

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, September 12, 2017 – 0530 MT  
National Preparedness Level 5**

**National Fire Activity**

Initial attack activity:	Light (103) new fires
New large incidents:	2
Large fires contained:	4
Uncontained large fires:**	39
Area Command Teams Committed:	2
NIMOs committed:	4
Type 1 IMTs committed:	13
Type 2 IMTs committed:	20

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.  
[Link](#) to Geographic Area daily reports.

Two hundred and forty-five soldiers from the 23<sup>rd</sup> Brigade Engineer Battalion and 1-23 Infantry Battalion based out of Fort Lewis, Washington are deployed in support of the Umpqua North Complex.

One MAFFS C-130 airtanker and support personnel from the 302<sup>nd</sup> Airlift Wing (Colorado Springs, Air Force Reserve) and one MAFFS C-130 airtanker and support personnel from the 146<sup>th</sup> Airlift Wing, (California Air National Guard) have been deployed to Fresno, CA in support of wildland fire operations.

One RC-26 aircraft and support personnel from the 141<sup>st</sup> Aerial Refueling Wing (Washington Air National Guard) has been deployed to Fairchild AFB (Spokane, WA) in support of wildland fire operations.

One RC-26 aircraft and support personnel from the 162<sup>nd</sup> Fighter Wing (Arizona Air National Guard) has been deployed to Redding Municipal Airport (Redding, CA) in support of wildland fire operations.

Two CL-415 scooper groups from Ontario, Canada are supporting fire suppression efforts in the Northern Rockies Area.

## **Northern Rockies Area (PL 5)**

New fires:	6
New large incidents:	1
Uncontained large fires:	9
Area Command teams committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	5

Area Command Team (Stutler) is managing large fires in western Montana.

**Rice Ridge**, Lolo NF. IMT 1 (Poncin). IMT is also managing the Liberty fire. Six miles north of Seeley Lake, MT. Timber. Active fire behavior with smoldering, flanking and running. Structures threatened. Evacuations, road, trail and area closures in effect.

**Liberty**, Flathead Agency, BIA. Seventeen miles southeast of Arlee, MT. Timber. Active fire behavior with running, short-range spotting and short crown runs. Structures threatened. Road, trail and area closures in effect.

**Alice Creek**, Helena – Lewis and Clark NF. IMT 1 (Martin). Fifteen miles northeast of Lincoln, MT. Timber and short grass. Active fire behavior with wind-driven runs, long-range spotting and crowning. Residences threatened. Evacuations, road, trail and area closures in effect.

**West Fork**, Kootenai NF. IMT 2 (Esperance). IMT is also managing the Moose Peak fire. Seven miles northwest of Libby, MT. Timber. Active fire behavior with short crown runs, spotting and torching. Structures threatened. Evacuations, road, trail and area closures in effect.

**Moose Peak**, Kootenai NF. Thirteen miles east of Trout Creek, MT. Timber. Active fire behavior with short crown runs, torching and spotting. Structures threatened. Evacuations, road, and area closures in effect.

**Caribou**, Kootenai NF. IMT 2 (Pearson). IMT is also managing the Gibraltar Ridge fire. Twenty-one miles northwest of Eureka, MT. Timber. Active fire behavior with torching and backing. Structures threatened. Road, trail and area closures in effect.

**Gibraltar Ridge**, Kootenai NF. Seven miles east of Eureka, MT. Timber and grass. Active fire behavior with short-range spotting and running. Residences threatened. Road, trail and area closures in effect.

**Highway 200 Complex**, (5 fires), Lolo NF. IMT 2 (Connell). Nine miles northwest of Plains, MT. Timber. Active fire behavior with torching, spotting and short crown runs. Residences threatened. Road and area closures in effect.

**Sprague**, Glacier National Park. IMT 2 (Hutton). IMT is also managing the Adair Peak fire. Nine miles northeast of West Glacier, MT. Timber. Active fire behavior with backing, torching and spotting. Structures threatened. Road, trail and area closures in effect.

**Adair Peak**, Glacier National Park. Eighteen miles north of West Glacier, MT. Timber. Moderate fire behavior with group torching, backing and spotting. Structures threatened. Road, trail and area closures in effect.

