National Interagency Coordination Center Incident Management Situation Report Friday, July 20, 2018 – 0530 MT National Preparedness Level 3

National Fire Activity

Initial Attack Activity:	Light (112) new fires	
New large incidents:	8	
Large fires contained:	13	
Uncontained large fires:**	41	
Area Command teams committed:	0	
NIMOs committed:	0	
Type 1 IMTs committed:	3	
Type 2 IMTs committed:	8	
Nationally, there are 22 large fires bein	g managed under a strategy other than full suppression	on.
**Uncontained large fires include only f	ires being managed under a full suppression strategy	•

Link to Geographic Area daily reports.

The U.S. has mobilized 12 federal wildland firefighters to support fire suppression efforts in Ontario, Canada.

Northwest Area (PL 3)

New fires:	17
New large incidents:	6
Uncontained large fires:	16
Type 1 IMTs committed:	2
Type 2 IMTs committed:	6

Substation, Wasco County. IMT 1 (Schulte). Started on private land five miles south of The Dalles, OR. Brush and tall grass. Active fire behavior with uphill runs, wind-driven runs and short-range spotting. Numerous structures threatened. Evacuations, road and area closures in effect.

Garner Complex (4 fires), Grant Pass Unit, ODF. ODF IMT 1 (Cline). Four miles east of Cave Junction, OR. Timber and medium logging slash. Active fire behavior with group torching, flanking and backing. Residences threatened. Evacuations and road closures in effect.

South Umpqua Complex, Umpqua NF. IMT 2 (Sheldon). Thirty miles southeast of Myrtle Creek, OR. Timber. Active fire behavior with uphill runs, torching and flanking. Residences threatened. Evacuations in effect.

Natchez, Rogue River-Siskiyou NF. IMT 2 (Lawson). IMT is also managing the Klondike and Granite incidents. Fifteen miles southeast of Cave Junction, OR. Timber, chaparral and hardwood litter. Active fire behavior with torching, backing and flanking. Structures and energy infrastructure threatened.

* **Klondike**, Rogue River-Siskiyou NF. Nine miles northwest of Selma, OR. Hardwood litter and brush. Active fire behavior with flanking, torching and uphill runs. Residences threatened.

* **Granite**, Rogue River-Siskiyou NF. Nine miles northwest of Selma, OR. Brush and hardwood litter. Moderate fire behavior with flanking and backing. Residences threatened.

Hendrix, Rogue River-Siskiyou NF. IMT 2 (Harrod). Three miles southwest of Ashland, OR. Timber and medium logging slash. Active fire behavior with uphill runs, single-tree torching and short-range spotting. Residences threatened. Evacuations in effect.

* **Timber Crater 6**, Crater Lake National Park, NPS. IMT 2 (Goff). Twenty miles southwest Chemult, OR. Timber. Active fire behavior with group torching, short crown runs and spotting. Road, area and trail closures in effect.

Sugar Pine, Rogue River-Siskiyou NF. IMT 2 (Gales). Twelve miles northwest of Prospect, OR. Timber. Moderate fire behavior with single-tree torching, backing and uphill runs.

Cemetery, Prineville District, BLM. Transfer of command from IMT 2 (Johnson) back to the local unit will occur on 7/22. Thirty-two miles southeast of Prineville, OR. Timber, brush and tall grass. Minimal fire behavior. Sage-grouse habitat threatened.

* **Boylston**, Southeast Region, Washington DNR. Thirteen miles east of Ellensburg, WA. Brush and tall grass. Extreme fire behavior with running and wind-driven runs. Structures threatened. Evacuations, road and area closures in effect.

* **Buckshot**, Spokane District, BLM. Started on private land two miles south of Mattawa, WA. Brush and tall grass. Active fire behavior with running and spotting. Numerous residences threatened. Evacuations, road and area closures in effect.

* **L RD SW**, Mid-Columbia National Wildlife Refuge Complex, FWS. Nine miles southeast of Mattawa, WA. Brush and grass. Moderate fire behavior with backing, flanking and creeping. Road closures in effect.

Upriver Beacon, Northeast Region, Washington DNR. Three miles northeast of Spokane, WA. Timber, brush and short grass. Minimal fire behavior. Numerous residences threatened. Evacuations, trail and area closures in effect.

HWY 97 & MP 37, Yakama Agency, BIA. Twenty-two miles north of Goldendale, WA. Timber, brush and short grass. No new information. Last report unless new information is received.

Great Basin Area (PL 3)

New fires:	14
New large incidents:	1
Uncontained large fires:	10
Type 2 IMTs committed:	1

Dollar Ridge, Northeast Area, Utah DOF. IMT 2 (Bird). Thirty-six miles southeast of Heber City, UT. Timber, brush and tall grass. Moderate fire behavior with uphill runs and group torching. Numerous residences threatened. Evacuations, road, area and trail closures in effect.

