The 10 Standard Fire Orders

Fireline Safety Category

The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter weather, fire status, fire behavior.
 - 1. Keep informed on fire weather conditions and forecasts.
 - 2. Know what your fire is doing at all times.
 - 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 - 4. Identify escape routes and safety zones and make them known.
 - 5. Post lookouts when there is possible danger.
 - 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 - 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 - 8. Give clear instructions and insure they are understood.
 - 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
 - 10. Fight fire aggressively, having provided for safety first.
