# National Interagency Coordination Center Incident Management Situation Report <br> Sunday, July 9, 2017 - 0530 MT <br> National Preparedness Level 3 

## National Fire Activity

Initial attack activity:
New large incidents:
Moderate (230) new fires
Large fires contained:
Uncontained large fires:**
20

Area Command Teams Committed: 0
NIMOs committed:
0
Type 1 IMTs committed:
Type 2 IMTs committed:
6
**Uncontained large fires only include fires being managed under a full suppression strategy.

## Great Basin (PL 4)

New fires:
44
New large incidents: 10
Uncontained large fires:
20
Type 1 IMTs committed:
0
Type 2 IMTs committed:

* Draw, Carson City District Office, BLM. IMT 2 (Rohrer). Fifty miles east of Fallon, NV. Closed timber litter, brush and short brush. Extreme fire behavior with wind driven runs. Structures threatened. Evacuations and road closures in effect. Energy infrastructure threatened. Sage-grouse habitat threatened.

[^0]* Aspen, Truckee Meadows Fire Protection District. IMT 2 (Chadwick) IMT is also managing the Winnemucca Ranch, Earthstone and Truckee fires. Eighteen miles northeast of Reno, NV. Timber, brush, and short grass. Active fire behavior with running, uphill runs and single tree torching. Structures threatened. Evacuations, road and area closures in effect. Sage-grouse habitat threatened.

Winnemucca Ranch, Truckee Meadows Fire Protection District. Started on private land 15 miles north of Reno, NV. Brush and short grass. Minimal fire behavior. Numerous structures threatened.

Earthstone, Sparks Fire Department. Started on private land five miles northeast of Sparks, NV. Brush and short grass. Minimal fire behavior. Structures threatened.

Truckee, Truckee Meadows Fire Protection District. Started on private land 10 miles north of Fernley, NV. Brush and short grass. Minimal fire behavior.

* River Ranch, Elko District Office, BLM. Twenty miles northeast of Elko, NV. Brush and tall grass. Active fire behavior with running.

Brianhead, Southwest Area, Utah DOF. IMT 2 (DeMasters). One mile north of Brian Head, UT. Timber and hardwood litter. Minimal fire behavior. Numerous residences threatened. Evacuations, road, area and trail closures in effect. Sage-grouse habitat threatened.

* Taber Flat, Northern Region, Nevada Division of Forestry. Sixteen miles west of Wells, NV. Brush and tall grass. Active fire behavior with running. Residences threatened. Sage-grouse habitat threatened.

Dry Gulch, Elko District Office, BLM. Twenty-three miles southeast of Jackpot, NV. Brush, tall grass and timber. Active fire behavior with creeping. Structures threatened.

* Iron Point, Winnemucca District Office, BLM. Nine miles east of Golconda, NV. Brush and short grass. Extreme fire behavior with wind driven runs and running. Structures threatened. Evacuations and road closures in effect. Sage-grouse habitat threatened.
* Limbo, Winnemucca District Office, BLM. Seventeen miles south of Gerlach, NV. Brush and short grass. Extreme fire behavior with wind driven runs and running. Sage-grouse habitat threatened.
* Coyote, Salt Lake Field Office, BLM. Twelve miles southwest of Park Valley, UT. Short grass. Active fire behavior with running. Structures threatened. Sage-grouse habitat threatened.

Potosi, Humboldt-Toiyabe NF. Twenty-eight miles southwest of Las Vegas, NV. Brush, tall grass and timber. Minimal fire behavior with torching. Numerous structures threatened. Reduction in acreage due to more accurate mapping.

White Horse, Elko District Office, BLM. Thirty-two miles southwest of Wendover, NV. Brush, tall grass and timber. Active fire behavior with single tree torching. Sage-grouse habitat threatened.

Limerick, Winnemucca District, BLM. Twelve miles northeast of Lovelock, NV. Timber, brush, and tall grass. Minimal fire behavior. Residences threatened. Sage-grouse habitat threatened.

Trapper Creek, Sawtooth NF. Eight miles southwest of Oakley, ID. Hardwood litter, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened.

* Transfer, Elko District Office, BLM. Nineteen miles southeast of Battle Mountian, NV. Brush and tall grass. Active fire behavior with running. Sage-grouse habitat threatened.

[^1]Tar Creek, Humboldt-Toiyabe NF. Eleven miles southeast of Austin, NV. Timber and brush. Minimal fire behavior. Precipitation occurred over the fire area yesterday. Last report unless significant activity occurs.

## Alaska Area (PL 2)

New Fires:
New large incidents:
Uncontained large fires:
Boulder Creek, Upper Yukon Zone, BLM. Previously reported incident. Started on FWS land sixty-six miles southeast of Artic Village, AK. Timber and short grass. Active fire behavior with running, isolated torching and group torching. Structures threatened. Last report unless significant activity occurs.

Campbell River, Upper Yukon Zone, BLM. Previously reported incident. Started on FWS land 65 miles northeast of Chalkyitsik, AK. Timber, brush and short grass. Active fire behavior with running. Structures threatened. Last report unless significant activity occurs.

Predictive Services Discussion: Critical fire weather conditions are possible across the Pacific Northwest, Northern California and portions of northern Great Basin as a cold front moves on shore from the Pacific Ocean and begins to break down the ridge of high pressure along coastal areas. Scattered wet with embedded dry storms will be possible over the higher terrain out ahead of the front. Breezy winds will proceed and follow the front's passage. Scattered storms will continue across the Southeast as a frontal boundary stalls along the Gulf Coast. Another front will bring showers and storms to the Great Lakes region. In Alaska, scattered showers will be possible across the interior as an area of low pressure in the Gulf of Alaska moves north toward the Kenai Peninsula by afternoon and pushes moisture inland overtop the Chugatch Range.

EXTENDED ATTACK<br>Operational Engagement Category

After your initial size-up of the fire and/or transfer of command from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the other forces associated with the fire?
- Can you control the fire with the resources available (either on the incident or soon to be on the incident) under expected conditions?
- Have you developed a plan to attack the fire?
- Direct or indirect
- Anchor points
- Escape routes
- Head or flank attack
- Priority areas
- Have you communicated this to all personnel assigned to the incident, including new arrivals?
- Can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
- If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed and/or mitigated?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of what resources have been ordered for the fire?
