National Interagency Coordination Center Incident Management Situation Report Monday July 8, 2013 – 0530 MT National Preparedness Level 3

National Fire Activity

Initial attack activity:	Light (177 new fires)
New large fires:	4 (*)
Large fires contained:	5
Uncontained large fires: **	19
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	5
Type 2 IMTs committed:	6
** Upcontained large fires include only fires l	peing managed under a full suppression st

** Uncontained large fires include only fires being managed under a full suppression strategy.

Link to Geographic Area daily reports.

Four MAFFS C-130 aircraft and support personnel from the 145th Airlift Wing, Charlotte (North Carolina Air National Guard), and the 153rd Airlift Wing, Cheyenne (Wyoming Air National Guard) are supporting wildland fire suppression operations out of Phoenix, AZ area.

Predictive Services Discussion: Widely scattered thunderstorms will form over the Rockies. Hot and dry conditions will persist over the remainder of the West. Widespread thunderstorms will continue over the Gulf Coast region to New England and the Great Lakes. In Alaska, scattered showers and a few thunderstorms will move over most of the south and west. The central and eastern Interior will remain warm and dry.

http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

EXTENDED ATTACK

Fireline Safety Category

After your initial size-up of the fire and/or transfer of command from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the other forces associated with the fire?
- Can you control the fire with the resources available (either on the incident or soon to be on the incident) under expected conditions?
- Have you developed a plan to attack the fire?
 - Direct or indirect
 - Anchor points
 - Escape routes
 - Head or flank attack
 - Priority areas
- Have you communicated this to all personnel assigned to the incident, including new arrivals?
- Can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
 - If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed and/or mitigated?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of what resources have been ordered for the fire?
