

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, November 24, 2016 – 0800 MT
National Preparedness Level 1**

National Fire Activity

| | |
|-------------------------------|-----------------------|
| Initial attack activity: | Light (170 new fires) |
| New large incidents: | 6 |
| Large fires contained: | 3 |
| Uncontained large fires:** | 27 |
| Area Command Teams Committed: | 0 |
| NIMOs committed: | 0 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 3 |

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southern Area (PL 5)

| | |
|--------------------------|-----|
| New fires: | 164 |
| New large incidents: | 5 |
| Uncontained large fires: | 26 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 3 |

* **Horton**, North Carolina Forest Service. Six miles east of Blowing Rock, NC. Hardwood litter. Active fire behavior with uphill runs. Numerous structures threatened. Evacuations in effect.

* **Roaring**, George Washington & Jefferson NF. Five miles southeast of Frog Level, VA. Timber. Active fire behavior with uphill runs, short-range spotting and flanking.

2 Mile, North Carolina Forest Service. Five miles south of West Jefferson, NC. Hardwood litter. Moderate fire behavior with flanking. Structures threatened.

Clear Creek, North Carolina Forest Service. IMT 2 (Thompson). Five miles west of Marion, NC. Hardwood litter. Active fire behavior with running and spotting. Numerous structures threatened. Road closures in effect.

Rock Mountain, Chattahoochee-Oconee NF. IMT 1 (Livingston). Two miles south of Tate City, GA. Hardwood litter and timber. Active fire behavior with running, flanking and backing. Numerous structures threatened. Road, area and trail closures in effect.

Mount Pleasant, George Washington & Jefferson NF. Four miles west of Lowesville, VA. Hardwood litter. Active fire behavior with uphill runs, wind driven runs and backing. Structures threatened. Road, area and trail closures in effect. Last report unless significant activity occurs.

Pinnacle Mountain, South Carolina Forestry Commission. Three miles southeast of Rocky Bottom, SC. Hardwood Litter and timber. Active fire behavior with uphill runs, flanking and isolated torching. Numerous structures threatened. Road, area and trail closures in effect.

Party Rock, North Carolina Forest Service. ODF IMT 1 (Buckman). One mile north of Lake Lure, NC. Hardwood litter. Minimal fire behavior with smoldering. Numerous structures threatened. Area and trail closures in effect.

Tatum Gulf, Georgia Forestry Commission. Eleven miles west of LaFayette, GA. Hardwood litter. Minimal fire behavior. Numerous structures threatened. Road and area closures in effect.

Tellico, National Forests in North Carolina. IMT 1 (Wilkins). IMT is also managing the Boteler, Maple Springs, Dick's Creek, Muskrat, and Cathy Gap fires. Three miles south of Almond, NC. Hardwood litter, timber and short grass. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Trail closures in effect.

Boteler, National Forests in North Carolina. Nine miles east of Hayesville, NC. Timber and brush. Minimal fire behavior with smoldering and creeping. Numerous structures threatened. Road, area and trail closures in effect.

Maple Springs, National Forests in North Carolina. Three miles northwest of Santeetlah Lake, NC. Hardwood litter, timber and brush. Minimal fire behavior with smoldering. Structures threatened. Road, area and trail closures in effect.

Dick's Creek, National Forests in North Carolina. Two miles northwest of Sylva, NC. Hardwood litter, short grass and timber. Minimal fire behavior with smoldering. Structures threatened.

Muskrat, North Carolina Forest Service. Eight miles southwest of Franklin, NC. Hardwood litter and timber. Minimal fire behavior with smoldering.

Cathy Gap, National Forests in North Carolina. Four miles northwest of Balsam Grove, NC. Hardwood litter and timber. Minimal fire behavior with smoldering. Structures threatened.

Chestnut Knob, North Carolina Forest Service. NCFS IMT 2 (Kern). Three miles south of Enola, NC. Hardwood litter. Minimal fire behavior with smoldering. Numerous structures threatened. Road, area and trail closures in effect.

