

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, October 10, 2017 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity: Light (53) new fires  
 New large incidents: 10  
 Large fires contained: 0  
 Uncontained large fires:\*\* 17  
 Area Command teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 5  
 Type 2 IMTs committed: 4

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

**Northern California Area (PL 3)**

New fires: 3  
 New large incidents: 10  
 Uncontained large fires: 13  
 Type 1 IMTs Committed: 4

\* **Central LNU Complex**, (2 fires). Sonoma Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Gouvea). One mile north of Santa Rosa, CA. Tall grass and brush. Extreme fire behavior. Numerous residences threatened. Evacuations in effect.

\* **Southern LNU Complex**, (3 fires). Cal Fire IMT 1 (Lawson). One mile east of Napa, CA. Timber, brush and short grass. Extreme fire behavior. Numerous structures threatened. Evacuations in effect.

\* **Potter Valley**, Mendocino Unit, Cal Fire. One mile west of Potter Valley, CA. Tall grass and timber. Extreme fire behavior with wind driven runs. Structures threatened. Evacuations and road closures in effect.

\* **Cascade**, Nevada-Yuba-Placer Unit, Cal Fire. One miles east of Loma Rica, CA. Timber and brush. Active fire behavior with wind driven runs, uphill runs and short crown runs. Numerous structures threatened. Road closures in effect.

\* **Sulfur**, Sonoma-Lake-Napa Unit, Cal Fire. Two miles northwest of Clearlake, CA. Brush. Active fire behavior. Numerous structures threatened. Evacuations in effect.

\* **Redwood Valley**, Mendocino Unit, Cal Fire. Cal Fire IMT 1 (Derum). Two miles north of Laughlin, CA. Tall grass and timber. Extreme fire behavior with wind driven runs. Structures threatened. Evacuations in effect.

\* **Cherokee**, Butte Unit, Cal Fire. Three miles north of Oroville, CA. Brush and tall grass. Active fire behavior with short range spotting, flanking and backing. Numerous structures threatened. Evacuations, road and area closures in effect.

\* **La Porte**, Butte Unit, Cal Fire. One miles east of Bangor, CA. Brush and tall grass. Extreme fire behavior with wind driven runs and spotting. Numerous structures threatened. Evacuations, road and area closures in effect.

\* **Thirty Seven**, Marin County Fire Department. Eleven miles southeast of Petaluma. Tall grass and brush. Active fire behavior with wind driven runs and short-range spotting. Structures threatened. Evacuations, road and area closures in effect.

\* **Lobo**, Nevada-Yuba-Placer Unit, Cal Fire. Cal Fire IMT 1 (Patterson). Four miles west of Grass Valley, CA. Timber and brush. Active fire behavior with wind driven runs, short crown runs and short range spotting. Numerous structures threatened. Road closures in effect.

**Southern Area (PL 4)**

New fires: 24  
 New large incidents: 0  
 Uncontained large fires: 0  
 Type 1 IMTs Committed: 1  
 Type 2 IMTs Committed: 4

**Hurricane Maria Puerto Rico**, Federal Emergency Management Agency (FEMA). IMT 1 (McGowan) has been tasked with establishment of an incident support base for the receipt and distribution of commodities, supplies and resources. FDNY IMT 2 (Kane) has been tasked with assessment of damage to critical infrastructure including roads, water systems and communications. Transfer of command from IMT 2 (Zombro) back to the local unit will occur tomorrow. IMT is coordinating with other agencies to plan and prioritize emergency road clearing.

**Hurricane Maria U.S Virgin Islands**, Federal Emergency Management Agency (FEMA). IMT 2 (Bird) has mobilized to St. Croix and is managing a logistical staging area for incoming commodities.

**Hurricane Harvey**, Texas A&M Forest Service. Texas IMT 2 (Hanneman) has mobilized to College Station, TX to support recovery and mitigation efforts, surveying impacts on local fire departments and distributing donated fire equipment.

\*\*\* Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

**Predictive Services Discussion:** A strong off shore flow will develop over the Pacific Northwest as a high pressure ridge approaches the coast of British Columbia and as a trough of low pressure over Idaho and Montana begins to push east and induces a strong northeasterly wind in its wake. The gusty winds could extend as far south as Northern California. Ahead of the low pressure trough, areas of snow will be possible across South Dakota, northwestern Nebraska, and eastern Wyoming. Across the Southeast and East, a stalled cold front will lead to a continuance of wet conditions from southern New England south to Florida and from Florida west into East Texas. The Great Lakes Region should remain warm and dry.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## SAFENET

*Fire Communication Category*

SAFENET is a form and process for front line firefighters that provides a way to be heard and get unsafe situations resolved. SAFENET has been in demand by firefighters themselves. It is a method for prompt reporting and timely resolution of safety and health concerns encountered in wildland fire, all hazard operations, or other related work environments. The information on the form assists in the collection of important, safety-related data at the National Interagency Fire Center, to determine long-term trends and problem areas. Here are some facts about SAFENET and how it works.

- Individuals who observe or who are involved in an unsafe situation shall initiate corrective actions if possible, and then report the occurrence using SAFENET. SAFENET reports should identify unsafe situations in wildland fire, all hazard operations, or other related work environments.
- SAFENETs should be submitted to the first line supervisor, whose responsibility it is to resolve the situation as quickly as possible.
- SAFENETs may also be submitted directly to the SAFENET system via:
  - The internet at [safenet.nifc.gov](http://safenet.nifc.gov) or linking to it through the NIFC website.
  - Telephone at (1-888-670-3938)
  - Direct Mail to SAFENET, P.O. Box 16645, Boise, Idaho, 83715-9750
- SAFENET was originally intended for wildland fire operations, but can be used to report on activities such as training, and all hazard events.
- Submitters are encouraged, but not required, to put your name on the report. You don't have to identify yourself to fill out a SAFENET, you can do it anonymously. All SAFENETs will be sanitized before posting to the web. See [SAFENET Protocols](#) for sanitizing process.
- There is no punishment or penalty for filing a SAFENET, nor is it mandatory.
- SAFENETs related to incidents that have on-going serious accident investigations will not be posted until formal investigation process is completed. These SAFENETs will be sent directly to the serious accident investigation team.
- SAFENETs that do not meet posting criteria (see [SAFENET Protocols](#)) will not be posted to the website.

SAFENET is not the only way to correct a safety-related concern; it does not replace accident reporting or any other official agency reporting method. It's simply an easy, quick way to report a safety concern. It's also a way for front line firefighters to be involved in the daily job of being safe and keeping others safe, by documenting and helping to resolve safety issues.

The NWCG encourages comments and suggestions for improvement of the SAFENET program. Please share your ideas by emailing the [SAFENET\\_Administrator@blm.gov](mailto:SAFENET_Administrator@blm.gov).