**Lolo Peak**, Lolo NF. IMT 1 (Turman). Ten miles southwest of Lolo, MT. Timber. Active fire behavior with single tree torching, short-range spotting and backing. Structures threatened. Road, trail and area closures in effect.

**Meyers**, Beaverhead - Deerlodge NF. IMT 1 (Dueitt). IMT is also managing the Sapphire Complex. Twenty-five miles southwest of Philipsburg, MT. Timber. Moderate fire behavior with isolated torching, creeping and smoldering. Structures threatened. Road, trail and area closures in effect.

**Sapphire Complex**, (3 fires), Lolo NF. Fifteen miles southeast of Clinton, MT. Timber. Moderate fire behavior with single tree torching and smoldering. Structures threatened. Road, trail and area closures in effect.

**Coolwater Complex**, (2 fires), Nez Perce – Clearwater NF. IMT 2 (Goldman). Fifteen miles east of Kooskia, ID. Timber and short grass. Moderate fire behavior with backing, creeping and smoldering. Structures threatened. Road, trail and area closures in effect.

**East Fork**, Rocky Boy’s Agency, BIA. Ten miles east of Box Elder, MT. Timber and tall grass. Minimal fire behavior. Residences threatened. Road and area closures in effect.

**Strychnine**, Ponderosa Area Office, IDL. Five miles northeast of Harvard, ID. Timber. Minimal fire behavior with creeping, smoldering and backing. Road, trail and area closures in effect.

**McCully**, Northwestern Land Office, Montana DNR. Seventeen miles northeast of Thompson Falls, MT. Timber. Moderate fire behavior with creeping and smoldering. Road closures in effect.

**Wolverine**, Blackfeet Agency, BIA. Ten miles northeast of St. Mary, MT. Timber, brush, and short grass. Minimal fire behavior. Residences threatened.

**Blue Bay**, Flathead Agency, BIA. Ten miles northeast of Polson, MT. Timber. Minimal fire behavior. Road, trail and area closures in effect.

**Nelson Creek**, Bitterroot NF. Sixteen miles southwest of Conner, MT. Timber. Minimal fire behavior. Road and trail closures in effect.

**Strawberry**, Flathead NF. Previously reported incident. Thirty miles southeast of Essex, MT. Timber. Extreme fire behavior with short crown runs and spotting. Structures threatened. Trail and area closures in effect. Last report unless significant activity occurs.

\* **Snowshoe**, Southwest Land Office, Montana DNR. Twenty miles west of Helena, MT. Timber, brush and tall grass. Moderate fire behavior with creeping and smoldering. Structures threatened.

### **Northwest Area (PL 5)**

New fires:	16
New large incidents:	1
Uncontained large fires:	17
Area Command teams committed:	1
NIMOs Committed:	1
Type 1 IMTs committed:	6
Type 2 IMTs committed:	8

Area Command Team (Muir) is managing the Chetco Bar fire, Miller Complex and High Cascades Complex.

**Eagle Creek**, Columbia River Gorge National Scenic Area. IMT 1 (Pierson). One mile south of Cascade Locks, OR. Timber. Moderate fire behavior with flanking, backing and creeping. Residences threatened. Road, trail and area closures in effect.

**Chetco Bar**, Rogue River - Siskiyou NF. IMT 1 (Lund) and IMT 2 (Gales). Sixteen miles west of Selma, OR. Timber and brush. Active fire behavior with creeping, backing, and torching. Structures threatened. Road, trail and area closures in effect.

**Jolly Mountain**, Okanogan - Wenatchee NF. IMT 1 (Schulte). Thirteen miles northwest of Cle Elum, WA. Timber. Active fire behavior with backing, torching and uphill runs. Structures threatened. Road, trail and area closures in effect.

**Norse Peak**, Okanogan - Wenatchee NF. IMT 2 (Arroyo). IMT is also managing the American fire. Eleven miles west of Cliffdell, WA. Timber. Moderate fire behavior with single tree torching, backing and creeping. Residences threatened. Road, trail and area closures in effect.

**American**, Okanogan - Wenatchee NF. Eleven miles west of Cliffdell, WA. Timber. Moderate fire behavior with backing, creeping and single tree torching. Residences threatened. Road, trail and area closures in effect.

**Umpqua North Complex**, (6 fires), Umpqua NF. IMT 1 (J. Kurth). Fifty miles east of Roseburg, OR. Timber, brush and grass. Active fire behavior with torching and backing. Structures threatened. Evacuations, road, trail and area closures in effect.

