## National Fire Activity

Initial Attack Activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Light (178) new fires
11
11
11
61
Area Command teams committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 6
Type 2 IMTs committed: 13
Nationally, there are 35 large fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Two MAFFS C-130 airtankers and support personnel from the 146th Airlift Wing (California Air National Guard) have been deployed to McClellan Airfield, CA in support of wildland fire operations.

The U.S. has mobilized 12 federal wildland firefighters to support fire suppression efforts in Ontario, Canada.
One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

## Northwest Area (PL 4)

| New fires: | 17 |
| :--- | :---: |
| New large incidents: | 3 |
| Uncontained large fires: | 23 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 7 |

Garner Complex (4 fires), Grant Pass Unit, ODF. Transfer of command from ODF IMT 1 (Cline) to ODF IMT 1 (Hessel) will occur on $7 / 30$. Four miles east of Cave Junction, OR. Timber and medium logging slash. Active fire behavior with short crown runs, spotting and group torching. Numerous structures threatened. Evacuations, road and area closures in effect.

Natchez, Rogue River-Siskiyou NF. IMT 1 (Livingston). IMT is also managing the Klondike incident. Fifteen miles southeast of Cave Junction, OR. Timber, chaparral and hardwood litter. Active fire behavior with torching, spotting and uphill runs. Structures threatened. Road, area and trail closures in effect.

Klondike, Rogue River-Siskiyou NF. Nine miles northwest of Selma, OR. Hardwood litter and brush. Active fire behavior with torching, spotting and uphill runs. Residences threatened. Road and area closures in effect.

South Umpqua Complex (4 fires), Umpqua NF. IMT 2 (Sheldon). Thirty miles southeast of Myrtle Creek, OR. Timber. Active fire behavior with short-range spotting, torching and uphill runs. Residences threatened. Road and trail closures in effect.

Sugar Pine, Rogue River-Siskiyou NF. IMT 2 (Gales). IMT is also managing the Goodview, Round Top and Union incidents. Twelve miles northwest of Prospect, OR. Timber. Active fire behavior with torching, spotting and uphill runs.

Goodview, Rogue River-Siskiyou NF. Ten miles northwest of Prospect, OR. Moderate fire behavior with torching, creeping and backing. Road closures in effect.

Round Top, Rogue River-Siskiyou NF. Eight miles northeast of Prospect, OR. Minimal fire behavior.
Union, Rogue River-Siskiyou NF. Ten miles northeast of Prospect, OR. Minimal fire behavior.
Timber Crater 6, Crater Lake National Park, NPS. IMT 2 (Goff). Twenty miles southwest of Chemult, OR. Timber. Moderate fire behavior with creeping, isolated torching and smoldering. Area closures in effect.

116 Wilson Prairie, John Day Unit, ODF. IMT 2 (Johnson). Thirty miles south of Heppner, OR. Timber and brush. Moderate fire behavior with single-tree torching, wind-driven runs and short-range spotting. Structures threatened. Road, area and trail closures in effect.

Hendrix, Rogue River-Siskiyou NF. Transfer of command from IMT 2 (Harrod) back to the local unit will occur tomorrow. Nine miles southwest of Ashland, OR. Timber and medium logging slash. Minimal fire behavior. Residences threatened. Road, area and trail closures in effect.

Long Hollow 0806 RN, Prineville District, BLM. IMT 2 (Lawson) mobilizing. Started on private land five miles south of Dufur, OR. Brush and grass. Extreme fire behavior with wind-driven runs and uphill runs. Numerous residences threatened. Evacuations, road, area and trail closures in effect.

* Chelan Hills, Southeast Region, Washington DNR. IMT 2 (Rabe) mobilizing. Two miles east of Chelan, WA. Timber, brush and short grass. Extreme fire behavior with uphill runs and running. Residences threatened. Evacuations, road and area closures in effect.

Substation, Wasco County. Started on private land five miles south of The Dalles, OR. Brush and tall grass. Minimal fire behavior.

Cemetery, Prineville District, BLM. Thirty-two miles southeast of Prineville, OR. Timber, brush and tall grass. Minimal fire behavior. Sage-grouse habitat threatened.

* Pole Creek, Vale District, BLM. Started on state land 20 miles south of Jordan Valley, OR. Timber and short grass. Minimal fire behavior. Sage-grouse habitat threatened.

Big Grassy, Vale District, BLM. Twenty miles east of Rome, OR. Brush and tall grass. No new information. Last report unless new information is received.

