

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, June 15th, 2017 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (82 new fires)
New large incidents:	1
Large fires contained:	5
Uncontained large fires:**	6
Area Command Teams Committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 4)

New fires:	9
New large incidents:	0
Uncontained large fires:	5
Type 1 IMTs committed:	2
Type 2 IMTs committed:	2

Highline, Tonto, NF. IMT1 (Day). Eight miles north of Payson, AZ. Timber, brush and tall grass. Active fire behavior with flanking, uphill runs and short range spotting. Numerous residences threatened. Road and trail closures in effect.

Lizard, Coronado, NF. IMT 1 (Pierson). Three miles southeast of Dagoon, AZ. Short grass and brush. Minimal fire behavior with creeping. Residences threatened. Evacuations and area closures in effect.

Boundary, Coconino, NF. IMT 2 (Andrews). Twelve miles north of Bellemont, AZ. Timber, short grass and heavy logging slash. Moderate fire behavior with torching, flanking and backing. Road, area and trail closures in effect.

Freeze 2, San Carlos Agency, BIA. IMT 2 (Bales). Twenty-seven miles southeast of Whitewater, AZ. Timber and short grass. Minimal fire behavior with smoldering and creeping.

Rucker, Coronado, NF. Twenty-three miles northeast of Elvida, AZ. Brush, timber and tall grass. Minimal fire behavior with smoldering. Structures threatened. Road closures in effect.

Bonita, Carson, NF. Previously reported incident. Sixteen miles northeast of Canjilon, NM. Timber, brush and short grass. Moderate fire behavior with group torching, short crown runs and running. Road and area closures in effect. Last report unless significant activity occurs.

Corral, Gila, NF. Previously reported incident. Twenty-three miles northwest of Mimbres, NM. Tall grass and timber. Moderate fire behavior with creeping and backing. Last report unless significant activity occurs.

Straw, Gial, NF. Previously reported incident. Thirty-five miles northwest of Mimbres, NM. Timber. Minimal fire behavior with wind driven runs, creeping and backing. Last report unless significant activity occurs.

Round, Gila, NF. Previously reported incident. Sixteen miles west of Winston, NM. Timber and short grass. Moderate fire behavior with flanking. Last report unless significant activity occurs.

Windyhill, Tonto, NF. Three miles east of Roosevelt, AZ. Brush. Last report unless new information is received.

Predictive Services Discussion: Warm and dry conditions are expected across Alaska as a high pressure area centered over the northwestern corner of the state strengthens and expands southward. Across the Lower 48, the beginning of a trend toward hotter and drier conditions is expected as high pressure over Mexico strengthens. Temperatures from the Great Basin and Northern California will be slightly below normal as a weak cold front passes creating breezy conditions. The eastern states will remain mostly wet as a strong cold front moves east toward the Atlantic coast.

IN COUNTRY NOT SEEN IN DAYLIGHT

Operational Engagement Category

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing overhead/resource leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.

- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.

- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?

- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
 - Identifying prominent geographic features