**Horse Creek Complex**, (5 fires), Willamette NF. IMT 1 (Day). IMT is also managing the Rebel fire. Seven miles south of Belknap Springs, OR. Timber. Active fire behavior with single tree torching, flanking and backing. Structures threatened. Evacuations, road, trail and area closures in effect.

**Rebel**, Willamette NF. Twenty-two miles north of Oakridge, OR. Timber. Active fire behavior with single tree torching, backing and flanking. Road, trail and area closures in effect.

**High Cascades Complex**, (4 fires), Rogue River - Siskiyou NF. IMT 2 (Sinclair) and IMT 2 (Sheldon). Nine miles northeast of Prospect, OR. Timber. Active fire behavior with backing, isolated torching and uphill runs. Structures threatened. Road, trail and area closures in effect.

**Miller Complex**, (4 fires), Rogue River - Siskiyou NF. IMT 2 (Goff). Seventeen miles east of Cave Junction, OR. Timber. Moderate fire behavior with flanking, backing and smoldering. Structures threatened. Road, trail and area closures in effect. Reduction in acreage due to more accurate mapping.

**Whitewater**, Willamette NF. IMT 2 (Johnson). IMT is also managing the Potato Hill fire. Ten miles east of Idanha, OR. Timber and brush. Moderate fire behavior with flanking and backing. Structures threatened. Evacuations, road, trail and area closures in effect.

**Potato Hill**, Willamette NF. Twenty miles northwest of Sisters, OR. Timber. Minimal fire behavior. Structures threatened.

**Uno Peak**, Okanogan-Wenatchee NF. IMT 2 (Ciraulo). Sixteen miles northwest of Manson, WA. Timber. Moderate fire behavior with torching, flanking and backing. Structures threatened. Road, trail and area closures in effect.

**Sawmill Creek**, South Puget Sound Region, Washington DNR. IMT 2 (Wakoski). Twenty-five miles west of Cle Elum, WA. Timber. Minimal fire behavior with backing, creeping and smoldering. Road, trail and area closures in effect.

**Horse Prairie**, Central Unit, Oregon Department of Forestry. ODF IMT 1 (Hessel). Fifteen miles northwest of Canyonville, OR. Timber. Minimal fire behavior. Residences threatened. Road and area closures in effect.

**Jones**, Willamette NF. Ten miles northeast of Lowell, OR. Timber and grass. Moderate fire behavior with creeping and backing. Structures threatened. Road, trail and area closures in effect.

**Bridge Creek**, Colville Agency, BIA. Eleven miles northeast of Keller, WA. Timber and tall grass. Minimal fire behavior.

**Milli**, Deschutes NF. Nine miles west of Sisters, OR. Timber. Active fire behavior with flanking and backing. Residences threatened. Road, trail and area closures in effect.

**Falcon Complex**, (2 fires), Umpqua NF. Twenty-five miles east of Tiller, OR. Timber, brush and grass. Minimal fire behavior. Structures threatened. Road closures in effect.

**Diamond Creek**, (3 fires), Okanogan - Wenatchee NF. NIMO (Houseman). Twenty-seven miles north of Winthrop, WA. Timber. Active fire behavior with running and backing. Structures threatened. Road, trail and area closures in effect.

**Hampton**, Prineville District, BLM. Forty-eight miles southeast of Prineville, OR. Brush and tall grass. Minimal fire behavior.

**Archer Mountain**, Pacific Cascade Region, Washington DNR. Previously reported incident. Three miles northwest of Dodson, WA. Timber, brush and grass. Moderate fire behavior. Structures threatened.

**Staley**, Willamette NF. Twenty-three miles south of Oakridge, OR. Timber and brush. Last report unless new information is received.

**Hard Rock**, Vale District, BLM. Twenty miles south of Harper, OR. Tall and short grass. No new information received.

\* **Desolation**, Ochoco NF. Twenty miles northeast of Prineville, OR. Timber and brush, Active fire behavior with uphill runs and backing. Structures threatened.