## Great Basin Area (PL 4)

| New fires: | 41 |
| :--- | :---: |
| New large incidents: | 2 |
| Uncontained large fires: | 18 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 2 |

MM73 Hwy55, Southwest Area, Idaho Department of Lands. IMT 1 (DeMasters). Twenty-five miles north of Boise, ID. Timber, brush and tall grass. Moderate fire behavior with uphill runs, flanking and backing. Structures threatened.

Mesa, Payette NF. IMT 2 (Chadwick) mobilizing. Four miles south of Council, Idaho. Brush and tall grass. Extreme fire behavior with crowning, running and long-range spotting. Structures threatened. Evacuations, road, area and trail closures in effect.

Keithly, Payette NF. IMT 2 (Bird). Started on private land four miles northwest of Midvale, ID. Brush and tall grass. Active fire behavior with wind-driven runs, uphill runs and backing. Structures and sage-grouse habitat threatened. Evacuations and road closures in effect.

* Goose Creek, Elko District, BLM. Thirty-three miles southeast of Jackpot, NV. Timber and brush. Extreme fire behavior with running, flanking and group torching. Structures and sage-grouse habitat threatened.

Raft River, Salt Lake Field Office, BLM. Five miles southwest of Yost, UT. Timber, brush and short grass. Active fire behavior with running, flanking and group torching. Sage-grouse habitat threatened.

Bruneau, Twin Falls District, BLM. Twelve miles northwest of Murphy Hot Springs, ID. Brush and short grass. Active fire behavior with isolated torching and creeping. Structures and sage-grouse habitat threatened.

Grassy Ridge, Idaho Falls District, BLM. Started on state land 15 Miles northwest of St. Anthony, ID. Brush and short grass. Active fire behavior with running and wind-driven runs. Sage-grouse habitat threatened. Road closures in effect.

Jim Sage, Twin Falls District, BLM. Four miles southeast of Elba, ID. Brush and short grass. Extreme fire behavior with running, torching and crowning. Structures and sage-grouse habitat threatened.

Trestle, Idaho Department of Lands. Started on private land four miles northeast of Smiths Ferry, ID. Timber and brush. Moderate fire behavior with creeping, smoldering and isolated torching. Area closures in effect. Reduction in acreage due to more accurate mapping.

Cove Creek, Fishlake NF. Twenty miles north of Beaver, Utah. Timber and closed timber litter. Active fire behavior with short crown runs, uphill runs and backing. Structures, energy and communication infrastructure threatened. Road, area and trail closures in effect.

Gregg, Winnemucca District, BLM. Twenty-one miles southeast of Winnemucca, NV. Brush and short grass. Minimal fire behavior. Structures threatened.

* Cedar Mountain One, Salt Lake Field Office, BLM. Fourteen miles southwest of Lakeside, UT. Timber, brush and short grass. Extreme fire behavior with uphill runs, spotting and wind-driven runs.

Dollar Ridge, Northeast Area, Utah DOF. Thirty-six miles southeast of Heber City, UT. Timber, brush and tall grass. Moderate fire behavior with flanking, creeping and smoldering. Road and trail closures in effect.

Cat, Boise District, BLM. Eighteen miles northeast of Owyhee, NV. Brush and short grass. Minimal fire behavior. Structures and sage-grouse habitat threatened.

Trail Mountain, Manti-La Sal NF. Fifteen miles northwest Orangeville, UT. Timber and brush. Minimal fire behavior. Road, area and trail closures in effect.

Dixie, Elko District, BLM. Sixteen miles southwest of Elko, NV. Timber, brush and short grass. Minimal fire behavior.

Lodgepole, Boise NF. Sixteen miles northeast of Garden Valley, ID. Timber, brush and tall grass. Minimal fire behavior.

Telegraph, Humboldt-Toiyabe NF. Eight miles northeast of Austin, NV. Brush and short grass. Minimal fire behavior. Structures and sage-grouse habitat threatened. Reduction in acreage due to more accurate mapping.

Prescribed Service Discussion: Hot conditions are expected along the West Coast States as the upper level ridge of high pressure amplifies begins to amplify back into northwestern Oregon. The associated thermal trough will produce very warm and dry conditions with poor overnight recoveries. The previous day's trough will move east-southeast into the northern Great Plains by afternoon. Widely scattered convection is expected from the Washington Cascades east through Montana and into the Dakotas. Wet Monsoonal storms will be possible across Wyoming, Colorado, northern New Mexico, Arizona and Utah. Texas will remain hot and dry...though not as hot as recent days. In the East, a very broad trough will bring cooler temperatures from Tennessee north to the Great Lakes and east to the Atlantic Ocean. Scattered storms are expected along a stalled frontal boundary located across the Deep South. In Alaska, the overall warmer and drier than normal conditions will continue as high pressure remains in place across the Interior. Isolated storms will be possible in the Upper Yukon and could trigger some initial attack.