North Hegler, Twin Falls District, BLM. Twelve miles northeast of Sublet, ID. Southern rough, brush and short grass. Active fire behavior with group torching, flanking and backing. Road and area closures in effect. Sage-grouse habitat threatened.

* **Broad**, Humboldt-Toiyabe NF. Three miles northwest of Carvers, NV. Timber and brush. Extreme fire behavior with short crown runs, spotting and torching. Numerous structures threatened. Last report unless significant activity occurs.

Sampson Creek, Ely District Office, BLM. Fifty miles northeast of Ely, NV. Timber, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened. Reduction in acreage due to more accurate mapping.

Lodgepole, Boise NF. Sixteen miles northeast of Garden Valley, ID. Timber, brush and tall grass. Active fire behavior with torching, backing and flanking.

Paine, Ely District Office, BLM. Fifteen miles northeast of Ely, NV. Timber, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened. Trail closures in effect.

Dog Creek, Twin Falls District, BLM. Eight miles northwest of Gooding, ID. Brush and short grass. Minimal fire behavior. Structures, energy infrastructure and sage-grouse habitat threatened. Reduction in acreage due to more accurate mapping.

West Valley, Dixie NF. Ten miles north of St. George, UT. Timber, chaparral and brush. Minimal fire behavior. Road, area and trail closures in effect. Precipitation occurred over the fire area yesterday.

Wood Canyon, Fishlake NF. Twenty miles east of Delta, UT. Short grass. Minimal fire behavior.

Trail Mountain, Manti-La Sal NF. Fifteen miles northwest of Orangeville, UT. Timber and brush. Minimal fire behavior. Road, area and trail closures in effect.

Martin, Humboldt County. Four miles northeast of Paradise Valley, NV. Brush and grass. Minimal fire behavior.

Uncontained large fires:	0

Kevinjik, Upper Yukon Fire Zone, BLM. Previously reported incident. Started on FWS land 43 miles northeast of Chalkyitsik, AK. Timber and short grass. Minimal fire behavior. Last narrative report unless significant activity occurs.

Little Melozitna River, Tanana Fire Zone, BLM. Previously reported incident. Started on state land 50 miles northwest of Tanana, AK. Timber. Minimal fire behavior. Last narrative report unless significant activity occurs.

Predictive Services Discussion: A low-pressure area will drop south into southern British Columbia and will increase the westerly flow over Washington and northern Idaho. Critical fire weather conditions may be possible across the northern Columbia basin as breezy winds develop and interact with low humidities in the afternoon. Further south, the Four Corners high-pressure area will drift east a bit allowing for monsoonal moisture to work its way north into the northern Great Basin ahead of a developing front to the north. The boundary for convective activity will be mostly south of a line from Lake Tahoe to Twin Falls, Idaho to Jackson, Wyoming. In the East, Michigan will receive much needed precipitation from a passing cold front. However, Texas will remain hot and dry as the state sinks further into drought.

Helicopter Performance

Aviation Category

Certain helicopter missions push the limits of the aircraft's performance capabilities. Items that reduce the effectiveness and increase the risk of the mission include weight, temperature, altitude, and visibility.

- Helicopter missions that transport external loads increase risk.
- Helicopters performance/lift capabilities decrease as temperature and/or altitude increase. Be watchful of conditions that are High, Hot and Heavy!
- All helicopters have different maximum performance capabilities, so be aware of the capabilities of the specific helicopter that you are working with.
- Low-level helicopter operations often occur in heavy smoke where hazards (e.g., trees, snags, antennas, visibility, turbulence, and other aircraft) increase the risk level significantly.
- Determine the risk level for every mission. Is the risk level acceptable? Can the risk be mitigated? If the risk is not acceptable or it cannot be mitigated, then the mission should not be flown.
- A large part of the success of a helicopter mission is the result of good communications between the pilot and the user on the ground.
- Accurate target and hazard descriptions are essential to a safe mission. Locate this
 information and relay it to the pilot. Things to consider in the target description
 include:
 - Have you considered what the target would look like from the air?
 - Are you located where the pilot can see you?
 - Do you have a signal mirror?
 - Are you using cardinal directions or clock directions in relation to the track of the aircraft?
 - What is the wind direction? Provide this information to the pilot.
 - Are all firefighters clear of the drop area?
 - Is there a safer way to carry out an effective suppression action?

Activity: If available, have a pilot explain how the load calculation is done and the effects of density altitude on the aircrafts' capability and allowable.
