# National Interagency Coordination Center <br> Incident Management Situation Report <br> Sunday, July 29, 2018 - 0800 MT <br> National Preparedness Level 5 

National Fire Activity
Initial Attack Activity:
New large incidents:
Large fires contained:
Uncontained large fires:**
Moderate (202 fires)
12
9
Area Command teams committed:
0
NIMOs committed: 0
Type 1 IMTs committed: 8
Type 2 IMTs committed: 16
Nationally, there are 39 large fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.
Link to Geographic Area daily reports.

Two MAFFS C-130 airtankers and support personnel from the 146th Airlift Wing (California Air National Guard) have been deployed to McClellan Airfield, CA in support of wildland fire operations.

The U.S. has mobilized 12 federal wildland firefighters to support fire suppression efforts in Ontario, Canada.
One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

## Northwest Area (PL 4)

| New fires: | 25 |
| :--- | :---: |
| New large incidents: | 1 |
| Uncontained large fires: | 22 |
| Type 1 IMTs committed: | 3 |
| Type 2 IMTs committed: | 7 |

Garner Complex (4 fires), Grant Pass Unit, ODF. Transfer of command from ODF IMT 1 (Cline) to ODF IMT 1 (Hessel) will occur tomorrow. Four miles east of Cave Junction, OR. Timber and medium logging slash. Active fire behavior with short crown runs, uphill runs and group torching. Numerous structures threatened. Evacuations, road and area closures in effect.

Klondike, Rogue River-Siskiyou NF. IMT 1 (Livingston). IMT is also managing the Natchez incident. Nine miles northwest of Selma, OR. Hardwood litter and brush. Extreme fire behavior with crowning, group torching and longrange spotting. Residences threatened. Road and area closures in effect.

Natchez, Rogue River-Siskiyou NF. Fifteen miles southeast of Cave Junction, OR. Timber, chaparral and hardwood litter. Active fire behavior with torching, long-range spotting and uphill runs. Structures threatened. Road, area and trail closures in effect.

Sugar Pine, Rogue River-Siskiyou NF. IMT 2 (Gales). IMT is also managing the Goodview, Round Top and Union incidents. Twelve miles northwest of Prospect, OR. Timber. Active fire behavior with torching, spotting and uphill runs. Energy infrastructure threatened.

Goodview, Rogue River-Siskiyou NF. Ten miles northwest of Prospect, OR. Active fire behavior with backing, flanking and torching. Road closures in effect.

Round Top, Rogue River-Siskiyou NF. Eight miles northeast of Prospect, OR. Minimal fire behavior.
Union, Rogue River-Siskiyou NF. Ten miles northeast of Prospect, OR. Minimal fire behavior.
South Umpqua Complex (4 fires), Umpqua NF. IMT 2 (Sheldon). Thirty miles southeast of Myrtle Creek, OR. Timber. Active fire behavior with torching, short crown runs and short-range spotting. Residences threatened. Road and trail closures in effect.

Timber Crater 6, Crater Lake National Park, NPS. IMT 2 (Goff). Twenty miles southwest of Chemult, OR. Timber. Active fire behavior with group torching, running and short-range spotting. Area closures in effect.

116 Wilson Prairie, John Day Unit, ODF. IMT 2 (Johnson). Thirty miles south of Heppner, OR. Timber and brush. Moderate fire behavior with single-tree torching and creeping. Structures threatened. Road, area and trail closures in effect.

Hendrix, Rogue River-Siskiyou NF. Transfer of command from IMT 2 (Harrod) back to the local unit will occur today. Nine miles southwest of Ashland, OR. Timber and medium logging slash. Minimal fire behavior. Residences threatened. Road, area and trail closures in effect.

Long Hollow 0806 RN, Prineville District, BLM. IMT 2 (Lawson). Started on private land five miles south of Dufur, OR. Brush and grass. Extreme fire behavior with wind-driven and uphill runs. Numerous residences threatened. Road, area and trail closures in effect.

Chelan Hills, Southeast Region, Washington DNR. IMT 2 (Rabe). Two miles east of Chelan, WA. Timber, brush and short grass. Moderate fire behavior with flanking and smoldering. Residences threatened. Road and area closures in effect.

