Predictive Services Discussion: Scattered thunderstorms will spread across the central and southern Rockies, much of the Southwest and most of the central and southern Great Basin. Isolated thunderstorms will form over the Sierras. Temperatures in the West will continue warm, but some cooling under clouds and showers will occur in the intermountain west. The Southeast will continue to see thunderstorms and heavy rain, which will spread into the mid-Atlantic region. Temperatures across the Plains and the Mississippi Valley will continue very warm, while much of the East remains mild.

## Fatigue/Stress

First Aid/Health Category

Accumulated (Chronic) Fatigue is defined as fatigue from which normal rest does not produce recovery. Accumulated fatigue is often caused by extended periods of stress with inadequate recovery periods, which results in decreased productivity, compromised immune function, and reduced alertness. Fatigued workers perform poorly, behave carelessly, tolerate greater errors and become inattentive. Chronic fatigue often results in increased stress, which may present itself through certain behavioral and physiological indicators, such as those described below:

- Behavioral indicators
- Decreased motivation and low morale
- Increased irritability and depression
- Physiological indicators
- Confused, poor problem solving
- Poor abstract thinking
- poor attention/decisions
- poor concentration/memory
- extreme emotional responses
- social/behavioral changes

Recommendations for chronic fatigue/stress are:

- Take longer periods of rest/recovery
- Ensure that workers are adequately rested before they begin work shifts
- Provide periodic rest breaks to allow physical and mental recovery
- Alternate between heavy and light tasks
- Eat well-balanced meals regularly, with energy supplements during periods of high exertion
- Maintain hydration
- Ensure workers maintain good personal hygiene
- Maintain high standards of physical fitness and work capacity
- In extreme cases, personnel may need to be relieved of their duties
