## Northern Rockies Area (PL 4)

| New fires: | 10 |
| :--- | :---: |
| New large incidents: | 4 |
| Uncontained large fires: | 18 |
| Type 1 IMTs committed | 3 |
| Type 2 IMTs committed | 5 |

Lodgepole Complex (4 fires), Miles City Field Office, BLM. IMT 2 (Connell). Includes previously reported South Breaks, Bridge Coulee, Square Butte and Barker fires. Fifty-two miles northwest of Jordan, MT. Timber,
brush and short grass. Active fire behavior with short-range spotting. Structures and sage-grouse habitat threatened. Evacuations and road closures in effect.

* Buffalo, Miles City District, BLM. IMT 1 (Kurth). Started on private land 31 miles southwest of Broadus, MT. Timber, brush and grass. Extreme fire behavior with crowning, running and short-range spotting. Structures and sage-grouse habitat threatened.

Sunrise, Lolo NF. IMT 2 (Pearson). IMT is also managing the Burdette fire. Eleven miles east of Superior, MT. Timber and brush. Extreme fire behavior with torching, running and long-range spotting. Structures threatened. Road and area closures in effect.

Burdette, Lolo NF. Thirteen miles southeast of Tarkio, MT. Timber. Active fire behavior with isolated torching and short-range spotting.

* Sapphire Complex (3 fires), Lolo NF. IMT 2 (Leach) Includes previously reported Goat Creek, Little Hogback and Sliderock fires. Fifteen miles southeast of Clinton, MT. Timber. Active fire behavior with running and backing. Structures threatened. Evacuations, road, trail and area closures in effect.

Park Creek, Helena-Lewis and Clark NF. IMT 2 (Hutton). IMT is also managing Arrastra Creek fire. Two miles north of Lincoln, MT. Timber. Active fire behavior with backing, running and group tree torching. Structures threatened. Area closures in effect.

Arrastra Creek, Helena NF. Six miles northwest of Lincoln, MT. Timber. Active fire behavior with running, backing and group tree torching. Area closures in effect.

Lolo Peak, Lolo NF. IMT 1 (Poncin). Nine miles west of Carlton, MT. Timber. Moderate fire behavior with backing, running and flanking. Road, trail and area closures in effect.

Whetstone Ridge, Beaverhead/Deerlodge NF. IMT 1 (Turman). IMT is also managing the Meyers fire. Twenty-five miles southwest of Philipsburg, MT. Timber and heavy logging slash. Active fire behavior with spotting, flanking and isolated torching. Area closures in effect.

Meyers, Beaverhead/Deerlodge NF. Twenty-five miles southwest of Philipsburg, MT. Timber and logging slash. Active fire behavior with torching, flanking and spotting. Area closures in effect.

Powerline, Craig Mountain Area, IDL. Transfer of command from IMT 2 (Almas) back to the local unit will occur tomorrow. IMT is also managing the Corral Creek fire. Fifteen miles west of Winchester, ID. Brush and grass. Minimal fire behavior. Structures threatened. Road and area closures in effect.

Corral Creek, Craig Mountain Area, IDL. Fifteen miles east of Anatone, ID. Brush and tall grass. Minimal fire behavior. Structures threatened. Road and area closures in effect.

Chinn, Central Land Office, Montana DNR. Started on county land 12 miles south of White Sulphur Springs, MT. Timber, brush and tall grass. Minimal fire behavior. Structures threatened.

Lookout, Central Land Office, Montana DNR. Seven miles northwest of Sieben, MT. Timber. No new information. Last report unless new information is received.

* Liberty, Flathead Agency, BIA. Seventeen miles southeast of Arlee, MT. Timber. Active fire behavior with torching. Road, trail and area closures in effect.

Yooper, Miles City Field Office, BLM. Started on private land 34 miles northwest of Sidney, MT. Timber. No new information.

Crying, Petroleum County. Fifty miles north of Winnett, MT. Timber, brush and short grass. Minimal fire behavior. Structures threatened.

Microwave, Crow Agency, BIA. Thirty-seven miles southeast of Billings, MT. Brush and tall grass. Minimal fire behavior.

* Rattlesnake Point, Nez Perce-Clearwater NF. Sixteen miles east of Dixie, ID. Timber, brush and short grass. Minimal fire behavior. Area closures in effect. Last report unless significant activity occurs.

