National Interagency Coordination Center Incident Management Situation Report Thursday, June 6, 2013 – 0530 MT National Preparedness Level 2

National Fire Activity

Initial attack activity: Light (51 new fires)

New large fires: 0 (*)
Large fires contained: 3
Uncontained large fires: ** 6
Area Command Teams committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 1
Type 2 IMTs committed: 2

Link to Geographic Area daily reports.

Southwest Area (PL 4)

New fires:9New large fires:0Uncontained large fires:3Type 2 IMTs committed:2

Thompson Ridge, Bernalillo District, New Mexico State Forestry. IMT 2 (Day). Ten miles north of Jemez, NM. Timber. Moderate fire behavior. Structures threatened. Evacuations in effect.

Tres Lagunas, Las Vegas District, New Mexico State Forestry. IMT 2 (Pierson). Fifteen miles north of Pecos, NM. Timber. Creeping and smoldering. Numerous structures threatened. Evacuations and area closures in effect. Precipitation occurred over the fire area yesterday.

Beetown, San Carlos Agency, BIA. Eighteen miles east of San Carlos, AZ. Brush. Smoldering.

Predictive Services Discussion: Temperatures will continue to warm across the West under a building ridge. Mild conditions will sink farther south toward the Gulf States as a broad trough remains over the eastern two-thirds of the nation. Scattered showers and thunderstorms will move across most of the East from the Mississippi Valley to the coast. Isolated thunderstorms will develop across the higher terrain of the southern and central Rockies and over the Sierra crest. Alaska will see warming temperatures across much of the Interior, with scattered showers and thunderstorms over the eastern Interior.

http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

Looking out for our people includes not only those who work for us but also our leaders and peers. Leadership is about influencing others to accomplish tasks that are in the best interest of our organization which often means influencing those above us and leading up. Similarly, we are open to upward leadership – and, in fact, encourage and reward it.

- Fire leaders are expected to lead in many directions, an expectation that increases complexity and risk.
- Summoning the courage needed to intervene and influence peers or leaders above can be difficult, especially if providing unwelcome feedback about behavior or pointing out an alternative to a potentially bad decision.
- In high-risk environments, no one can afford to assume that anyone has all the answers.

To build the kind of healthy and resilient culture required in the wildland fire service, we lead up – holding our leaders accountable, providing unvarnished situational awareness in challenging situations, and offering unbiased and viable alternatives.

Discussion Points

- How can we practice leading up?
- Describe a situation where leading up took place. How was the situation affected?
- Describe a situation where there was opportunity for leading up but it was not done. How was the situation affected?
- Discuss leading "laterally": influencing peers or those with similar responsibilities.
