

**National Interagency Coordination Center
Incident Management Situation Report
Monday, August 7, 2017 – 0530 MT
National Preparedness Level 4**

National Fire Activity

| | |
|-------------------------------|-----------------------|
| Initial attack activity: | Light (100) new fires |
| New large incidents: | 7 |
| Large fires contained: | 5 |
| Uncontained large fires:** | 32 |
| Area Command Teams Committed: | 1 |
| NIMOs committed: | 2 |
| Type 1 IMTs committed: | 6 |
| Type 2 IMTs committed: | 16 |

**Uncontained large fires include only fires being managed under a full suppression strategy.
[Link](#) to Geographic Area daily reports.

One MAFFS C-130 airtanker and support personnel each from the 152 Airlift Wing, (Nevada Air National Guard), 153rd Airlift Wing, (Wyoming Air National Guard) and the 302nd Airlift Wing (Colorado Springs, Air Force Reserve) have been deployed to Fresno, CA in support of wildland fire operations.

| Active Incident Resource Summary | | | | | | |
|---|--------------|-------------------------|--------------|----------------|--------------------|------------------------|

Northern Rockies Area (PL 4)

| | |
|-------------------------------|---|
| New fires: | 7 |
| New large incidents: | 0 |
| Uncontained large fires: | 5 |
| Area Command teams committed: | 1 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 5 |

Area Command Team (Stutler) is managing large fires on the Lolo National Forest and Flathead Reservation.

Rice Ridge, Lolo NF. IMT 2 (Goldman). Six miles north of Seeley Lake, MT. Timber. Minimal fire behavior with creeping, flanking and isolated torching. Structures threatened. Trail and area closures in effect.

Sunrise, Lolo NF. IMT 1 (Turman). IMT is also managing the Burdette fire. Eleven miles east of Superior, MT. Timber and brush. Active fire behavior with short-range spotting and group torching. Structures threatened. Evacuations, road, trail and area closures in effect.

Burdette, Lolo NF. Thirteen miles southeast of Tarkio, MT. Timber. Active fire behavior with spotting.

Sapphire Complex (3 fires), Lolo NF. IMT 2 (Thompson). Fifteen miles southeast of Clinton, MT. Timber. Active fire behavior with backing and group torching. Structures threatened. Road, trail and area closures in effect.

Lolo Peak, Lolo NF. IMT 1 (Livingston). Ten miles southwest of Lolo, MT. Timber. Moderate fire behavior with backing, flanking and single-tree torching. Road, trail and area closures in effect.

Meyers, Beaverhead - Deerlodge NF. IMT 2 (Almas). Twenty-five miles southwest of Philipsburg, MT. Timber. Moderate fire behavior with single-tree torching and creeping. Structures threatened. Evacuations, road and area closures in effect.

Hanover, Nez Perce - Clearwater NF. IMT 2 (Leach) Four miles northeast of Florence, ID. Timber, brush and grass. Moderate fire behavior with uphill runs and long-range spotting. Structures threatened. Road, trail and area closures in effect.

Liberty, Flathead Agency, BIA. IMT 1 (McGowan). Seventeen miles southeast of Arlee, MT. Timber. Minimal fire behavior. Road, trail and area closures in effect.

Park Creek, Helena - Lewis and Clark NF. IMT 2 (Zombro). IMT is also managing the Arrastra Creek fire. Two miles north of Lincoln, MT. Timber. Minimal fire behavior. Structures threatened. Area closures in effect.

Arrastra Creek, Helena - Lewis and Clark NF. Six miles northwest of Lincoln, MT. Timber. Minimal fire behavior. Structures threatened. Area closures in effect.

Lodgepole Complex, Miles City Field Office, BLM. Fifty-two miles northwest of Jordan, MT. Timber, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened.

Northwest Area (PL 4)

New fires: 7
New large incidents: 2
Uncontained large fires: 9
NIMOs committed 2
Type 1 IMTs committed: 2
Type 2 IMTs committed: 7

Bear Butte, Wallowa - Whitman NF. IMT 2 (Goff). Twenty miles northwest of Baker City, OR. Timber. Active fire behavior with group and isolated torching. Structures threatened. Road and area closures in effect.

Whitewater, Willamette NF. IMT 2 (Knerr). Ten miles east of Idanha, OR. Timber and brush. Active fire behavior with spotting and group torching. Structures threatened. Road, trail and area closures in effect.

Blanket Creek, Rogue River - Siskiyou NF. IMT 1 (von Tillow) and IMT 2 (Gales). IMT 2 (Gales) is also managing the Spruce Lake fire. Nine miles northeast of Prospect, OR. Timber. Active fire behavior with torching and short-range spotting. Structures threatened. Road, trail and area closures in effect

Spruce Lake, Crater Lake National Park. Fifteen miles southwest of Diamond Lake, OR. Timber. Active fire behavior with short-range spotting, torching and flanking. Structures threatened. Road, trail and area closures in effect.

