Taylor Creek, Medford District, BLM. IMT 1 (Schulte). Ten miles west of Grants Pass, OR. Timber and brush. Active fire behavior with uphill runs, group torching and spotting. Numerous structures and communication infrastructure threatened. Road, area and trail closures in effect.

Sugar Pine, Rogue River-Siskiyou NF. IMT 2 (Gales). IMT is also managing the Goodview, Round Top and Union incidents. Twelve miles northwest of Prospect, OR. Timber. Active fire behavior with running, torching and backing. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Goodview, Rogue River-Siskiyou NF. Ten miles northwest of Prospect, OR. Timber. Active fire behavior with running, backing and torching. Road, area and trail closures in effect.

Round Top, Rogue River-Siskiyou NF. Eight miles northeast of Prospect, OR. Timber. Minimal fire behavior.
Union, Rogue River-Siskiyou NF. Ten miles northeast of Prospect, OR. Timber. Minimal fire behavior.

* South Valley Road, The Dalles Unit, ODF. ODF IMT 1 (Cline). Seven miles southwest of Dufur, OR. Timber and grass. Active fire behavior with wind-driven runs and spotting. Numerous residences threatened. Evacuations in effect.

South Umpqua Complex (3 fires), Umpqua NF. Transfer of command from IMT 2 (Sheldon) to IMT1 (Turman) on $8 / 5$. Thirty miles southeast of Myrtle Creek, OR. Timber. Active fire behavior with wind-driven runs, torching and short-range spotting. Numerous residences threatened. Evacuations, road and trail closures in effect.

Klondike, Rogue River-Siskiyou NF. IMT 1 (Livingston). IMT 1 (Goicoechea) mobilizing. IMT is also managing the Natchez incident. Nine miles northwest of Selma, OR. Timber and brush. Active fire behavior with torching, spotting and uphill runs. Numerous residences threatened. Road, area and trail closures in effect.

Natchez, Rogue River-Siskiyou NF. Fifteen miles southeast of Cave Junction, OR. Timber and chaparral. Active fire behavior with torching, spotting and uphill runs. Structures threatened. Evacuations, road, area and trail closures in effect.

Miriam, Okanogan/Wenatchee NF. IMT 2 (Knerr). Fifteen miles east of Packwood, WA. Timber and brush. Active fire behavior with flanking, group torching and short-range spotting. Numerous structures threatened. Road, area and trail closures in effect.

Cougar Creek, Okanogan/Wenatchee NF. Transfer of command from IMT2 (Rabe) to IMT 1 (Young) will occur tomorrow. Eight miles northwest of Manson, WA. Timber, medium logging slash and closed timber litter. Extreme fire behavior with crowning, wind-driven runs and spotting. Numerous structures threatened. Road and trail closures in effect.

Garner Complex (3 fires), Grants Pass Unit, ODF. Transfer of command from ODF IMT 1 (Hessel) to IMT 1 (Petellat) will occur today. Four miles east of Cave Junction, OR. Timber and medium logging slash. Minimal fire behavior. Numerous structures threatened.

Timber Crater 10, Crater Lake National Park, NPS. IMT 2 (Goff). IMT is also managing the Timber Crater 6 incident. Twenty miles southwest of Chemult, OR. Timber. Moderate fire behavior with isolated torching, shortrange spotting and smoldering. Area closures in effect.

Timber Crater 6, Crater Lake National Park, NPS. Twenty miles southwest of Chemult, OR. Timber. Moderate fire behavior with isolated torching, short-range spotting and smoldering. Area closures in effect.

Crescent Mountain, Okanogan/Wenatchee NF. IMT 1 (Dueitt). Eighteen miles west of Winthrop, WA. Timber. Extreme fire behavior with wind-driven runs and short-range spotting. Numerous residences threatened.

Milepost 90, Washington State. One mile southwest of Wheeler, WA. Brush and tall grass. Minimal fire behavior. Residences threatened.