Predictive Services Discussion: Cooler and dry conditions are expected along the West Coast as a cool trough lingers in the wake of the previous front. Significantly wet storms are possible across the interior west along and west of the Continental divide. Some storms could produce very heavy rainfall. Temperatures across the West will be near normal. Precipitation will expand east into the central and northern plains by afternoon. In Alaska, the previous day's disturbance will move into the eastern interior by afternoon and will produce intermittent shower activity

This Day in History is a brief summary of a powerful learning opportunity and
is not intended to second guess or be judgmental of decisions and actions. Put
yourself in the following situation as if you do not know what the outcome
will be. What are the conditions? What are you thinking? What are YOU
doing?
Dutch Creek Incident - July 25 ${ }^{\text {th }}$, 2008

Incident Summary: On June 12th, 2008, Andy Palmer graduates from high school. He completes Basic Firefighter training June $24^{\text {th }}$ and Wildland Fire Chain Saw training (S-212) June $28^{\text {th }}$. He is hired as a seasonal firefighter on an engine crew June $29^{\text {th }}$ and completes his A Faller taskbook on July 4th. July 22, 2008, the engine receives a resource order for the Iron Complex, California. The supervision at the park are motivated to see the engine crew obtain an assignment and call the crew in on their day off. The crew suffers a series of complications enroute to the fire including mechanical problems with the engine that lead to the eventual separation of the crew and engine captain after arriving at the incident. The remaining crew members are encouraged to pursue a line assignment as a falling team. The IMT personnel assign the crew as a falling module. During that assignment the crew cuts a tree that is outside their falling qualifications. A class C ponderosa pine is cut, falling downslope into a firedamaged sugar pine. A portion of the sugar pine breaks off and falls upslope, hitting firefighter Andy Palmer, resulting in multiple severe injuries... and the loss of a firefighters' life. It was Andy's first fire assignment

Zero Hour. July $25^{\text {th }}$, a radio transmission comes into Iron Complex dispatch: "Man Down Man Down. We need help. Medical emergency. Dozer pad. Broken leg. Bleeding. Drop Point 72 and dozer line. Call 911, we need help."

The local Sheriff's office receives a call from incident command and begins inquiring for a helicopter. Two air medical services decline the mission due to poor visibility from smoke, California Highway Patrol's helicopter was not available and the US Coast Guard (USCG) had not yet been contacted.

Other firefighters arrive on scene. Nomex shirts are used as pressure bandages on shoulder and leg injuries. The injured firefighter is reported as having severe bleeding and being conscious. The severity of the injuries and the sense of urgency are not communicated to paramedics dispatched in an ambulance to the incident. As the medics arrive on scene they realize the injuries are much more serious than they had been told and decide to facilitate a rapid evacuation via carryout.

Fifty-five minutes since the accident. The patient is prepared to move and the decision is made to go to the ambulance rather than waiting for the helicopter. The ambulance is approximately 2000 ft down the dozer line.

One hour and 25 minutes since the accident. A third paramedic has arrived on scene and the decision is made to wait for the helicopter. Firefighters start clearing a zone for hoist extraction.

One hour and 50 minutes since the accident. Multiple delays of the USCG helicopter are caused due to poor communications of patient status, potential use of a Forest Service helicopter assigned to the fire, and method of extraction. Once the USCG is enroute, communication about the new extraction location, radio frequencies and patient status is an issue and slows the extrication efforts. While being transferred to the hoist basket, personnel on the ground report profuse bleeding. No patient care can be given while being hoisted.

Two hours and 47 minutes since the accident. During the flight, cardiac arrest treatment protocol is initiated and the helicopter lands at Redding Municipal Airport with CPR in progress.

Three hours and 26 minutes since the accident. An ER Physician pronounced time of death, via radio. The Coroner later determined that Andy Palmer's death was caused by excessive blood loss.

## Lessons Learned Discussion Points

- Identify and discuss a variety of options for medical evacuation (ATV, wheeled litter, etc.) anticipating that a helicopter will not be available.
- If the crewmember sitting beside you were to be seriously injured on the fireline, what would you and your crew do? How thorough is your unit or IMT's Incident Emergency Plan? Consider doing a mock-up medical evacuation from start to finish. Utilize the new Medical Incident Report in your IRPG to effectively communicate emergency information. Use this 6MFS to learn how to use the MIR. Assess the drill with an AAR.
- Read page 2 in your IRPG.