Noisy Creek, Colville, NF. IMT 2 (Rabe). Six miles southeast of Metaline Falls, WA. Timber and brush. Active fire behavior with backing, flanking and uphill runs. Road, trail and area closures in effect. Reduction in acreage due to more accurate mapping.

Cinder Butte, Burns District, BLM. Transfer of command from IMT 2 (Ciraulo) back to the local unit will occur on 8/9. Ten miles west of Riley, OR. Timber, brush and tall grass. Minimal fire behavior with creeping and smoldering. Structures and sage-grouse habitat threatened.

Suiattle, Northwest Region - DNR. Transfer of command from IMT 2 (Harrod) back to the local unit will occur tomorrow. Nine miles northeast of Darrington, WA. Timber. Minimal fire behavior. Structures threatened. Road and trail closures in effect.

Chetco Bar, Rogue River - Siskiyou NF. NIMO (Houseman). Sixteen miles west of Selma, OR. Timber and brush. Moderate fire behavior with flanking and backing. Road and trail closures in effect.

Indian Creek, Mt. Hood NF. NIMO (Quesinberry). Six miles south of Cascade Locks, OR. Timber. Moderate fire behavior with backing and creeping. Trail and area closures in effect.

Devils Lake, Fremont - Winema NF. Transfer of command from IMT 2 (Sheldon) back to the local unit will occur tomorrow. Seven miles southeast of Bly, OR. Timber and short grass. Minimal fire behavior with creeping and smoldering. Structures threatened.

Diamond Creek, Okanogan - Wenatchee NF. IMT 1 (Schulte). Twenty-five miles north of Winthrop, WA. Timber and grass. Moderate fire behavior with uphill runs, torching and spotting. Structures threatened. Road, trail and area closures in effect.

Hayes Road, Washington State. Ten miles northeast of Mansfield, WA. Timber, brush and tall grass. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

Knot Grass, Washington State. Twelve miles southeast of Pomeroy, WA. Brush and grass. Last report unless new information is received.

* **Clarks Creek**, Oregon Department of Forestry. Eighteen miles northeast of La Grande, OR. Timber and short grass. Moderate fire behavior with creeping, backing and smoldering.

* **Rebel**, Willamette NF. Twenty-three miles north east of Oakridge, OR. Timber. Moderate fire behavior with single-tree torching, backing and flanking. Road, trail and area closures in effect. Last report unless significant activity occurs.

Predictive Services Discussion: The low pressure area trapped within the high pressure ridge over the west will remain stalled along the Pacific Coast of Oregon and Northern California. Scattered storms are expected across the Pacific Northwest, Northern California, northern Great Basin, the southwestern part of the Northern Rockies and the Central Rockies. Temperatures in these areas will remain well above normal. Cool conditions will continue in the East as another cool frontal system moves east and brings wet conditions to locations along the Atlantic and Gulf Coasts. Scattered showers and thunderstorms will be possible across the interior of Alaska as a ridge of high pressure extends westward across the interior. Temperatures in Alaska should be slightly above normal.

Fuel Geyser Awareness

Miscellaneous Fireline Hazards

Fuel geysers continue to injure firefighters. Although the 2017 fire season is only at its midpoint, two firefighters have received burn injuries from fuel geysers. There are reports of additional fuel geysers that did not result in burn injuries. Please continue to report **any** fuel geyser event on the [Fuel Geyser Reporting Form](#) , even if it seems insignificant.

A heated fuel tank can build excessive pressure and cause a fuel geyser when a firefighter opens it. It is important to remember that fuel, heat, and pressure can produce the conditions that may lead to a fuel geyser. The temperature of an air-cooled engine continues to increase for a short time after a firefighter shuts off the engine or the engine dies. There are no hard rules or a set amount of time to determine when a fuel tank is cool enough to open. Assume all gas-powered equipment and fuel containers are pressurized.

Watch the video at <https://youtu.be/MgWgVDN8e5s> to see how a fuel geyser affected a hotshot crewmember.

To help keep gas-powered equipment running cooler:

- Keep the equipment's chain/blade sharp and maintain it according to the manufacturer's instructions.
- Follow the manufacturer's recommended gasoline and two-stroke oil mix ratio.
- Minimize the equipment's exposure to radiant heat or direct sunlight.

- Fuel geysers are more likely to occur if you observe the following indicators:
 - The fuel level is half a tank or more.
 - The engine performs as if it is running out of fuel, bogs down, or has a rapid change in RPM.
 - The engine dies and is difficult to restart.
 - The equipment has a quarter-turn fuel cap.

- Use the following procedures to help protect yourself from fuel geysers:
 - Check the fuel tank level by visually inspecting the opaque tank, not by removing the cap.
 - Place hot equipment in the shade, out of the black, and try to increase airflow to promote cooling.
 - **Never** open a fuel tank within 20 feet of any heat source.
 - **Avoid** using fuel that has been stored in a fuel container for longer than 1 month.
 - If you need to open a fuel tank, put the equipment in a cleared area, cover the cap with a cloth, and open the tank slowly.

For more information or if you experience a fuel geyser, go to the National Fuel Geyser Awareness website at http://bit.ly/fuelgeyser_home.
