# National Interagency Coordination Center Incident Management Situation Report <br> Wednesday, June 29, 2016 - 0530 MT National Preparedness Level 2 

National Fire Activity
Initial attack activity:
Light (182) new fires
New large incidents:
Large fires contained: 6

Uncontained large fires:** 23
Area Command Teams Committed: 0
NIMOs committed: 1
Type 1 IMTs committed: 2
Type 2 IMTs committed:
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

## Southern California Area (PL 4)

| New fires: | 28 |
| :--- | :---: |
| New large incidents: | 0 |
| Uncontained large fires: | 6 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 2 |

Erskine, Central California District, BLM. IMT 1 (Minton). One mile southeast of Lake Isabella, CA. Timber, brush, and short grass. Active fire behavior with isolated torching, uphill runs, and backing. Numerous residences threatened. Evacuations, road, area, and trail closures in effect. Precipitation occurred over the fire area yesterday.

Marina, Inyo NF. Transfer of command from IMT 2 (Fogel) back to the local unit will occur on $7 / 1$. One mile northwest of Lee Vining, CA. Timber and brush. Minimal fire behavior. Numerous structures threatened.

Fish, Los Angeles County FD. Transfer of command from IMT 2 (Wakoski) back to local unit will occur tomorrow. IMT is also managing the Reservoir fire. Two miles northeast of Azusa, CA. Chaparral, brush, and tall grass. Minimal fire behavior. Numerous structures threatened. Road, area, and trail closures in effect.

Reservoir, Angeles NF. Three miles north of Azusa, CA. Chaparral, brush, and short grass. Minimal fire behavior. Road and area closures in effect.

Border 3, Monte Vista Unit, Cal Fire. Two miles east of Potrero, CA. Chaparral, dormant brush, and tall grass. Minimal fire behavior. Trail closures in effect.

Sherpa, Los Padres NF. Nineteen miles northwest of Santa Barbara, CA. Chaparral and tall grass. Minimal fire behavior. Residences threatened. Road, area, and trail closures in effect. Last report unless significant activity occurs.

## Predictive Services Discussion:

High pressure will continue over the western U.S. with a broad trough in the east. Moisture moving across the southwest will produce thunderstorms across the Great Basin and the Central Rockies. A few thunderstorms are also possible in the Northern Rockies. In the east, a slow moving front will produce thunderstorms along the Gulf Coast and over the New England region. Thunderstorms will also form along an old front in the northern Plains. Temperatures will continue to be very hot in the west and the south with mild to warm weather across the Plains, the Midwest, and New England. In Alaska, scattered rain and thunderstorms will continue in the southern third of the state, while hot and dry conditions persist across the Interior and the North.

## CHAINSAW SAFETY

Felling Safety Category

Chainsaw safety is every saw operator's job.
Always wear proper P.P.E. when handling or working around chainsaws.

- Eye protection- approved goggles or safety glasses (no sunglasses)
- Chainsaw Chaps- proper size and length
- Gloves-proper size
- Long sleeve shirt-no loose sleeves
- Leather boots-no loose boot laces
- Take the time to inspect the chainsaw before operating the saw.
- Check the chain and bar- Sharpness of chain, Bar seated correctly
- Check the bolts and screws all around the saw- no missing screws or bolts
- Check the casing of the saw- no cracked or missing plastic
- Make sure you're aware of your surroundings while operating the chainsaw.
- Check the chain and bar- Sharpness of chain, Bar seated correctly
- Check the bolts and screws all around the saw- no missing screws or bolts
- Check the casing of the saw- no cracked or missing plastic

Make sure you're aware of your surroundings while operating the chainsaw.

- Look for people working in your area- advise all personnel you're operating the saw.
- Look for any snags or hazards in your area- look up for power lines, widow makers, etc.
- Make sure you always have a spotter or swamper to use for communications.
- Always watch your footing while operating the saw- loose, rocky, steep terrain can cause you to slip while the chainsaw is running.
- Always make sure you are comfortable doing the task at hand.
- Proper training for personnel running saws.
- While falling trees know your escape route.
- If you are not comfortable falling the tree walk away. Notify your supervisor and mitigate the safety issues or turn down the assignment.

[^0]:    * Superstition, Tonto NF. Twelve miles east of Apache Junction, AZ. Brush and short grass. Moderate fire behavior with flanking and backing. Last report unless significant activity occurs.

[^1]:    * Summit, San Carlos Agency, BIA. Ten miles east of San Carlos, AZ. Brush and short grass. Moderate fire behavior with flanking and backing. Last report unless significant activity occurs.
