

**National Interagency Coordination Center  
Incident Management Situation Report  
Friday, July 1, 2016 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	Light (180) new fires
New large incidents:	5
Large fires contained:	3
Uncontained large fires:**	17
Area Command Teams Committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	6

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

#### [Predictive Services Discussion:](#)

Scattered showers and thunderstorms will form over the Southwest, the Great Basin, and in the southern and central Rockies under a weakening ridge in the west. A cold front will approach the Northwest Coast. A trough in the east will usher in a cold front through the region, producing scattered thunderstorms along the East Coasts, Gulf Coasts, and in the Midwest. Temperatures will remain quite high in the west and south, but some cooling will begin in the far Northwest. The Plains, Midwest, and New England will remain mild.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

# Day 2 Nutrition

Week of Remembrance June 30-July 6

Humans are unique in the ability to expend energy for many hours.

## Wildland Firefighters = 2800-6200 Calories per day

Energy is used in the body in 3 pathways: Immediate, Anaerobic, and Aerobic

Regardless of the pathway, it comes down to carbohydrates (sugar) and fats

When performing long arduous activities, it is important to eat small amounts frequently throughout the work shift. The wildland firefighter sack lunch was designed to be eaten in small amounts throughout the day to maintain a constant flow of carbs and fats into the body.

### A firefighter should consume:

	Light work (2,200 calories)	Arduous work (4,400 calories)
<b>Fruit</b>	4 servings (2 cups)	12 servings (6 cups)
<b>Vegetables</b>	4 to 5 servings (2 to 2½ cups)	8 servings (4 cups)
<b>Whole grains*</b>	6 servings	12+ servings
<b>Milk or yogurt</b>	1 to 2 cups	5 cups
<b>Meat, fish**</b>	6 ounces	10 ounces

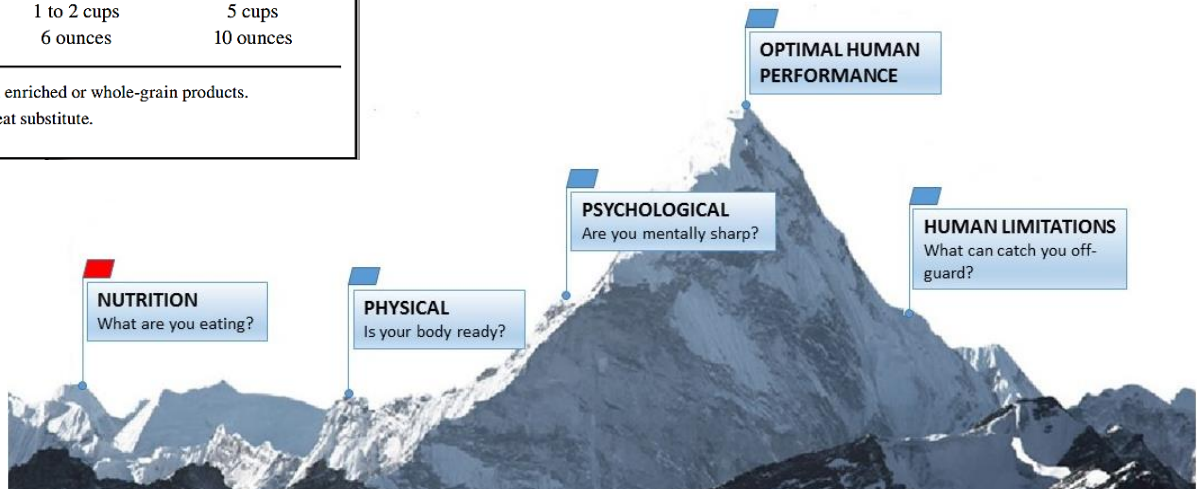

\*Whole grains and enriched or whole-grain products.

\*\*Meat, fish, or meat substitute.

### Additional Resources:

[Eating for Health and Performance: The Wildland Firefighter \(MTDC\)](#)

<https://www.wildfirex.com/firefighter-nutrition/>

The topics for the NWCG "Wildland Firefighter Week of Remembrance" have been drawn from the Human Performance Optimization course taught as a part of the USFS Apprentice Academy in cooperation with the Missoula Technology and Development Center (MTDC) and is rooted in the desire to prepare wildland fire personnel to optimally manage themselves and others at any given time. Review and resources have been contributed by the Wildland Fire Lessons Learned Center, NIFC External Affairs, the Wildland Fire annual refresher group, and the Wildland Fire Leadership Subcommittee.
