# National Interagency Coordination Center Incident Management Situation Report Thursday, August 25, 2016 - 0530 MT National Preparedness Level 4 

## National Fire Activity

Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Light (90 new fires)

Area Command Teams Committed: 0
NIMOs committed: 1
Type 1 IMTs committed: 8
Type 2 IMTs committed: 10
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.
One MAFFS C-130 air tanker and support personnel each from the $153^{\text {rd }}$ Airlift Wing, (Wyoming Air National Guard) and the $302^{\text {nd }}$ Airlift Wing, (Colorado Springs, Air Force Reserve) have been deployed to Boise, ID in support of wildland fire operations.

One Convair 580 airtanker group from British Columbia has been deployed to Pocatello, ID in support of wildland fire operations.

## Southern California Area (PL 4)

| New fires: | 9 |
| :--- | :--- |
| New large incidents: | 0 |
| Uncontained large fires: | 4 |
| Type 1 IMTs committed: | 5 |

Chimney, San Luis Obispo Unit, Cal Fire. Cal Fire IMT 1 (Patterson). Fifteen miles west of Paso Robles, CA. Timber and chaparral. Extreme fire behavior. Numerous structures threatened. Evacuations, road and area closures in effect.

Cedar, Sequoia NF. IMT 1 (Minton). Five miles north of Alta Sierra, CA. Timber and chaparral. Active fire behavior with short crown runs, group torching and short-range spotting. Numerous structures threatened. Evacuations, road, trail and area closures in effect.

Soberanes, San Benito-Monterey Unit, Cal Fire. Transfer of command from IMT 1 (von Tillow) to IMT 1 (Kurth) will occur tomorrow. Seven miles northwest of Big Sur, CA. Timber, chaparral and tall grass. Active fire behavior with flanking and short-range spotting. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Rey, Los Padres NF. Transfer of command from IMT 2 (Mills) to IMT 1 (McGowan) occurred yesterday. Seven miles north of Goleta, CA. Chaparral. Active fire behavior with short-range spotting and flanking. Structures threatened. Evacuations, road, trail and area closures in effect.

Predictive Services Discussion: Scattered thunderstorms will develop over the central and southern Rockies with isolated showers and thunderstorms in the northern Rockies and southern Great Basin. Scattered showers and thunderstorms will form along a cold front from West Texas to the Ohio Valley and along the central Gulf Coast. Mild to cool temperatures will remain over the Rockies, the northern and central Plains, and much of the Midwest. The Southeast and the Interior West will remain warm, and hot weather will continue in the desert Southwest.

## AVIATION WATCH OUTs

As part of risk management, especially during high activity fires, each aviation manager and employee should be asking questions.

- Is the flight necessary?
- Who is in charge?
- Are hazards identified and known?

Flight Hazards: Have they been identified and assessed? Have the pilots been informed?

- Should the operation or the flight be stopped due to a change in conditions? Consider the following:
- Radio Communications
- Environmental Conditions - weather, visibility, terrain, elevation, temperatures
- Mission Priorities
- Successful Mission Completion Probabilities
- Is there a better way to do it?
- Is there pressure to complete a mission at all costs?
- Can you justify your actions?
- Is the mission airspace confined or congested?

Multiple aircraft
Mixed types of aircraft
Poor visibility

- Do you have an escape route?
- Are any guidelines being ignored or policies being broken?
- Are communications getting tense?
- Are you deviating from the assigned operation or flight?