Cemetery, Prineville District, BLM. Thirty-two miles southeast of Prineville, OR. Timber, brush and tall grass. Minimal fire behavior. Sage-grouse habitat threatened.

Substation, Wasco County. Started on private land five miles south of The Dalles, OR. Brush and tall grass. Minimal fire behavior.

Pole Creek, Vale District, BLM. Started on state land 20 miles south of Jordan Valley, OR. Timber and short grass. Minimal fire behavior. Sage-grouse habitat threatened.

## Great Basin Area (PL 5)

| New fires: | 25 |
| :--- | :---: |
| New large incidents: | 2 |
| Uncontained large fires: | 14 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 4 |

MM73 Hwy55, Southwest Area, Idaho Department of Lands. Transfer of command from IMT 1 (DeMasters) back to local unit will occur tomorrow. Twenty-five miles north of Boise, ID. Timber, brush and tall grass. Minimal fire behavior. Structures threatened.

* Perry, Carson City District, BLM. IMT 2 (Roide) mobilizing. Thirty miles northeast of Reno, NV. Brush, short grass and closed timber litter. Active fire behavior with running, backing and group torching. Structures and sagegrouse habitat threatened. Evacuations, road and area closures in effect.

Mesa, Payette NF. IMT 2 (Chadwick). Four miles south of Council, Idaho. Brush and tall grass. Active fire behavior with crowning, wind-driven runs and long-range spotting. Numerous structures and sage-grouse habitat threatened. Evacuations, road, area and trail closures in effect.

Grassy Ridge, Idaho Falls District, BLM. IMT 2 (Rohrer). Fifteen miles northwest of St. Anthony, ID. Brush and short grass. Extreme fire behavior with running. Numerous structures and sage-grouse habitat threatened.
Evacuations, road and area closures in effect.

Keithly, Payette NF. IMT 2 (Bird). Started on private land four miles northwest of Midvale, ID. Brush and tall grass. Active fire behavior with spotting and creeping. Residences, energy infrastructure and sage-grouse habitat threatened. Area closures in effect.

Goose Creek, Elko District, BLM Thirty-three miles southeast of Jackpot, NV. Timber and brush. Extreme fire behavior with running, torching and wind-driven runs. Structures and sage-grouse habitat threatened.

* China Jim, Elko District, BLM. Thirteen miles southwest of Grouse Creek, UT. Timber and brush. Extreme fire behavior with running, torching and wind-driven runs. Structures and sage-grouse threatened. Road closures in effect

Cove Creek, Fishlake NF. Twenty miles north of Beaver, UT. Timber and closed timber litter. Active fire behavior with uphill runs, wind-driven runs and flanking. Structures, energy and communication infrastructure threatened. Road, area and trail closures in effect.

Raft River, Salt Lake Field Office, BLM. Five miles southwest of Yost, UT. Timber, brush and short grass. Moderate fire behavior with creeping, group torching and smoldering. Sage-grouse habitat threatened.

Jim Sage, Twin Falls District, BLM. Four miles southeast of Elba, ID. Brush and short grass. Active fire behavior with running, torching and smoldering. Structures and sage-grouse habitat threatened.

Dollar Ridge, Northeast Area, Utah DOF. Thirty-six miles southeast of Heber City, UT. Timber, brush and tall grass. Moderate fire behavior with single-tree torching, flanking and creeping. Road and trail closures in effect

Lodgepole, Boise NF. Sixteen miles northeast of Garden Valley, ID. Timber, brush and tall grass. Moderate fire behavior with group torching and single-tree torching.

Cat, Boise District, BLM. Eighteen miles northeast of Owyhee, NV. Brush and short grass. Minimal fire behavior. Structures and sage-grouse habitat threatened.

Telegraph, Humboldt-Toiyabe NF. Eight miles northeast of Austin, NV. Brush and short grass. Minimal fire behavior. Structures and sage-grouse habitat threatened.

* Refuge, Bear River Area, Utah DOF. Four miles southwest of Reese, UT. Tall grass. Active fire behavior with creeping and wind-driven runs. Last narrative report unless significant activity occurs.

Cedar Mountain One, Salt Lake Field Office, BLM. Fourteen miles southwest of Lakeside, UT. Timber, brush and short grass. Active fire behavior with short crown runs, backing and flanking. Last narrative report unless significant activity occurs.