This Day in History is a brief summary of a powerful learning opportunity and is not intended to second guess or be judgmental of decisions and actions. Put yourself in the following situation as if you do not know what the outcome will be. What are the conditions? What are you thinking? What are YOU doing?

## Stanza Fire Engine Rollover

#### Abstract

Incident Summary: July $22^{\text {nd }} 2002$ a lightning strike starts a fire in Stanza Creek on the Klamath National Forest. The area is steep, rugged and has limited access. Slopes range from 40 to $90 \%$, with rock outcroppings and talus slopes. Roads are narrow and winding, often with precipitous drop-offs. The lack of access precludes efficient use of heavy equipment such as bulldozers. At 2146 July $25^{\text {th }}$ an engine ( $\mathrm{E}-11$ ) from Lassen NF is ordered as a part of a strike team assigned to the Stanza Incident. The engine module is composed of an Acting Captain (experienced qualified engine operator), Senior Firefighter (Acting Engineer trainee), and 3 firefighters. The Acting Captain and Acting Engineer are the only licensed drivers on the module. E -11 is a type III engine with a manual transmission. For operation of this type and size of engine a Commercial Driver's License (CDL) was required. The Acting Engineer had recently received a Class B learners permit. This allows the trainee to get driving experience while accompanied by a fully licensed driver with the same type of CDL. The license is restricted to automatic transmissions only. To get experience, the Acting Captain has the Acting Engineer do most of the driving.

July $\mathbf{2 6}^{\text {th }} \mathbf{0 8 3 0}$-The module departs their home base, ties in with the strike team, and arrives at the Stanza ICP around 1600. Indirect strategies had been effective in securing line along existing roads. Safety concerns included steep, inaccessible terrain, rolling rocks and debris, burning snags and narrow roads.

1800 night shift $\mathbf{2 6}^{\text {th }} \mathbf{- 2 7 ^ { \text { th } }}$-The strike team is assigned to support a burnout operation along a road, and after a briefing, depart for the fireline.

The road, normally 14 feet wide, has since been narrowed by falling debris from the fire above the road to 10-12 feet wide. The road is a winding, dead-end road, 0.7 miles long with a native soil surface. There is a steep drop off on one side. The Acting Captain informs the Division Supervisor that he has a fairly inexperienced driver and it is agreed that the engines will only be used when needed and that, due to the narrowness of the road, they will drive the length and turn around at the end.

0630 July $2^{\text {th }}-\mathrm{E}-11$ is released from the fireline and off duty at fire camp at 0900. They had been on duty for 24 hours.

1730 night shift $\mathbf{2 7}^{\text {th }} \mathbf{- 2 8} \mathbf{8}^{\text {th }}-$ The engine module is assigned to patrol the same location for night shift.

0120 - A water tender drives the narrow section of road that $\mathrm{E}-11$ had been patrolling and reports that his rear tire was directly at the outside edge of the road as he moved over to drive around firefighters on the inside of the road.

0200 - E-11 makes another pass on the road. E-11 approaches the firefighters on the side of the road, and like the water tender, moves over. (The firefighters would later report that the engine seemed unusually close to the outside edge of the road). The rear tires slide off the
side of the road and E-11 plunges 1059 feet down the steep hillside killing 3 firefighters and injuring the other 2 .

## Lessons Learned Discussion Points

We all function in the capacity of "trainee" many times in our careers. On-the-job training is a necessary and valuable part of our learning.

- What can you do to help ensure that your trainee opportunities are challenging and a success?

Many fireline situations are challenging and in an unforgiving environment.

- As a supervisor what can you do to set your trainees up for success?

Of the dual tires that slipped off the road first, the inside tire had significantly less tread than the other tires (less than the acceptable standard). There is an entry in the vehicle log book that the left inner dual needs replacing.

- For your crew, what is the protocol to follow for documenting and correcting a deficiency in your crew vehicles?

The length of duty time for drivers for the 26-27 ${ }^{\text {th }}$ exceeded the standard driving duty limitation of 16 hours with 10 hours driving. Both drivers of $\mathrm{E}-11$ exceeded the driving limitation by 8-9 hours.

- If you or your crew are being asked to exceed your duty limitation, what do you do?

At the rollover site the road is only 27 inches wider than E-11.

- When you and your crew are faced with a situation that has a very narrow margin for error, what are some of your options?
