# National Interagency Coordination Center Incident Management Situation Report Friday June 20, 2014 – 0530 MT National Preparedness Level 2

#### **National Fire Activity**

Initial attack activity: Light (90 new fires)

New large fires: 1 (\*)
Large fires contained: 2
Uncontained large fires: \*\* 3
Area Command Teams committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 1
Type 2 IMTs committed: 1

Link to Geographic Area daily reports.

#### Southwest Area (PL 3)

New fires:5New large fires:0Uncontained large fires:1Type 2 IMTs committed1

**Asaayi Lake**, Navajo Region, BIA. IMT2 (Day). Three miles southeast of Crystal, NM. Logging slash, timber and brush. Smoldering with isolated single tree torching. Residences threatened.

**Galahad**, Grand Canyon NP. Previously reported incident. Twelve miles northwest of North Rim, AZ. Timber. Moderate fire behavior. Last report unless significant activity occurs.

Incident Name	St	Unit	Size	Size Chge 24 Hrs	% Ctn	Est Ctn	Totl Pers	Pers Chge 24 Hrs	Crw	Eng	Heli	Strc Lost	\$\$ CTD	Origin Own

Total	3	292,750	5	0	6	229

**Predictive Services Discussion:** Weak ridging will develop over the West, allowing warming and drying across the Southwest and the Great Basin. Scattered showers and a few thunderstorms will develop over the northern Rockies ahead of a weak front. Showers and thunderstorms will form along and ahead of a front stretching from the Upper Midwest to the Mid-Atlantic. Southerly flow will support showers and thunderstorms across the High Plains from New Mexico to Nebraska.

## **MY SAFETY**

Leadership Category

An important aspect of safety is individual responsibility for one's own health & safety. Even with the best supervision, each individual firefighter will occasionally be required to make personal decisions concerning their safety. It is important that individual responsibility be taught as the basis for a viable safety program. Some of those individual responsibilities are:

- Fitness for duty. Begin each work shift both mentally and physically prepared for the rigors of wildland firefighting. Getting adequate sleep, maintaining a healthy diet, and proactively participating in physical training are the foundation of "My Safety".
- Utilization of personal protective equipment. Wear your PPE without being told. Each individual is responsible for performing their own risk assessments. If a hazard is identified that can be mitigated by wearing a particular PPE component it should be utilized. Fireline supervisors have more important duties to focus on other than performing glove patrol.
- Following safe work practices. Using a spotter when backing up vehicles is the prudent and professional course of action. If you are unsure of how to perform a job task safely, ask your supervisor or experienced coworker.
- Using the correct reference materials is an important aspect of safety. You should have a
  working knowledge of the Red Book, IRPG, and your local operating guidelines.
- Ensure instructions are clearly understood. Communication is a basic responsibility for all fire personnel. Ask appropriate questions to clarify uncertain issues. Speak up when you observe hazards that may place yourself or others at risk.
- Maintain situational awareness at all times. Awareness is a vital component of "My Safety". Pay attention to what is happening around your area of operations. Always display an awareness of what is happening around you by asking questions or making comments.

Summary: Do not expect someone else to be responsible for your safety. Take it upon yourself to make "My Safety" your number one priority.

#### **Discussions points:**

- 1. Talk about ways you can improve on your safety.
- 2. Have your supervisor talk about their expectations for individual safety.

Have an idea? Have feedback? Share it.
