

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, October 17, 2017 – 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity: Light (76) new fires
 New large incidents: 1
 Large fires contained: 3
 Uncontained large fires:** 12
 Area Command teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 3
 Type 2 IMTs committed: 2

**Uncontained large fires include only fires being managed under a full suppression strategy.

Total	29	607,664	262	1,181	49	12,825

Northern California Area (PL 4)

New fires: 14
 New large incidents: 0
 Uncontained large fires: 9
 Type 1 IMTs Committed: 3

Central LNU Complex, Sonoma Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Gouvea). One mile north of Santa Rosa, CA. Brush and tall grass. Minimal fire behavior with backing and creeping. Numerous structures threatened. Evacuations, road and area closures are in effect. Reduction in acreage due to more accurate mapping.

Southern LNU Complex, (3 fires). Sonoma Lake Napa Unit, Cal Fire. Cal Fire IMT 1 (Lawson). One mile east of Napa, CA. Timber, brush and short grass. Minimal fire behavior. Residences threatened. Evacuations, road and area closures in effect.

Mendocino Lake Complex, (2 fires). Mendocino Unit, Cal Fire. Cal Fire IMT 1 (Derum). One mile west of Potter Valley, CA. Minimal fire behavior.

NEU Wind Complex, (2 fires). Nevada-Yuba-Placer Unit, Cal Fire. Four miles west of Grass Valley, CA. Timber and brush. Minimal fire behavior.

Table, Eldorado NF. Seventeen miles northeast of Pollock Pines, CA. Timber. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

*** Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

Predictive Services Discussion: Generally fair weather will continue across the U.S. as high pressure remains in place over most of the country. A dry cold front will drop into the northern Plains and Great Lakes region, bringing cooler and breezy conditions. Another front will approach the Pacific Northwest coast, bringing rain to the coasts of Washington and Oregon, and snow to the Cascades. Onshore flow in California will lower temperatures, but the interior valleys and the southwest deserts will remain warm to hot. Temperatures across the Northwest, Northern Rockies, Great Lakes, and New England will be cool to mild. The rest of the country will be warm with hot conditions over Florida.

What the SAFECOM system IS

The Aviation Safety Communiqué (SAFECOM) [AMD-34/FS-5700-14](#) should be used to report any condition, observation, act, maintenance problem, or circumstance with personnel or the aircraft that has the potential to cause an aviation-related mishap. SAFECOMS are a tool used to identify, document, track, and correct safety related issues.

What the SAFECOM system IS NOT

- NOT intended for initiating punitive actions,
- NOT to be used as a complaint system or for personal attacks,
- NOT used by contracting officers for contract evaluations/award purposes,
- NOT a substitute for "on-the-spot" corrections to a safety concern,
- Does NOT replace the requirement for initiating an accident or incident report.

SAFECOMS provide the necessary feedback for development of the following communication tools:

- *Accident Prevention Bulletins*
- *Lessons Learned*
- *Safety Alerts*
- *Technical Bulletins*
- *Airwards*
- *Information sharing Memos*
- *Maintenance deficiencies (ADs, SBs, etc)*
- *Safety trends*
- *Training needs*
