

**National Interagency Coordination Center
Incident Management Situation Report
Friday, October 12, 2012 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (55 new fires)
 New large fires: 3 (*)
 Large fires contained: 0
 Uncontained large fires: ** 16
 Area Command Teams committed: 0
 NIMOs committed: 1
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 2

** Uncontained large fires include only fires being managed under a full suppression strategy.

Northwest Area (PL 1)

New fires: 7
 New large fires: 0
 Uncontained large fires: 7

St. Marys Mission Road, Colville Agency, BIA. Three miles southwest of Omak, WA. Timber, brush and grass. Minimal fire activity. Numerous structures threatened.

Wenatchee Complex (5 fires), Okanogan/Wenatchee NF. Two miles west of Wenatchee, WA. Timber, brush and grass. Numerous residences threatened. No further information received.

Cascade Creek, Gifford Pinchot NF. Eight miles north of Trout Lake, WA. Timber. Smoldering with isolated torching. Last report unless significant activity occurs.

Predictive Services Discussion: A storm system will move into the Great Basin which will generate widespread rains over Utah and Colorado southward into the Four Corners Region. Significant snowfall will be possible at higher elevations on the West Slope of Colorado. Meanwhile, a storm system will enter the Pacific Northwest, spreading widespread wetting rains into areas west of the Cascades. Some wetting rains will also be possible across the Texas Panhandle into western Oklahoma. It will be windy in the Dakotas and the western half of New Mexico.

**Today's discussion is from the
Fireline Safety Category.**

TAKING A NAP NEAR THE FIRELINE

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
- To reduce risks:
 - Keep lookouts posted; rotate lookouts.
 - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they find to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.