Chimney Rock, Big South Fork National River and Recreation Area. Thirteen miles northwest of Oneida, TN. Hardwood litter and timber. Moderate fire behavior with backing, flanking and uphill runs. Structures threatened.

Rough Ridge, Chattahoochee-Oconee NF. IMT 2 (Fogle). Thirteen miles northwest of Blue Ridge, GA. Hardwood litter, timber and brush. Minimal fire behavior with smoldering. Area and trail closures in effect.

Eades Hollow, Virginia DOF. One mile northeast of Lovingston, VA. Timber. No new information.

Eastern Cherokee Complex, Eastern Cherokee Agency, BIA. (2 fires). Four miles east of Cherokee, NC. Hardwood litter. Minimal fire behavior. Structures threatened.

Raven Rock, George Washington & Jefferson NF. Started on private land one mile east of Jenkins, KY. Hardwood litter and timber. No new information. Last report unless significant activity occurs.

Kentucky Ridge, Kentucky DOF. One mile northwest of Chenoa, KY. Hardwood litter and timber. Active fire behavior with running, wind driven runs and backing.

Quarry Creek, Cherokee NF. Two miles east of Tellico Plains, TN. Hardwood litter, brush and short grass. No new information.

Little Patterson, Kentucky DOF. Three miles east of Pleasant View, KY. Hardwood litter and timber. Extreme fire behavior with wind driven runs. Reduction in acreage due to more accurate mapping.

Bowlings Creek, Kentucky DOF. Two miles south of Crockettville, KY. Hardwood litter and timber. No new information.

* **Pumpkin**, Alabama Forestry Commission. Started on private land two miles southwest of Praco, AL. Southern rough. Moderate fire behavior. Last report unless significant activity occurs.

* **Banner Mines**, Alabama Forestry Commission. Started on private land four miles northeast of West Jefferson, AL. Hardwood litter. Minimal fire behavior. Structures threatened. Last report unless significant activity occurs.

Wallsend, Kentucky DOF. One mile north of Pineville, KY. Hardwood litter and timber. Extreme fire behavior with wind driven runs. Last report unless significant activity occurs.

Lost Fork, Daniel Boone NF. Four miles southwest of Peabody, KY. Hardwood litter. No new information.

Big Poplar, Cherokee NF. One mile west of Turtletown, TN. Hardwood litter, closed timber litter and timber. No new information.

Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

Predictive Services Discussion: A weakening trough will move into the central U.S. as another system approaches the Northwest. A cold front will continue to push through the eastern states. Scattered rain and snow will continue over the Great Lakes and New England. Scattered snow showers will linger over the northern Plains and the northern and central Rockies. Rain on the coast and snow in the Cascades will increase in the Northwest. Temperatures will remain cold over most of the West and North with warm to very warm weather conditions across the southern states.

POWERLINE SAFETY

Miscellaneous Fireline Hazards

Operating near or under power lines poses unique hazards, and the following precautions should be followed to reduce potential equipment damage or injury:

- If possible, the power company should deactivate lines in the fire area.
- Don't operate heavy equipment under power lines.
- Keep all aviation activity away from power lines. Inform air attack and/or other aviation resources of the location of the power lines.
- Don't drive with long antennas under power lines.
- Don't stand near power lines during retardant drops.
- Don't park under power lines. The magnetic field around energized power lines can induce an electrical charge in ungrounded vehicles or equipment. This charge can shock anyone who touches the vehicle.
- Don't apply straight stream to power lines.
- All personnel should be cautioned that smoke may become charged and conduct the electrical current. Deactivated transmission and distribution lines may continue to pose a hazard due to induction.
- If power lines fall on your vehicle, DON'T leave the vehicle until the power company arrives. If the vehicle is on fire or fire is near, jump clear, don't hang on, keep feet together, and bunny hop away.
