New fires:
New large incidents: 1
Uncontained large fires: 11
Type 1 IMTs committed: 3
Type 2 IMTs committed: 43

Rice Ridge, Lolo NF. Six miles north of Seeley Lake, MT. Timber. Extreme fire behavior. Structures threatened. Trail and area closures in effect.

Sunrise, Lolo NF. IMT 2 (Pearson). IMT is also managing the Burdette fire. Eleven miles east of Superior, MT. Timber and brush. Extreme fire behavior with crowning, long-range spotting and group torching. Structures threatened. Evacuations, road, trail and area closures in effect.

Burdette, Lolo NF. Thirteen miles southeast of Tarkio, MT. Timber. Active fire behavior with single-tree torching, short-range spotting and wind-driven runs.

Liberty, Flathead Agency, BIA. IMT 1 (McGowan). Seventeen miles southeast of Arlee, MT. Timber. Active fire behavior with flanking, backing and torching. Road, trail and area closures in effect.

Sapphire Complex (3 fires), Lolo NF. IMT 2 (Thompson). Fifteen miles southeast of Clinton, MT. Timber. Active fire behavior with crowning, uphill runs and flanking. Structures threatened. Evacuations, road, trail and area closures in effect.

Lolo Peak, Lolo NF. IMT 1 (Poncin). Ten miles southwest of Lolo, MT. Timber. Active fire behavior with short crown runs, group torching and flanking. Road, trail and area closures in effect.

Park Creek, Helena-Lewis and Clark NF. IMT 2 (Hutton). IMT is also managing Arrastra Creek fire. Two miles north of Lincoln, MT. Timber. Active fire behavior with short crown runs, short-range spotting and backing. Structures threatened. Evacuations and area closures in effect.

Arrastra Creek, Helena-Lewis and Clark NF. Six miles northwest of Lincoln, MT. Timber. Active fire behavior with short crown runs, short-range spotting and backing. Structures threatened. Area closures in effect.

Whetstone Ridge, Beaverhead/Deerlodge NF. IMT 2 (Almas). IMT is also managing the Meyers fire. Twentyfive miles southwest of Philipsburg, MT. Timber. Active fire behavior with short-range spotting, group torching and backing. Residences threatened. Evacuations and area closures in effect.

Meyers, Beaverhead/Deerlodge NF. Twenty-five miles southwest of Philipsburg, MT. Timber. Active fire behavior with short-range spotting, group torching and backing. Structures threatened. Evacuations and area closures in effect.

[^0]Lightning, Fort Peck Agency, BIA. Twenty-eight miles northwest of Wolfpoint, MT. Short grass. Minimal fire behavior.

Iron Springs, Big Horn County. Eight miles northeast of Hardin, MT. Timber. Minimal fire behavior.

Predictive Services Discussion: Record setting heat is expected across a large portion of the west as the center of the upper level high pressure ridge continues to slowly strengthen as it remains entrenched over Nevada, Northern California, and southern Oregon. With the high heat, expect very unstable and dry conditions that will promote very active fire behavior. Surface humidities in many areas will be in the single digits. Isolated storms will be possible around the center of the high pressure ridge and also along and east of the Continental Divide where a northerly flow will be practicing a "return to sender" on the monsoonal moisture plume impulses that have been moving northward from the Southwest over the past several weeks. As this occurs, West Texas could be a benefactor by picking up some much needed rainfall.

## DOZER/PLOW OPERATIONS

Vehicles \& Roads Category

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety.
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.

When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.

## Have an idea? Have feedback? Share it.

[^0]:    * Hanover, Nez Perce - Clearwater NF. Four miles northeast of Florence, ID. Timber, brush and grass. Extreme fire behavior with running, crowning and group torching. Structures threatened. Road, trail and area closures in effect.

    Lodgepole Complex, Miles City Field Office, BLM. Fifty-two miles northwest of Jordan, MT. Timber, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened.

    Bruner Mountain, Musselshell County. IMT 1 (T. Kurth). Previously reported incident. Twelve miles southwest of Roundup, MT. Timber and short grass. Minimal fire behavior. Reduction in acreage due to more accurate mapping.
