| EA | 0 | 0 | 0 | 0 | 0 | 0 |
| SA | 1 | 166 | 0 | 0 | 0 | 4 |
| Total | 38 | 544,717 | 9 | 7 | 5 | 312 |

Predictive Services Discussion: Scattered showers and thunderstorms will develop over the Southwest, southern and eastern Great Basin, and the central and northern Rockies. Storms from Utah and Colorado southward will generally produce rain while storms to the north will produce little to no rainfall. Cooler and drier conditions will follow a cold front through the Northwest and northern Great Basin. Mild to warm conditions will continue over the central and eastern U.S. with scattered showers and thunderstorms along the Gulf and Atlantic coasts and over the Great Lakes region. Alaska will see dry and warming conditions.

## AVIATION MISHAP RESPONSE ACTIONS

Aviation Category

## AVIATION MISHAP RESPONSE ACTIONS

Having a written mishap response action posted and accessible to all employees is an important first step. Having a list of actions to follow will ensure that nothing is missed in a stressful, time-critical period. Response plans have to be briefed to all on the crew.

- Immediate, positive action is necessary. Any delay may affect someone's chances of survival.
- Conduct rescue operations keeping the following priorities in mind:
- 
- Preserve life. Rescuers first!!!
- Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
- Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
- Secure the area. Treat the crash site as a crime scene. Arrange for security at the accident scene if necessary. Determine if hazardous materials were on the aircraft. Deny access except to credentialed officials and escorted media.
- Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.
- Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.
- Do not exceed your physical limitations.
- Activity: Review your unit's mishap response plan with the crew. Consider practicing with a crash rescue drill or scenario.
