## Northern Rockies Area (PL 4)

New fires:22
New large incidents: 8
Uncontained large fires: 15
Type 1 IMTs committed 2
Type 2 IMTs committed 5

Powerline, Craig Mountain Area, IDL. IMT 2 (Almas). IMT is also managing the Corral Creek fire. Fifteen miles west of Winchester, ID. Brush and grass. Active fire behavior with backing, flanking and running. Structures threatened. Road and area closures in effect.

Corral Creek, Craig Mountain Area, IDL. Fifteen miles east of Anatone, ID. Brush and tall grass. Minimal fire behavior. Structures threatened. Road and area closures in effect.

* South Breaks, Miles City District, BLM. IMT 2 (Connell). IMT is also managing the Bridge Coulee, Square Butte and Barker fires. Twenty-seven miles northeast of Mosby, MT. Timber. Extreme fire behavior with running, torching and long-range spotting.

Bridge Coulee, Miles City District, BLM. Sixteen miles north of Mosby, MT. Timber. Extreme fire behavior with crowning, running and long-range spotting. Structures threatened. Evacuations and road closures in effect.

* Square Butte, Miles City District, BLM. Nineteen miles north of Sand Springs, MT. Timber. Extreme fire behavior with running, torching and long-range spotting. Structures threatened.
* Barker, Miles City District, BLM. Started on private land 20 miles north of Sand Springs, MT. Timber. Active fire behavior with running, flanking and creeping. Structures threatened.

Park Creek, Helena-Lewis and Clark NF. IMT 2 (Hutton). IMT is also managing Arrastra Creek fire. Two miles north of Lincoln, MT. Timber. Extreme fire behavior with running and short-range spotting. Structures threatened. Area closures in effect.

Arrastra Creek, Helena NF. Six miles northwest of Lincoln, MT. Timber. Extreme fire behavior with running and short-range spotitng. Area closures in effect.

* Sunrise, Lolo NF. IMT 2 (Pearson). IMT is also managing the Burdette fire. Eleven miles east of Superior, MT. Timber and brush. Active fire behavior with group torching and spotting. Structures threatened. Road closures in effect.

## * Burdette, Lolo NF. Thirteen miles southeast of Tarkio, MT. Timber. Active fire behavior with running and

 isolated torching.Sliderock, Lolo NF. IMT 2 (Leach). IMT is also managing the Little Hogback fire. Twenty-eight miles southeast of Missoula, MT. Timber and closed timber litter. Active fire behavior with running and long-range spotting. Structures threatened. Road and trail closures in effect.

Little Hogback, Lolo NF. Twenty miles northwest of Stevensville, MT. Timber. Active fire behavior with crowning, running and long-range spotting. Road and trail closures in effect.

Lolo Peak, Lolo NF. Transfer of command from IMT 2 (Leach) to IMT 1 (Poncin) will occur today. Nine miles west of Carlton, MT. Timber. Active fire behavior with running and long-range spotting. Road, trail and area closures in effect.

Whetstone Ridge, Beaverhead/Deerlodge NF. Twenty-five miles southwest of Philipsburg, MT. Timber and heavy logging slash. Active fire behavior with running, torching and spotting. Residences threatened. Area closures in effect.

* Meyers, Beaverhead/Deerlodge NF. Twenty-five miles southwest of Philipsburg, MT. Timber and logging slash. Active fire behavior with running, torching and spotting. Area closures in effect.

Lookout, Central Land Office, DNR. IMT 1 (Turman). Seven miles northwest of Sieben, MT. Timber. Minimal fire behavior. Residences threatened.

Magpie, Dakota Prairie National Grasslands. Forty-four miles northwest of Dickinson, ND. Brush and short grass. Minimal fire behavior.

Turtle, Northern Cheyenne Agency, BIA. Two miles southwest of Ashland, MT. Timber and brush. Minimal fire behavior.

Crying, Petroleum County. Twenty miles northwest of Benzien, MT. Timber, brush and short grass. Active fire behavior with running, crowning and spotting. Structures threatened.

* Sage Hills, Yellowstone County. Four miles south of Billings, MT. Timber and brush. Active fire behavior. Residences threatened. Road closures in effect.

Moose Creek 1, Nez Perce-Clearwater NF. Thirty-seven miles west of Darby, MT. Timber and tall grass. Minimal fire behavior. Residences threatened. Last report unless significant activity occurs.

* Monahan, Lolo NF. Seventeen miles northeast of Seeley, MT. Timber and short grass. Moderate fire behavior. Structures threatened. Trail closures in effect. Last report unless significant activity occurs.

Predictive Services Discussion: Critical fire weather conditions are expected across the northwestern portion of the CONUS as breezy, dry westerly winds continue after the previous day's frontal passage. The warm, very dry conditions will also be observed across California and Nevada. The strong, moist monsoonal flow will continue across the Southwest with flash flooding potential remaining across portions of Arizona and New Mexico. In Alaska, a passing cold front along the Arctic coast will introduce breezy west winds as it passes during the morning hours. Shower activity will remain limited mainly to the North Slope. High pressure will build into the interior from the east providing the area with dry conditions.

UNINFORMED ON STRATEGY, TACTICS OR HAZARDS<br>Operational Engagement

Firefighters who are uninformed on strategy, tactics or hazards are in conflict with Watchout Situation \#5. Before going to the fireline, it is imperative that firefighters obtain information about strategies, tactics or hazards by asking themselves the following questions:

- Can communications be established to find out strategy, tactics or hazards? Discuss ways you might establish communications; for example, contacting someone who is already on the fire and asking them what tactics and strategies are working or not working, what hazards they have witnessed, etc.
- Can scouting safely identify potential hazards? Talk about different methods of scouting a fire (e.g., using a lookout from your crew or sending a line scout ahead, utilizing air attack or the spotter on a smokejumper airplane). Discuss what types of hazards you might come across and ways you would mitigate them. For example, arriving at a fire after dark and a being instructed to dig line downhill with the fire below. How could you make this a safe situation?
- Have strategies, tactics or hazards changed since last informed? Discuss situations that might alter the way you are fighting a fire (e.g., wind shifts, resources you expected don't arrive, etc.). Also, think about what new hazards can develop while you are on the fireline (e.g., roots burning out and trees coming down, winds shifting direction and speed, etc.)
- Can you get a briefing from your supervisor? Talk about the importance of constant communications and ensuring firefighters are on the same page with strategies and tactics. For example, if one crew decides to do a burnout, but doesn't let the crew at the other end of the line know what they are doing, then what can happen?
- To reduce the risks:
- Post lookouts.
- Determine escape routes and establish safety zones.
- Consider retreating until you are informed.
- Don't leave a staging area or operational briefing until you have all the pertinent information. Emphasize ways to inform firefighters about strategies, tactics and hazards. Tell a story about when you were uninformed and what you did to correct the situation so that you were safe.
- Use the Incident Response Pocket Guide standard briefing
