# National Interagency Coordination Center Incident Management Situation Report <br> Thursday, August 4, 2016 - 0530 MT <br> National Preparedness Level 3 

## National Fire Activity

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Light (141 new fires)

Area Command Teams Committed: 0
NIMOs committed: 1
Type 1 IMTs committed: 8
Type 2 IMTs committed: 7
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.
One MAFFS C-130 air tanker and support personnel each from the $153^{\text {rd }}$ Airlift Wing, (Wyoming Air National Guard) and the $302^{\text {nd }}$ Airlift Wing, (Colorado Springs, Air Force Reserve) have been deployed to Boise, ID in support of wildland fire operations.

One Convair 580 airtanker group from British Columbia has been deployed to Billings, MT in support of wildland fire operations.

## Great Basin Area (PL 4)

| New fires: | 26 |
| :--- | :---: |
| New large incidents: | 1 |
| Uncontained large fires: | 7 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 2 |

Pioneer, Boise NF. IMT 1 (Lund). Five miles north of Idaho City, ID. Timber. Active fire behavior with torching, spotting and running. Structures threatened. Road, area and trail closures in effect.

Virginia Mountains Complex (2 fires), Carson City District Office, BLM. IMT 2 (Roide). Forty miles north of Reno, NV. Brush and short grass. Active fire behavior with group torching, uphill runs and backing. Evacuations have been lifted. Sage grouse habitat threatened.

Cliff Creek, Bridger-Teton NF. IMT 2 (Bird). Fifteen miles east of Hoback, WY. Timber. Active fire behavior with group torching and short-range spotting. Structures threatened. Evacuations have been lifted. Road, area and trail closures in effect.

[^0]Box Canyon, Uinta/Wasatch-Cache NF. Previously reported incident. Twenty-three miles northeast of Heber City, UT. Timber and closed timber litter. Active fire behavior with short crown runs, torching and creeping. Structures threatened. Trail and area closures in effect. Last report unless significant activity occurs.

Poodle, Winnemucca District, BLM. Twenty miles northwest of Gerlach, NV. Timber and brush. Minimal fire behavior. Sage grouse habitat threatened.

Tribal, Salt Lake Field Office, BLM. Twenty-five miles southwest of Tooele, UT. Brush and grass. Minimal fire behavior. Structures threatened.

Comet, Salmon-Challis NF. Thirteen miles north of Salmon, ID. Timber and short grass. Minimal fire behavior.

Predictive Services Discussion: High pressure over Texas and a trough deepening on the West Coast will surge moisture from the Southwest into the Great Basin. Scattered thunderstorms in the Four Corners region will continue while isolated storms develop across Nevada and southeastern California. Scattered thunderstorms will also form along a cold front moving through the Upper Midwest and across the Southeast. Conditions will remain very hot across the far Southwest and much of the south central and southeastern states. Mild to warm temperatures will continue in the Rockies and the Northwest and across the Appalachians and New England. Scattered showers and a few thunderstorms will develop across the southern third of Alaska. Temperatures will remain slowly warm, especially in the Interior.

# UNFAMILIAR WITH WEATHER AND LOCAL FACTORS INFLUENCING FIRE BEHAVIOR 

Weather / Fire Behavior Category

- Ask questions of local experts! What kinds of questions would you ask?
- Does the operational period plan give you adequate weather and information? What kinds of weather forecasts can you get? What other weather or local information do you look for in the shift plan?
- Can you get information from resources that have been on the fire? What questions will you ask of the crew that you are replacing?
- Is there any other way to obtain information? List common sources of information on weather and local factors (Examples: Web based weather Activity Planner, Point Forecast Matrix, NOAA Internet Briefing)
- To reduce risks:
- Base all actions on current and expected fire behavior.
- Post lookouts.
- Establish escape routes and safety zones.
- Take extra caution! Discuss a fire where you relied on information from the local unit (perhaps where your fire knowledge and experience was very different from how they did things-southeast or Alaska).
- Recognize and report visual indicators (clouds, WX obs., cold front passage, inversion breaking
