# National Interagency Coordination Center Incident Management Situation Report <br> Tuesday, June 23, 2015-0530 MT <br> National Preparedness Level 3 

| National Fire Activity |  |
| :--- | :---: |
| Initial attack activity: | Moderate (227 new fires) |
| New large incidents: | 5 |
| Large fires contained: | 3 |
| Uncontained large fires: ** | 19 |
| Area Command Teams committed: | 0 |
| NIMOs committed: | 0 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 8 |
| ** Uncontained large fires include only fires being managed under a full suppression strategy. |  |
| Link to Geographic Area daily reports. |  |

## Alaska Area (PL 5)

New fires: 48
New large incidents: 2
Uncontained large fires: 11
Type 1 IMTs committed: 1
Type 2 IMTs committed: 4
Rex Complex (two fires), Fairbanks Area Forestry, DOF. IMT2 (Sheldon). Started on private land southeast of Clear, AK. Timber, brush and tall grass. Extreme fire behavior with crowning, torching and short-range spotting. Structures threatened. Evacuations, road and trail closures in effect.

Card Street, Kenai-Kodiak Area Forestry, DOF. IMT2 (Allbee). Started on native corporation land five miles southeast of Sterling, AK. Timber. Active fire behavior with group torching, spotting and smoldering. Numerous structures threatened. Road, area and trail closures in effect.

Stetson Creek, Chugach NF. IMT2 (Goff). IMT is also managing the Juneau Lake fire. Two miles southwest of Cooper Landing, AK. Timber. Minimal fire behavior with backing and creeping. Structures threatened. Area and trail closures in effect.

Juneau Lake, Chugach NF. Five miles north of Cooper Landing, AK. Timber and brush. Minimal fire behavior with backing and creeping. Structures threatened. Area and trail closures in effect.

Spicer Creek, Tanana Zone, BLM. IMT2 (Staats). IMT is also managing the Hay Slough and Moose Point fires. Started on native corporation land seven miles northeast of Tanana, AK. Timber. Active fire behavior.

[^0]Moose Point, Tanana Zone, BLM. Previously reported incident. Started on state land 50 miles west of Tanana, AK. Timber. Active fire behavior.

Whitefish Lake 1, Southwest Area, DOF. Started on FWS 20 miles southwest of Kalskag, AK. Short grass. Active fire behavior with running, creeping and smoldering. Structures threatened.

Long Lake, Tok Area Forestry, DOF. Includes previously reported Moose Creek fire. Two miles east of Northway, AK. Timber. Extreme fire behavior with short-range spotting, group torching and crowning. Structures threatened.

Tanana Slough, Tok Area Forestry, DOF. Started on native corporation land four miles north of Dot Lake, AK. Timber. Active fire behavior with torching and spotting. Structures threatened.

Nenana Ridge, Fairbanks Area Forestry, DOF. Twelve miles east of Four Mile Rd, AK. Hardwood Litter. Active fire behavior.

* La Grande, Military Zone, BLM. Started on DOD land 30 miles west of Healy, AK. Timber. Moderate fire behavior.

Sockeye, Mat-Su Area Forestry, DOF. IMT1 (Kurth). Started on private land six miles north of Willow, AK. Timber. Minimal fire behavior with smoldering. Numerous structures threatened. Reduction in acreage due to more accurate mapping.

Chisana River 2, Tok Area, DOF. Started on NPS land 25 miles west of Beaver Creek, AK. Timber. Active fire behavior with running and isolated torching. Structures threatened. Last report unless significant activity occurs.

Iditarod River, Southwest Area Forestry, DOF. Previously reported incident. Started on state land three miles north of Iditarod, AK. Timber and short grass. Active fire behavior with creeping and torching. Structures threatened. Last report unless significant activity occurs.

Predictive Services Discussion High pressure aloft will be centered over the Texas panhandle today, but stretches from coast to coast across the entire southern U.S. Hot and humid conditions are expected for the southeast quarter of the Nation, with hot and dry weather in the Desert Southwest. Showers and thunderstorms are expected with a cold front pushing eastward from the Ohio Valley through the Mid-Atlantic and New England. A short wave trough will bring showers and thunderstorms to the northern Rockies and northern Plains with isolated storms along the Front Range of the central Rockies. Alaska will remain warm and relatively dry, with scattered thunderstorms in the southern Interior.

# ATTEMPTING A FRONTAL 

## ASSAULT ON A FIRE

Operational Engagement Category

Attempting a frontal assault on a fire is recognized as Watchout Situation \#10 and is a potentially dangerous tactic. If your tactics include a frontal assault, the following checklist must be adequately addressed before engaging the fire:

- Has the fire been scouted and sized up? Who will scout and size up a fire and what are they looking for?
- Is your position defensible? List what makes a firefighter's position defensible (anchor points, safety zones, escape routes, etc.).
- Are escape routes and safety zones adequate? Review what constitutes an adequate safety zone and escape route.
- Do you have an anchor point? How would you establish an anchor point for a frontal assault on a fire?
- Do you have adequate resources to complete the assault? Discuss things you need to consider; for example, if the frontal assault fails, do you have backup?
- Are you informed on strategy, tactics, and hazards? Consider what could happen if someone has a different approach than you; for example, the IC has a burnout operation planned while you are attempting a frontal assault.
- Is the terrain favorable to holding the fire? Discuss ways the terrain will influence where you will make a stand.
- Are you relying on aircraft for support operation? Any operation, especially frontal assault, should not need air resources to be safe.

In order to reduce the risks, reassess your tactics, post lookouts, and identify situations in which firefighters may be enticed to attempt frontal assault on a fire. Review why this may or may not be a good idea.
