# National Interagency Coordination Center Incident Management Situation Report <br> Monday, July 31, 2017 - 0530 MT <br> National Preparedness Level 4 

National Fire Activity
Initial attack activity: Moderate (242) new fires
New large incidents:
11
Large fires contained:
4
Uncontained large fires:**
35
Area Command Teams Committed: 0
NIMOs committed: 2
Type 1 IMTs committed: 7
Type 2 IMTs committed: 8
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

One MAFFS C-130 airtanker and support personnel each from the 152 Airlift Wing, (Nevada Air National Guard), $153^{\text {rd }}$ Airlift Wing, (Wyoming Air National Guard) and the $302^{\text {nd }}$ Airlift Wing (Colorado Air Force Reserve) have been deployed to Fresno, CA in support of wildland fire operations.

## Northern Rockies Area (PL 4)

| New fires: | 23 |
| :--- | :---: |
| New large incidents: | 3 |
| Uncontained large fires: | 12 |
| Type 1 IMTs committed: | 4 |
| Type 2 IMTs committed: | 3 |

Sunrise, Lolo NF. IMT 2 (Pearson). IMT is also managing the Burdette fire. Eleven miles east of Superior, MT. Timber and brush. Extreme fire behavior with short-crown runs, long-range spotting and group torching. Structures threatened. Evacuations, road, trail and area closures in effect.

Burdette, Lolo NF. Thirteen miles southeast of Tarkio, MT. Timber. Active fire behavior with single-tree torching, short-range spotting and wind-driven runs.

Liberty, Flathead Agency, BIA. IMT 1 (McGowan). Seventeen miles southeast of Arlee, MT. Timber. Extreme fire behavior with long-range spotting, uphill runs and group torching. Road, trail and area closures in effect.

Sapphire Complex (3 fires), Lolo NF. IMT 2 (Thompson). Fifteen miles southeast of Clinton, MT. Timber. Moderate fire behavior with flanking, short crown runs and isolated torching. Structures threatened. Road, trail and area closures in effect.

Lolo Peak, Lolo NF. IMT 1 (Poncin). Ten miles southwest of Lolo, MT. Timber. Active fire behavior with uphill runs and short-range spotting. Road, trail and area closures in effect.

Park Creek, Helena-Lewis and Clark NF. IMT 2 (Hutton). IMT is also managing Arrastra Creek fire. Two miles north of Lincoln, MT. Timber. Active fire behavior with short crown runs, flanking and backing. Structures threatened. Area closures in effect.

Arrastra Creek, Helena-Lewis and Clark NF. Six miles northwest of Lincoln, MT. Timber. Active fire behavior with backing, flanking and group torching. Area closures in effect.

Whetstone Ridge, Beaverhead/Deerlodge NF. IMT 1 (Turman). IMT is also managing the Meyers fire. Twenty-five miles southwest of Philipsburg, MT. Timber. Active fire behavior with backing, short-range spotting and single-tree torching. Area closures in effect.

Meyers, Beaverhead/Deerlodge NF. Twenty-five miles southwest of Philipsburg, MT. Timber. Active fire behavior with short-range spotting, isolated torching and backing. Area closures in effect.

Bruner Mountain, Musselshell County. IMT 1 (T. Kurth). Twelve miles southwest of Roundup, MT. Timber and short grass. Minimal fire behavior. Structures threatened. Reduction in acreage due to more accurate mapping.

* Rice Ridge, Lolo NF. Six miles north of Seeley Lake, MT. Timber. Extreme fire behavior with wind-driven runs, spotting and torching. Structures threatened. Trail and area closures in effect.

Lodgepole Complex, Miles City Field Office, BLM. Fifty-two miles northwest of Jordan, MT. Timber, brush and short grass. Minimal fire behavior. Structures and sage-grouse habitat threatened.

Microwave, Crow Agency, BIA. Thirty-seven miles southeast of Billings, MT. Brush and tall grass. Minimal fire behavior.

* Trembling, Miles City Field Office, BLM. Started on private land 19 miles north of Ashland, MT. Timber and grass. Moderate fire behavior with isolated torching and creeping.

Lightning, Fort Peck Agency, BIA. Twenty-eight miles northwest of Wolfpoint, MT. Short grass. Minimal fire behavior.

Iron Springs, Big Horn County. Eight miles northeast of Hardin, MT. Timber. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

Predictive Services Discussion: The Four Corners high pressure area will strengthen as it drifts westward toward the Great Basin. Scattered, mostly wet storms will redevelop over the intermountain west in the afternoon as the monsoonal moisture remains trapped in the ridge. Some storms across northeastern California, Oregon, and Nevada could be dry. Expect for temperatures to be about 10 degrees above normal and for afternoon humidities to generally be in the upper single digits to middle teens. Looking east, cooler temperatures are expected as a large upper level trough remains anchored along the Atlantic Coast. This pattern of warming temperatures across the west will continue through the week.

MANAGING VEHICLE TRAFFIC IN SMOKE

Smoke has the potential to cause safety hazards to vehicle traffic in the vicinity of active fires (both wildfires and prescribed), especially at night. The following traffic-related items should be considered and addressed in local unit planning documents prior to an incident/project.

- Identification, location, and phone numbers of local units that have law enforcement and traffic control responsibilities in the smoke-impacted areas. Review any local agreements with these agencies presently in place.
- Identification of important, public roads that may be impacted by smoke.
- Identification of adequate equipment and trained personnel to control traffic. This may include warning signs, communications equipment (preferably not using the active fire frequency) and vehicles equipped with warning or flashing lights.
- Identification and phone numbers of radio and television stations that can issue traffic advisories for the smoke-impacted area.
- Identification of alternative traffic routes as part of the incident/project traffic plan.
- Identification of traffic routes subject to temperature inversions as well as contributory factors such as fog and ice.

When potential smoke-related problems are identified:

- Advise the Incident Commander, Burn Boss, or Agency Administrator that severe smoke exists.
- Notify local law enforcement units and highway departments of a potential problem.
- Implement preplanned actions such as posting smoke warning signs.
- Ensure that proper equipment is ready and appropriate personnel are briefed on contingency plans and are available to control traffic.