*1 Hectare = 2.47 Acres

Prescribed Service Discussion: The Four Corners high pressure ridge will remain amplified and strong over the Intermountain West. Near-record high temperatures are expected in several inland locations. Monsoonal convection will be very limited in most areas except Southern California, Arizona, and New Mexico. Breezy southwest winds are expected along the northwestern coastline in the afternoon as a cold front begins to push on shore. In the East, a developing area of low pressure over Missouri will lead to the development of scattered storms. Its frontal boundary will push across Texas late in the day creating scattered wet storms. The southeastern states will remain wet and humid while the Mid-Atlantic States and New England remain warm and dry. In Alaska, a warming and drying trend will return to the Interior as high pressure along the international border begins to strengthen and begins to build into eastern portions of the state.

Propane Tank Safety<br>Miscellaneous Fireline Hazards

Liquefied Propane Gas (LPG) tanks are commonly found in the wildland-urban interface and present hazards to firefighters in that environment. LPG tanks may be found in a number of other environments such as motor homes, travel trailers, grills, camp stoves, lanterns, etc. Directly attacking LPG tank fires is a structural fire task involving hazardous materials and should only be attempted by trained personnel using full structural personal protective equipment and equipped with a volume of water adequate to safely attack the fire.

- Boiling Liquid Expanding Vapor Explosions (BLEVE)
- The most recognized hazard with LPG tanks is BLEVE (Boiling Liquid Expanding Vapor Explosions) or sudden complete failure of the tank. Some training courses have directed responders to approach the tank from the sides, believing that the force of the explosion will occur on the ends of the tank. However, this is not a guarantee that you will be safe from projectiles or missiles from the explosion, as they may travel in ALL directions up to 2,500 feet away. Leave the area immediately if you smell propane; hear a rising sound from venting safety devices or see discoloration or deformation of the tank. If you leave the area, get at least 2,500 feet away and do not go down wind or down slope of the leaking propane. BLEVEs are a major hazard to emergency responders!
- Fuel Reduction Around Tanks
- Wildland firefighters may take action to prevent direct flame impingement on LPG tanks by removing wildland fuels in the area. However, be aware that lines from the tank to structures may be above or below ground, and may be cut by tools or equipment. Propane gas is heavier than air, and may move along the ground at some distance, and may ignite when in reaches open flame or another ignition source. Use extreme caution when doing fuels reduction around tanks, and flag any lines you encounter.
- Other Wildland Fire Considerations
- Do not position engines or other apparatus near LPG tanks or downwind / down slope from tanks.
- Do not deploy fire shelters near LPG tanks or downwind / down slope from tanks.
- Cooling Tanks
- In light fuels such as grasses, where any heat exposure to the tank will be very limited, rapid application of cooling water on the outside of the tank above the liquid level can reduce the likelihood of container failure by lowering the external temperature of the shell of the exposed tank. Water should not be directed at the valve safety devices, due to the potential of "icing" the valve closed.
- In heavy fuels where long duration heat exposure to the LPG tank is likely, evacuate all personnel and equipment 2,500 feet away and not down slope or down wind. NFPA says that direct flame impingement protection requires water flow of at least 500 gpm from an unmanned monitor nozzle. This is a situation for properly trained, equipped and supported structural firefighters.

[^0]:    * Mendocino Complex (2 fires), Mendocino Unit, Cal Fire. Cal Fire IMT 1 (Kavanaugh). Includes previously reported Ranch and River incidents. Five miles south of Potter Valley, CA. Brush, hardwood slash and tall grass. Extreme fire behavior with long-range spotting, torching and uphill runs. Structures, energy and communication infrastructure threatened. Evacuations, road, area and trail closures in effect.

[^1]:    * Pasqual, Monte Vista Unit, Cal Fire. Three miles northwest of Ramona, CA. Chaparral and brush. Minimal fire behavior. Road closures in effect.

[^2]:    * Zimmerman, Wind River/Bighorn Basin District, BLM. Fourteen miles northwest of Thermopolis, WY. Brush and short grass. Active fire behavior with running. Energy infrastructure and sage-grouse habitat threatened.
