

**National Interagency Coordination Center  
Incident Management Situation Report  
Thursday, December 07, 2017 – 0800 MT  
National Preparedness Level 1**

**National Fire Activity**

Initial attack activity: Light (23) new fires  
 New large incidents: 1  
 Large fires contained: 1  
 Uncontained large fires:\*\* 8  
 Area Command teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 3  
 Type 2 IMTs committed: 0

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

\*\*\* Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

**Predictive Services Discussion:** High pressure will dominate the western half of the United States with generally quiet weather conditions across most of the nation. Moderate to strong offshore flow will continue over the southern coast of California with winds of 20 to 40 mph and gusts up to 60 mph possible. Scattered snow will fall over the central and southern Rockies, transitioning to mixed winter weather across southeastern New Mexico and western Texas. A cold front pushing toward the South will produce rain and few thunderstorms along the Gulf Coast to the Mid-Atlantic Coast. Scattered snow with some lake effect conditions will remain over the Great Lakes region. Temperatures will warm across California and Florida, mild across most of the interior, with cold conditions across the Upper Midwest.

## OPERATIONAL BRIEFINGS

*Fire Communications Category*

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

### ● Situation:

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

### ● Mission/Execution:

- Command (Incident Commander/immediate supervisor)
- Leader's intent
- Specific tactical assignments
- Contingency plans

### ● Communications:

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medevac Plan

### ● Service/Support:

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)

### ● Risk Management:

- Identify known hazards and risks
- Identify control measures to eliminate hazards and reduce risk
- Identify trigger points for disengagement or reevaluation of operational plan