**Predictive Services Discussion:** Remnants of Hurricane Irma will move into the Mid-Mississippi, producing heavy rain and possible flooding. In the West, high pressure will remain over the region with an upper low off the California coast and an upper trough approaching the Northwest coast drawing moisture toward northern California and Oregon. Scattered thunderstorms in the southern half of the West will continue, and isolated to widely scattered storms will move toward the Northwest. Warm and breezy conditions will continue over the northern Rockies and northern Plains. Temperatures will continue warm to hot for the season in the West and over the Plains, cool to mild East with warming in Florida.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

This Day in History is a brief summary of a powerful learning opportunity and is not intended to second guess or be judgmental of decisions and actions. Put yourself in the following situation as if you do not know what the outcome will be. What are the conditions? What are you thinking? What are YOU doing?

## Tuolumne Fire - September 12<sup>th</sup> 2004 - California

**Incident Summary:** The Tuolumne Fire is reported by a Stanislaus lookout at 1233 hours. Dispatch initiates a standard response, including the dispatch of a helicopter with helitack crew. 1259 Air Attack (ATGS) arrives over fire and reports fire to be between 5-10 acres, spreading up-slope and up-canyon with a steady 3-5mph wind. The fire is burning near the bottom of the Tuolumne River Canyon, just upstream of a major river confluence at 1450' elevation in light, flashy fuels, predominantly oak leaf litter, light grass and mixed brush with an oak overstory consistent with Fuel Model 2. FDFM (Fine Dead Fuel Moisture) is 4-5% and live fuel moistures at critical stage. Temperature is 89-94, RH 18-24%, and there is no frontal or thunderstorm activity. The canyon is very steep, observed to be 80-120% slope. At approximately 1335 the helitack crew begins constructing downhill fireline. 10 minutes later they take emergency action when a sudden wind shift that causes a fire flare-up which overruns their position. Of the 7 person crew, 3 firefighters suffer minor injuries and one firefighter is killed.

1305 the helicopter arrives over the fire and drops the crew on a gravel bar 3/4 mile downstream of the fire. They hike from the LZ up-canyon to a dirt road that parallels the river and walk the road toward the right flank of the fire. The fire is burning both above and below the road. Their helicopter is directed to begin dropping water on right flank **above** the road.

A local Division Chief is dispatched to the fire to be IC and drives past the helitack crew to the right flank. He observes a slow backing fire and returns to the location of the helitack crew, who are still hiking. Talking with the helitack captain, he does not identify himself as IC, announce a strategy or specific tactics. He does state that he wants the crew to find a safe anchor point but the crew understands him to want them to "anchor this fire on the right flank, the road **down** to the river".

1335 the crew arrives at the right flank on the road and looks for access to the river and safe access to the bottom of the fire.

ATGS and IC decide to continue to use the helicopter on the right flank **above** the road. The helitack captain hears this exchange on the radio.

ATGS receives a radio call about a spot fire and misses discussion about helitack crew working below the road. (In a post-incident interview, the ATGS will state that he thought the crew was above the road.)

After scouting down the right flank about 70 feet, it is decided to construct indirect fire line downhill for 250 - 300ft to the river burning out from the road as they go. Safety zones are identified as down to the river, up to the road or into the black. All crew members agree with the plan and inform their helicopter pilot.

An engine is assigned to support the helitack crew. The crew is not notified that the engine was assigned to support them and that it was close by.

1340 firefighters located about 30ft down the line from the road remark that the burn out is pulling in nicely. There is a "flutter" in the wind and the 3 firefighters closest to the road are told to grab backpack pumps just in case.

1345 a sudden wind shift causes the fire to flare-up, change direction, and overrun the crew. 30 seconds later one crew member is dead. No fire shelters are deployed.

### Lessons Learned Discussion Points

*During size-up, what fire behavior did the personnel observe? If you were at a fire in a similar setting, what local terrain features and other factors might lead you to distrust the fire behavior seen?*

*It is common for people to have communication problems. On an incident where these issues can easily compromise anyone's life safety, what are you going to do to minimize communication errors... as a Crew member? Crew boss? Pilot? IC?*

*Your crew has been dispatched to this fire. How will you handle the "Lookout" aspect of LCES? It is common to hear that "everyone on the crew is a lookout". Discuss what each person must do to make this an effective alternative to the "traditional" lookout.*

*This fire had an Air Attack and a helicopter. Discuss if and how aerial resources can be used as additional lookouts and sources of information. What are some downfalls to using them in this role?*

Have an idea? Have feedback? Share it.
