National Interagency Coordination Center Incident Management Situation Report Saturday, July 30, 2016 – 0530 MT National Preparedness Level 3

National Fire Activity

Initial attack activity:	Light (197 new fires)							
New large incidents:	8							
Large fires contained:	1							
Uncontained large fires:**	24							
Area Command Teams Committed:	0							
NIMOs committed:	1							
Type 1 IMTs committed:	3							
Type 2 IMTs committed:	4							
**Uncontained large fires include only fires being managed under a full suppression strategy.								
Link to Geographic Area daily reports.								

Southern California Area (PL 3)	
New fires:	29
New large incidents:	0
Uncontained large fires:	2
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Soberanes, San Benito-Monterey Unit, Cal Fire. Cal Fire IMT 1 (Derum). Seven miles northwest of Big Sur, CA. Timber, chaparral and tall grass. Active fire behavior with uphill runs, flanking and short-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Sand, Angeles NF. IMT 2 (Wakoski). One mile south of Santa Clarita, CA. Brush, chaparral and tall grass. Minimal fire behavior with backing. Road, area and trail closures in effect.

Great Basin Area (PL 4)

New fires:	31
New large incidents:	4
Uncontained large fires:	9
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

* Virginia Mountains Complex (3 fires), Carson City District Office, BLM. IMT 2 (Roide). IMT also managing the Rock fire. Includes previously reported Sage fire. Forty miles north of Reno, NV. Brush. Extreme fire behavior with torching, spotting and running. Structures threatened. Sage grouse habitat threatened.

Rock, Carson City District, BLM. Forty miles north of Reno, NV. Brush and short grass. Minimal fire behavior. Numerous structures threatened. Evacuations have been lifted.

Pioneer, Boise NF. IMT 1 (Lund). Five miles north of Idaho City, ID. Timber. Active fire behavior with group torching, short crown runs and backing. Structures threatened. Road, area and trail closures in effect.

Cliff Creek, Bridger-Teton NF. IMT 2 (DeMasters). Fifteen miles east of Hoback, WY. Timber. Active fire behavior with group torching and short-range spotting. Structures threatened. Road, area and trail closures in effect.

* Line, Ely District, BLM. Eighteen miles southeast of Caliente, NV. Timber, brush and tall grass. Extreme fire behavior with running, flanking and backing. Structures threatened.

Comet, Salmon-Challis NF. Thirteen miles north of Salmon, ID. Timber and short grass. Moderate fire behavior with group torching, uphill runs and backing. Structures threatened. Area closure in effect.

* **Notch Butte 2**, Twin Falls District, BLM. Five miles south of Shoshoe, ID. Tall grass. Extreme fire behavior with running and smoldering.

Lower Ebbs, Fishlake NF. Four miles south of Scipio, UT. Timber, chaparral and tall grass. Minimal fire behavior with isolated torching. Area and trail closures in effect.

* **Box Canyon**, Uinta/Wasatch-Cache NF. Twenty-three miles northeast of Heber City, UT. Timber, tall grass and short grass. Active fire behavior with torching, spotting, and running. Area, road and trail closures in effect. Last report unless significant activity occurs.

Predictive Services Discussion: Widely scattered thunderstorms will develop across the Great Basin and the central and southern Rockies. Isolated storms are possible in California and across the northern Rockies. A cold front sagging through the Upper Midwest will push thunderstorms into the central Plains, the Ohio Valley and into New England. Scattered storms will also form over the lower Mississippi Valley and the along the Gulf Coast. Very hot conditions will continue across most of the West and across the southern third of the country. The northern Plains, the Great Lakes region, and New England will be mild. Alaska will have scattered showers and a few thunderstorms statewide. Temperatures will be mild in the South and Interior, cool in the North.

http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm

WORKING WITH HELICOPTER DROPS Aviation Category

Consider the following questions when you have a helicopter with a bucket working in your area:

If the helicopter is a Type 1 increase the distance of standby place from the drop zone.

Use helicopter drops to knock down or secure a fire area that poses a direct imminent threat to escaping control lines or climbing up ladder fuels.

- Do you have good communications?
- Does the pilot have a clear understanding of the target?
- Are trees and snags in the drop zone?
- Are ground crews clear of the area?
- What are the winds doing?
- What is the turnaround time for the helicopter?
- Are people on the ground aware of the effects of the helicopter's rotorwash?
- Give feedback to the pilot about drop accuracy. Be honest and constructive.
- Be aware that helicopter performance capabilities may be significantly reduced at high altitudes and/or high temperatures.
