# National Interagency Coordination Center <br> Incident Management Situation Report <br> Friday, April 22, 2016 - 0800 MT <br> National Preparedness Level 1 

National Fire Activity (Apr. 15 - Apr. 21)
Initial attack activity:
Light (912 new fires)
New large incidents:
Large fires contained: 19
Uncontained large fires:** 13
Area Command Teams Committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 1
Type 2 IMTs committed:
1
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

## Southern Area (PL 4)

| New fires: | 605 |
| :--- | :---: |
| New large incidents: | 25 |
| Uncontained large fires: | 10 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 1 |

* Rocky Mtn, Shenandoah NP. IMT 1 (Dueitt). Six miles south of Elkton, VA. Timber, brush and short grass. Active fire behavior with wind driven runs, torching and creeping. Numerous structures threatened. Road, area and trail closures in effect.
* Whipping Creek Road, North Carolina Forest Service. North Carolina IMT 2 (Smith). Six miles north of Engelhard, NC. Chaparral. Active fire behavior with torching and spotting. Residences threatened. Road and area closures in effect.
* Silver Mine, National Forests in North Carolina. Three miles west of Hot Springs, NC. Hardwood litter. Active fire behavior with running. Residences threatened.
* Railroad Grade 2016, Cherokee NF. Five miles south of Elizabethton, TN. Hardwood litter, short grass and dormant brush. Active fire behavior with uphill runs and spotting. Structures threatened.
* Clemmons Road, North Carolina Forest Service. Six miles north of Oak Island, NC. Timber. Moderate fire behavior. Structures threatened. Evacuations and road closures in effect.
* Raccoon Mountain, Cherokee NF. Ten miles south of Bristol, TN. Hardwood litter, timber and short grass. Active fire behavior with uphill runs, spotting and wind driven runs. Structures threatened.
* State Line, Cherokee NF. Five miles west of Hot Springs, NC. Hardwood litter and light logging slash. Minimal fire behavior. Structures threatened
* Gladys Branch Forney Area, Great Smoky Mountains NP. Nine miles northwest of Bryson City, TN. Hardwood litter and closed timber litter. Moderate fire behavior with uphill runs, flanking and backing. Trail closures in effect. Last report unless significant activity occurs.
* Buck Knob, National Forests in North Carolina. Five miles west of Franklin, NC. Hardwood litter, dormant brush and hardwood slash. Moderate fire behavior. Residences threatened.
* Pentecostal Church, Eastern Cherokee Agency, BIA. Six miles north of Cherokee, TN. Hardwood litter, dormant brush and hardwood slash. Active fire behavior with running. Structures threatened.
* Lone Mtn SF, Tennessee DOF. Started on private land five miles south of Wartburg, TN. Timber. Minimal fire behavior.
* Bluff Mtn, Tennessee DOF. Five miles west of Pigeon Forge, TN. Timber. Moderate fire behavior. Last report unless significant activity occurs.

Predictive Services Discussion: A series of upper level lows will cross the U.S. during the next week, bringing precipitation to much of the country. Higher elevations of the West will see snow. The East will see widespread rain and thunderstorms over the weekend and much cooler temperatures over most of region. In the West, rain and snow will move through the Northwest and northern Rockies over the weekend and again early in the week. A third western system will bring showers and thunderstorms, with snow at higher elevations, through the Great Basin and the Southwest. Temperatures will drop 15 to 20 degrees in the West over the weekend and will be slow to recover during the week. Strong southerly flow ahead of the western systems will spike temperatures 15 to 20 degrees in the central states before dropping early in the week across the Plains and the Midwest. The Gulf States will remain very warm.

## AVIATION MISHAP RESPONSE

Aviation Category

Having a written mishap response action posted and accessible to all employees is an important first step. Having a list of actions to follow will ensure that nothing is missed in a stressful, time-critical period. Response plans have to be briefed to all on the crew.

- Immediate, positive action is necessary. Any delay may affect someone's chances of survival.
- Conduct rescue operations keeping the following priorities in mind:
- Preserve life. Rescuers first!!!
- Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
- Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
- Secure the area. Treat the crash site as a crime scene. Arrange for security at the accident scene if necessary. Determine if hazardous materials were on the aircraft. Deny access except to credentialed officials and escorted media.
- Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.
- Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.
- Do not exceed your physical limitations.
- Activity: Review your unit's mishap response plan with the crew. Consider practicing with a crash rescue drill or scenario.
