National Interagency Coordination Center Incident Management Situation Report Tuesday, June 11, 2013 – 0530 MT National Preparedness Level 2

National Fire Activity

Initial attack activity:	Light (133 new fires)
New large fires:	2 (*)
Large fires contained:	1
Uncontained large fires: **	7
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	4
** Uncontained large fires include only fires	being managed under a full suppression
6,	
Uncontained large fires: ** Area Command Teams committed: NIMOs committed: Type 1 IMTs committed: Type 2 IMTs committed:	7 0 0 0 4

Southwest Area (PL 4)	
New fires:	10
New large fires:	0
Uncontained large fires:	4
Type 2 IMTs committed:	3

Silver, Gila NF. IMT 2 (Reidy). Six miles west of Kingston, NM. Timber. Extreme fire behavior. Structures threatened. Evacuations and road closures in effect.

Thompson Ridge, Bernalillo District, New Mexico State Forestry. IMT 2 (Day). Ten miles north of Jemez, NM. Timber. Interior burning with group torching. Structures threatened. Evacuations in effect.

Tres Lagunas, Las Vegas District, New Mexico State Forestry. IMT 2 (Pierson). Fifteen miles north of Pecos, NM. Timber. Creeping and smoldering with isolated torching. Structures threatened. Evacuations and area closures in effect.

Fourmile, San Carlos Agency, BIA. Twenty miles northwest of Morenci, AZ. Grass. Moderate fire behavior.

Predictive Services Discussion: An upper low will cross the West, bringing thunderstorms to the Great Basin and northern Rockies. Cooler conditions will spread across the Northwest and northern Great Basin while the Southwest remains very hot and dry. Breezy conditions will also develop over the Southwest. Scattered showers and thunderstorms will continue over most of the East Coast. Hot weather will continue across the southern and central Plains, the mid and lower Mississippi, and the Southeast. Dry and warm conditions will spread over Alaska.

DOZER/TRACTOR PLOW OPERATIONS

Fireline Safety Category

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook Appendix A or IRPG pg 91, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also
 providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
