# National Interagency Coordination Center <br> Incident Management Situation Report <br> Monday August 12, 2013 - 0530 MT <br> National Preparedness Level 4 

## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires: **

Area Command Teams committed: 0
NIMOs committed: 1
Type 1 IMTs committed: 8
Type 2 IMTs committed: 17
** Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

One MAFFS C-130 aircraft from the $153^{\text {rd }}$ Airlift Wing, Cheyenne (Wyoming Air National Guard) and one from the $302^{\text {nd }}$ Airlift Wing, Colorado Springs (Air Force Reserve) are supporting wildland fire suppression operations out of Boise, ID. Two MAFFS from the $146^{\text {th }}$ Airlift Wing (California Air National Guard) are supporting wildland fire suppression operations out of Channel Islands Air National Guard Station, CA.

## Eastern Great Basin Area (PL 5)

New fires: 45

New large fires: 2
Uncontained large fires: 9
NIMOs committed: 1
Type 1 IMTs committed: 2
Type 2 IMTs committed: 4
Pony Complex, Boise District, BLM. IMT 2 (Wilde). Twelve miles north of Mountain Home, ID. Timber, brush and grass. Active fire behavior with short-range spotting. Numerous structures threatened. Evacuations in effect.

Beaver Creek Complex (2 fires), Twin Falls District, BLM. IMT 1 (Lund) and IMT 2 (Kidd). Four miles northwest of Fairfield, ID. Timber, brush and grass. Extreme fire behavior. Structures threatened. Area closures in effect.

Elk, Boise NF. IMT 1 (Harvey). Ten miles southwest of Pine, ID. Timber, brush and grass. Sustained crown runs. Numerous structures threatened. Evacuations and area closures in effect.

Lodgepole, Salmon-Challis NF. NIMO (Houseman) and IMT 2 (Whalen). Ten miles west of Challis, ID. Timber and brush. Creeping and single tree torching. Structures threatened.

[^0]* Millville, Bear River Area, Utah DOF. Six miles southeast of Logan, UT. Grass. Running fire. Numerous structures and power plant threatened.

State, Bear River Area, Utah DOF. IMT 2 (Day). Eight miles west of Portage, UT. Brush and grass. No new information.

Packer Creek, Bridger-Teton NF. Twenty-eight miles north of Pinedale, WY. Timber. No new information.

## Northwest Area (PL 4)

New fires:
New large fires:
Uncontained large fires:12

Type 1 IMTs committed: ..... 2

Type 2 IMTs committed: 6
Milepost 10, Southeast Region, Washington DNR. IMT 2 (Johnson). One mile south of Malaga, WA. Timber, brush and grass. Moderate fire behavior. Numerous structures threatened. Evacuations in effect.

Douglas Complex (three fires), Oregon DOF. IMT 2 (Sifford). Seven miles north of Glendale, OR. Timber and brush. Creeping and smoldering. Numerous structures and a communications site threatened.

Big Windy Complex, Grants Pass Unit, Oregon DOF. Transfer of command from IMT 1 (Schulte) to IMT 1 (Lewis) will occur today. Twenty-five miles northwest of Grants Pass, OR. Timber and brush. Creeping and smoldering. Structures threatened. Evacuations and area closures in effect.

Whiskey Complex (two fires), Umpqua NF. IMT 2 (Johnson). Six miles east of Tiller, OR. Timber, brush and grass. Creeping and smoldering.

GC Complex, Malheur NF. IMT 2 (Watts). One mile north of John Day, OR. Brush and grass. Creeping and smoldering.

Green Ridge, Deschutes NF. IMT 2 (Minton). Fourteen miles northwest of Sisters, OR. Timber and brush. Creeping and smoldering.

Cedar Mountain, Vale District, BLM. Twenty-six miles north of Rome, OR. Brush and grass. Short runs and smoldering.

* Westside Complex, Colville Agency, BIA. IMT 2 (Leitch). Thirteen miles west of Nespelem, WA. Timber, brush and grass. Isolated torching and short-range spotting.

Colockum Tarps, Southeast Region, Washington DNR. Six miles southeast of Malaga, WA. Timber and grass. Creeping and smoldering with isolated torching. Numerous residences threatened. Evacuations in effect.

| Total | 78 | 783,959 | 55 | 112 | 29 | 2,016 |

Predictive Services Discussion: Widely scattered showers and thunderstorms will form over the Northwest and the northern Rockies. Scattered showers and thunderstorms will continue over the central and southern Rockies. Showers and thunderstorms will form over much of the eastern U.S except in Texas, the northern Plains, and New England. A slow warm-up will begin in the West while cooler conditions spread over the northern Plains, the upper Midwest and New England. The South will remain hot and humid. Alaska will continue warm and dry in the Interior. Scattered showers will form over the South and West.
http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

INITIAL ATTACK FIRE SIZEUP/SAFETY

Fireline Safety Category

Having a good sizeup is important in order to give both the Incident Commander (IC) and fire management a good idea of what problems exist and what resources may be needed for effective firefighting.

- Use the following reporting factors for size-up and reference local fire size-up cards. Discuss others that may be used.
- Fire name and location
- Terrain (slope, aspect, elevation) and position of fire on the slope
- Size of fire
- Fuel type, anticipated control problems, and spread potential
- Values threatened
- Weather conditions (wind speed and direction)
- Fire behavior
- Resources on the fire and those needed
- Estimated containment and control times
- Cause (known, suspected, under investigation)
- After your initial size-up of the fire and/or transition from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in conditions on the fire.
- Have you sized up the fire and relayed the information to dispatch?
- Is the observed fire weather consistent with the forecast?
- Can you control the fire with the resources available (on the incident or soon to be on the incident) and under the expected conditions?
- Have you developed a plan to attack the fire (direct or indirect, anchor points, escape routes, head or flank attack, priority areas); and have you communicated this information to all personnel assigned to the incident, including new arrivals?
- Are lookouts in place or can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes and safety zones established? If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed and/or mitigated?
- Do you have a complete list of what resources have been ordered for the fire?
- Will you control the fire before the next operational period; and if you won't, or the size of the organization exceeds the IC's capability to manage, have you informed the agency Fire Management Officer?
