

Mustang Complex (4 fires), Salmon-Challis NF. Transfer of command from IMT 1 (Blume) to IMT 1 (Sciacca) will occur today. Three miles west of North Fork, ID. Timber, brush and grass. Active fire behavior with crowning and spotting. Numerous structures threatened. Evacuations and area closures in effect.

Wesley, Payette NF. IMT 2 (Suwyn). Thirteen miles northwest of New Meadows, ID. Timber. Active fire behavior with crowning and torching. Residences threatened.

Halstead, Salmon-Challis NF. NIMO (Houseman) and IMT 2 (Adell). Eighteen miles northwest of Stanley, ID. Timber and grass. Minimal fire activity. Numerous structures threatened. Evacuations and area closures in effect.

Trinity Ridge, Boise NF. IMT 1 (Kurth). Seven miles northwest of Featherville, ID. Timber. Smoldering with occasional torching. Structures threatened. Road and area closures in effect.

* Shanty Canyon, Northwest Area, Utah DOF. Fifteen miles north of Grantsville, UT. Grass. Running fire. Structures threatened.

## Other Fires

(As of September 7)

| GACC | Fires | Cumulative <br> Acres | Crews | Engines | Helicopters | Total <br> Personnel |
| :---: | ---: | ---: | ---: | ---: | ---: | ---: |
| AK | 0 | 0 | 0 | 0 | 0 | 0 |
| NW | 3 | 93,161 | 1 | 5 | 0 | 22 |
| NO | 3 | 103,357 | 29 | 45 | 3 | 1,126 |
| SO | 2 | 1,377 | 3 | 0 | 0 | 60 |
| NR | 27 | 34,906 | 0 | 0 | 0 | 0 |

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Strong, gusty winds and low relative humidity will spread across the northern Rockies, and the northern and central Plains, producing critical fire weather conditions for the region. Scattered showers and thunderstorms will develop over the Four Corners states and into southern California and Nevada. High pressure over the eastern half of the U.S. will keep mild conditions in place for most of the East. A few thunderstorms will form over the southern tip of Florida.
http://www.predictiveservices.nifc.gov/outlooks/outlooks.html

# Today's discussion is from the Hazard Tree Category. 

## Hazard Trees - Situational Awareness

Snags (dead, standing trees without leaves or needles in the crowns) and green hazard trees present a significant threat to wildland firefighter safety. Snags typically have much lower fuel moistures than live, green trees; and they burn more readily. In the process, they often throw off embers creating spot fires in advance of the main fire. Snags may burn through more quickly than green trees and can fall without warning. Live, green trees weakened by insects, disease, weather, fire, and age presents another hazard and they can also fall without notice.

The risk of serious injuries from hazard trees may increase during the night operational period when visibility is reduced.

- While work in cooler, nighttime environments can help control efforts, it also presents an increased risk from unseen falling snags and weakened live trees. Night operations should be restricted in areas of high risk rated dead and dying trees.
- Environmental conditions that increase risk from hazard trees: Strong or gusty winds from storm cells. Air operations - water or retardant drops, rotor wash from helicopters. Steep slopes with rolling material. Erosion and undercut root systems. Diseased or bug-killed areas (Mountain Pine Beetle).
- Things to consider when assessing the potential dangers of hazard trees: Trees have been burning for an extended period. High-risk tree species (those that are known for rot and shallow root systems) in the area. Numerous downed trees/material. Broken tops and dead limbs overhead. Accumulation of downed limbs, tree decay, cavities, splits, cracks, lack of needles, bark, limbs or other indicators of overhead hazards. Roots damaged by equipment, fire or erosion create hazards.
Mitigation measures to take: Identify and establish No-Work-Zones (NWZ) in all high-risk areas until the hazard has been mitigated. Instruct firefighters of established NWZ in briefings. Identify with flagging/signs, and show area on maps. Establish lookouts to protect NWZs. Assign only qualified sawyers and Falling Bosses. Order additional professional fallers in advance. Use heavy equipment, and blasters when appropriate. Plan a quick and safe escape routes. Do not turn your back on a falling tree or known hazard. Use lookouts to maintain secure felling areas. Maintain situational awareness.
