# National Interagency Coordination Center Incident Management Situation Report <br> Friday, March 25, 2016 - 0800 MT <br> National Preparedness Level 1 

National Fire Activity (Mar. 18 - Mar. 24)
Initial attack activity:
Light (988 new fires)
New large incidents: 38
Large fires contained: 21
Uncontained large fires:** 18
Area Command Teams Committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 0
Type 2 IMTs committed: 0
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

## Southern Area (PL 2)

New fires: 841
New large incidents: 34
Uncontained large fires: 16

* Anderson Creek, Oklahoma DOF. Two miles north of Camp Houston, OK. Brush, tall grass and timber. Moderate fire behavior. Communities of Alva OK and Medicine Lodge KS threatened. Evacuations and road closures in effect.
* I40, Texas A \& M Forest Service. Started on private land 5 miles west of Shamrock, TX. Tall grass. Minimal fire behavior. Numerous structures threatened
*Bar-Dew Lake, Osage Agency, BIA. Five miles north of Bartlesville, OK. Hardwood litter. Moderate fire behavior. Structures threatened.
* Bug Creek, Osage Agency, BIA. Six miles west of Hominy, OK. Tall grass, hardwood litter and short grass. Minimal fire behavior.
* Walker, Osage Agency, BIA. Seven miles east of Hominy, OK. Tall grass, hardwood litter and brush. Minimal fire behavior.
* Caney Head, National Forests in Alabama. Ten miles northwest of Lineville, AL. Hardwood litter and timber. Moderate fire behavior. Area and trail closures in effect. Last report unless significant activity occurs.
* Cellar Mountain, George Washington \& Jefferson NF. Five miles east of Raphine, VA. Timber. Minimal fire behavior with smoldering. Structures threatened. Road and trail closures in effect.
* Ranchland, Oklahoma DOF. Nine miles northwest of Skiatook, OK. Timber. Active fire behavior. Structures threatened.
* Rabbit, Okmulgee Field Office, BIA. Eight miles northwest of Okemah, OK. Tall grass and hardwood litter. Minimal fire behavior
* Flat Hollow, Kentucky DOF. Started on private land 2 miles southeast of Portsmouth, OH. Hardwood litter. Extreme fire behavior with wind driven runs, uphill runs and short-range spotting. Structures threatened.
* North Peak, North Carolina Forest Service. Four miles north of Marion, NC. Timber. Moderate fire behavior with running. Structures threatened. Last report unless significant activity occurs.
* Rockhouse, National Forests in North Carolina. Five miles north of Hayesville, NC. Hardwood litter and chaparral. Minimal fire behavior.
* Camel's Knob, North Carolina Forest Service. Four miles northwest of Union Mills, NC. Hardwood litter. Active fire behavior with uphill runs and spotting.
* Radio Ridge \#2, Kentucky DOF. Started on private land 1 mile south of Portsmouth, OH. Hardwood litter. Active fire behavior with wind driven runs, uphill runs and short-range spotting.
* Brushy Creek, Kentucky DOF. Started on private land 9 miles south of Portsmouth, OH. Hardwood litter. Active fire behavior with wind driven runs, uphill runs and creeping.
* Sheehan Creek, National Forests in North Carolina. Seven miles northwest from Marion, NC. Timber and hardwood litter. Minimal fire behavior with smoldering.
* Webb Mountain, Private. Started on private land 2 miles north of Boones Mill, VA. Hardwood litter. Active fire behavior with uphill runs, wind driven runs and flanking. Structures threatened.

Mini Post Lane, Texas A \& M Forest Service. Started on private land 13 miles southwest of Channing, TX. Tall grass and brush. No new information. Last report unless new information is received.

Predictive Services Discussion: A strong storm complex afflicted the Nation this week from the Rockies eastward with blizzard conditions, ice accumulation, and severe weather. This system will move through the eastern and southeast U.S. this weekend with warm temperatures and continued precipitation. As this complex moves off the Atlantic Coast early next week, a strong trough of low pressure will settle over the intermountain West with heavy snowfall in the mountains and low elevation rainfall. Onshore flow from the Pacific will keep conditions in California and the southwest relatively mild but little if any precipitation is expected until at least the middle of next week. Another strong storm system will develop from the southern Plains by mid-week before expanding through much of the eastern U.S. In its' wake, strong winds will likely develop from the Dakotas through the upper-Midwest late next week in association with a Canadian cold front.

AIRCRAFT AND PILOT CARDING<br>Aviation Category

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft and pilot Card or letter of authorization. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.
These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline

Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline

Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed and a copy of the contract must be onboard the aircraft.

Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
- 36 hours cumulative flight hours in any 6 consecutive days