Sheep Creek, Northeast Region, Washington DNR. Four miles northwest of Northport, WA. Timber. Extreme fire behavior with group torching, wind-driven runs and short-range spotting. Structures and communication infrastructure threatened. Road and area closures in effect.

Long Hollow 0806 RN, Prineville District, BLM. Started on private land five miles south of Dufur, OR. Brush and grass. Minimal fire behavior. Road, area and trail closures in effect.

Hendrix, Rogue River-Siskiyou NF. Nine miles southwest of Ashland, OR. Timber and medium logging slash. Minimal fire behavior. Residences threatened. Road, area and trail closures in effect.

Warner Gulch, Southeast Region, Washington DNR. Eleven miles southwest of Asotin, WA. Brush and short grass. Minimal fire behavior.

* Angel Springs, Northeast Region, Washington DNR. Eight miles northeast of Davenport, WA. Timber, brush and tall grass. Active fire behavior with running, spotting and group torching. Residences threatened. Evacuations and road closures in effect.
* Saddle Mountain, Spokane District, BLM. Twenty-five miles east of Mattawa, WA. Brush and short grass. Minimal fire behavior. Energy infrastructure threatened. Road closures in effect.

Pole Creek, Vale District, BLM. Started on state land 20 miles south of Jordan Valley, OR. Timber and short grass. No new information.

116 Wilson Prairie, John Day Unit, ODF. Thirty miles south of Heppner, OR. Timber and brush. No new information. Last report unless new information is received.

Predictive Services Discussion: Breezy and dry conditions will continue across the northwestern portion of the country as a weakening southwesterly flow continues and as the weakened Four Corners High remains centered over Southern California and the eastern Pacific Ocean. While temperatures will be near normal in most areas, critical fire weather conditions will remain possible across portions of the northern Great Basin, Pacific Northwest, and the Northern Rockies. Isolated dry storms will be possible across parts of Oregon and southwest Montana. To the south, the weakened Four Corners high pressure area will continue to lift monsoonal moisture northward into the Southwest for continued afternoon and evening storm development. An onshore westerly flow will keep conditions near normal across California. Texas will remain hot and dry under the influence of both the Four Corners and Bermuda High pressure ridges. A frontal boundary stalled across the Mid-Atlantic States and the Tennessee River Valley will lead to scattered afternoon storms.

\title{
Refusing Risk
}

Operational Engagement Category

Every firefighter has the right and obligation to report safety problems and contribute ideas regarding their safety. Supervisors are expected to give these concerns and ideas serious consideration. When an individual feels an assignment is unsafe, they also have the obligation to identify, to the degree possible, safe alternatives for completing that assignment. Turning down an assignment is one possible outcome of managing risk.
- A turn down is a situation where an individual has determined an assignment cannot be undertaken as given, and they are unable to negotiate an alternative solution.
- A turn down must be based on an assessment of risks and the ability of an individual or organization to control those risks.
- A situation may be a candidate for a turndown if:
- There is a violation of safe work practices.
- Environmental conditions make the work unsafe.
- The forces lack the necessary qualifications or experience.
- Defective equipment is being used.
- The following steps will be used when turning down an assignment:
- The individual will directly inform their supervisor that they are turning down the assignment as given. (Document using criteria outlined in the risk management process.)
- Supervisor will notify the Safety Officer immediately upon being informed. In the absence of a Safety Officer, the appropriate Section Chief or Incident Commander will be notified. This step provides accountability for decisions and initiates communication of safety concerns.
- If the supervisor requests another resource to perform the assignment, he/she is responsible for informing that resource that the assignment has previously been refused and the reason(s) why.
- The safety hazard should be documented by the submission of a SAFENET or SAFECOM.
- These actions do not stop an operation from being carried out. This protocol is integral to the effective management of risk as it provides timely identification of hazards to the chain of command, raises risk awareness for both leaders and subordinates, and promotes accountability.
